parcels.txt

Contains one row per real property tax account. A parcel may be a tract of land and the improvements upon it, a building only (e.g., a mobile home in a mobile home park), a portion of an administratively segregated parcel (e.g., a tax-exempt portion of a parcel), or a unit in a condominium.

Field delimiter: Tab character

Text qualifier: {none}

Field name	Data type	Description
rp_acct_id	Number	Also known as process number or LRSN. Primary key.
acct_no	Text	Also known as tax account number or tax parcel number
