

- 1 2. On July 25, 2022, during a regularly scheduled and properly noticed meeting, DCD presented
2 the Board of County Commissioners with a work plan to discuss the proposed administrative
3 amendments to Kitsap County Code Titles 16, 17, 18, 19, 21 and 22. The Board approved the
4 work plan for this project.
5
- 6 3. Public outreach regarding the proposed amendments was conducted through a dedicated up-
7 to-date web page, postings in the Kitsap Sun newspaper, direct notification to over 2,200
8 GovDelivery subscribers, direct email notifications and meetings with various interested
9 parties.
- 10 4. On August 16, 2022, during a regularly scheduled and properly noticed meeting, the
11 Planning Commission held a work study session to review and discuss the proposed
12 administrative amendments.
- 13 5. On XXX, Kitsap County issued a Notice of Public Hearing for the Planning Commission in
14 the legal publication of record regarding the content of the proposed amendments.
- 15 6. On XXX, following timely and effective public notification, the Planning Commission held a
16 public hearing to accept comments from interested parties.
- 17 7. On XXX, the written comment period closed with the Planning Commission receiving a total
18 of XX public comments.
- 19 8. On XXX, during a regularly scheduled and properly noticed meeting, the Planning
20 Commission considered the proposed amendments, the testimony presented, and the record,
21 and made recommendations via approved motions during deliberations.
- 22 9. On XXX 2022, a 60-day Notice of Intent to Adopt was sent to the Washington State
23 Department of Commerce as required by RCW 36.70A.106.
- 24 10. On XXX, 2022, a State Environmental Policy Act (SEPA) Determination of Non-
25 significance was issued for proposed amendments. A fourteen-day comment period
26 concluded on October XXX, 2022.
- 27 11. On XXX, 2022, during a regularly scheduled and properly noticed meeting, the Planning
28 Commission approved findings of fact, conclusions, and recommendations regarding the
29 proposed amendments and forwarded them to DCD and the Kitsap County Board of County
30 Commissioners for consideration.
- 31 12. On XXX, Kitsap County issued a Notice of Public Hearing for the Board of County
32 Commissioners in the legal publication of record regarding the content of the proposed
33 amendments.
- 34 13. On XXX, following timely and effective public notification, the Board held a public hearing
35 to accept comments from interested parties.
- 36 14. On XXX, the written comment period closed with Board receiving a total of XX public
37 comments.

1 15. On XXX, 2022, during a regularly scheduled and properly noticed meeting, the Board of
2 County Commissioners considered the proposed amendments, ordinance, the testimony
3 presented, and the record. The Board moved to continue deliberations to the XXX, 2022
4 Board of County Commissioners meeting.

5 16. On XXX, 2022, during a regularly scheduled and properly noticed meeting, the Kitsap
6 County Board of Commissioners continued deliberations and adopted the Ordinance.

7
8 **Section 3: General Substantive Findings. The Kitsap County Board of Commissioners**
9 **(Board) makes the following substantive findings:**

- 10 1. The proposed code amendments were developed with multiple opportunities for public
11 participation and comment as required by GMA and the State Environmental Policy Act
12 (SEPA), chapter 43.21C RCW.
- 13 2. The proposed code amendments were developed according to, and are compliant with, the
14 requirements of GMA, chapter 36.70A RCW, the Countywide Planning Policies, the Kitsap
15 County Comprehensive Plan, Kitsap County Code, and other applicable laws and policies.
- 16 3. The proposed code amendments are consistent with the Kitsap County Comprehensive Plan
17 by:
- 18 a. Eliminating or reducing conflicting provisions of code.
 - 19 b. Adding clarity to existing sections of code without changing meaning or intent of
20 language.
 - 21 c. Removing redundancy or regulation that is no longer applicable
 - 22 d. Creating more predictability and certainty in development standards and the permit
23 review process.
- 24 4. The proposed code amendments promote the public interest and welfare of the citizens of
25 Kitsap County.

26
27 **Section 4: Kitsap County Code Section 17.420.060 Footnotes for tables, last amended by**
28 **Ordinance 587-2020, is amended as follows:**

29
30 **17.420.060 Footnotes for tables.**

- 31 A. Where noted on the preceding tables, the following additional provisions apply:
- 32
 - 33 1. Except for those buildings directly associated with timber production and harvest.
 - 34
 - 35 2. Except for silos and other uninhabited agricultural buildings.
 - 36
 - 37 3. Properties within the urban restricted (UR) zone and greenbelt (GB) may subdivide at
38 densities below the minimum required for the zone under the following circumstances:
39

1 a. The reduced density provides a greater protection for critical areas or environmentally
2 sensitive areas; and

3
4 b. The intent of the short subdivision or subdivision is to keep the property in the
5 ownership of the immediate family members.
6

7 4. If a single lot of record, legally created as of April 19, 1999, is smaller in total square
8 footage than that required under this chapter, or if the dimensions of the lot are less than
9 required, said lot may be occupied by any reasonable use allowed within the zone subject to all
10 other requirements of this chapter. If there are contiguous lots of record held in common
11 ownership, each of the lots legally created as of April 19, 1999, and one or more of the lots is
12 smaller in total square footage than required by this chapter, or the dimensions of one or more
13 of them are less than required, said lots shall be combined to meet the minimum lot
14 requirements for size and dimensions.
15

16 5. The Design Standards for the Community of Kingston sets forth policies and regulations
17 for properties within the downtown area of Kingston. All development within this area must be
18 consistent with these standards in Chapter 17.700, Appendix C1.
19

20 6. Building replacements and remodels shall not create in excess of a total of forty percent
21 hard surface for lot area or more than the total existing hard surface area, whichever is greater.
22

23 7. Excess area from acreage used to support proposed densities but not devoted to residential
24 lots and public improvements such as streets and alleys shall be permanently dedicated and
25 reserved for community open space, park land, and similar uses. For developments proposing
26 densities no greater than one dwelling unit per five acres, the minimum and maximum lot sizes
27 shall not apply, except that existing dwelling units shall be allocated lot area between three
28 thousand five hundred and seven thousand five hundred square feet. New proposals may then
29 proceed using the five-acre lot requirements for the rural residential (RR) zone.
30

31 8. Hotels may be developed with four above-ground floors and up to a height not exceeding
32 fifty feet with approval of the fire marshal and relevant fire district.
33

34 9. May be reduced to ten feet for residential uses through the administrative conditional use
35 or PBD process.
36

37 10. Uses allowed through the conditional use process shall provide minimum side setbacks of
38 ten feet and minimum rear setbacks of twenty feet.
39

40 11. Any newly created lot within the Suquamish rural village shall be subject to Chapter
41 16.48, Short Subdivisions, and must meet the lot requirements below:
42

43 a. Lot Requirements.
44

45 i. Minimum lot size: twenty-one thousand seven hundred eighty square feet.
46

1 ii. Minimum lot width: one hundred feet.

2
3 iii. Minimum lot depth: one hundred feet.

4
5 b. Setbacks.

6
7 i. Front: twenty feet.

8
9 ii. Side: five feet.

10
11 iii. Rear: five feet.

12
13 12. Nonconforming Lots.

14
15 a. Nonconforming Lots in Single Ownership. If a single lot of record, legally created before
16 the adoption of the Manchester Community Plan, is less than eight thousand seven hundred
17 twelve square feet in size or does not meet the dimensional requirements of its zone, the lot
18 may be occupied by any use allowed within the zone subject to all other requirements of this
19 chapter.

20
21 b. Nonconforming Lots in Common Ownership. Contiguous lots of record held in common
22 ownership, each lot legally created before adoption of the Manchester Community Plan, must
23 be combined to meet the minimum lot requirements of its zone if one or more of the lots are
24 less than eight thousand seven hundred twelve square feet in size or do not meet the
25 dimensional requirements of its zone and, at the time of adoption of the Manchester
26 Community Plan (March 18, 2002), either (i) a residential structure encumbered more than
27 one of the contiguous lots or (ii) two or more of the contiguous lots were vacant. If one or
28 more of the lots is sold or otherwise removed from common ownership after the adoption of
29 the Manchester Community Plan, it will not be considered to meet the minimum lot
30 requirements for nonconforming lots in single ownership. Property with two contiguous lots
31 legally created before adoption of the Manchester Community Plan with a residential
32 structure entirely on one lot may develop the second lot consistent with applicable zoning.

33
34 13. Residential structures within the MVC zone may not exceed twenty-eight feet.

35
36 14. Within the view protection overlay, the maximum height for buildings and new
37 vegetation shall be twenty-eight feet. Height shall be measured from the average elevation of
38 the property's buildable area to the structure's highest point. Kitsap County will not enforce
39 vegetation height standards. Buildable area is considered all portions of the property except
40 wetlands and/or geologically hazardous areas. Properties within the view protection overlay
41 zone may build or have new vegetation as high as thirty-five feet under the following
42 circumstances:

43
44 a. There is no existing view of downtown Seattle, the Cascade Mountains, Mt. Rainier or
45 the Puget Sound from the subject property or any adjacent property; or

1 b. The owners of all adjacent properties approve the building height prior to building
2 permit issuance; or

3
4 c. It can be explicitly shown that the structure will not cause the blockage of existing views
5 from any of the adjacent properties.
6

7 15. Clustering residential development is encouraged in all development. When clustering
8 development, if a property owner designates forty percent of the gross acreage as naturally
9 vegetated open space, he or she may create one additional lot for every five lots clustered. The
10 additional lot may not reduce the naturally vegetated open space to an amount less than forty
11 percent of the gross acreage of the development.
12

13 16. All properties within the Manchester village must also meet the requirements of the
14 stormwater management ordinance, Chapters 12.04 through 12.32.
15

16 17. A greater height may be allowed as set forth below and in accordance with the
17 procedures in Title 21. Such approval must be consistent with the recommendations of the fire
18 marshal/fire district and compatible with surrounding uses and zones. Such approval shall
19 result in a decrease in building coverage, an increase in public amenities, and/or a more
20 creative or efficient use of land. The maximum building height approved by the director shall
21 not exceed:
22

23 a. In the NC and P zones: forty-five feet.

24 b. In the UH and C zones: sixty-five feet.

25 c. In the UM, BP, BC, and IND zones: fifty-five feet.
26

27 d. Height and density requirements for urban high and regional center reflected in Section
28 17.420.058, Silverdale regional center and design district density and dimension table.
29

30 18. The minimum and maximum densities within the range are based upon the net acreage of
31 the property(ies) after the removal of critical areas. In determining a development proposal's
32 actual density within the range, the features of the subject parcel including on-site or adjacent
33 wetlands, streams or steep slopes shall be considered first.
34
35
36

37 19. These zones are not intended to accommodate population growth and therefore do not
38 have allowed density. However, limited new residential uses may occur in these zones which
39 support the intent of these zones to provide employment and services. Therefore, up to one
40 dwelling unit may be allowed per existing parcel for the limited residential uses allowed in
41 Chapter 17.410.
42

43 20. The Design Standards for the Community of Keyport sets forth policies and regulations
44 for properties within the downtown area of Keyport. All development within this area must be
45 consistent with these standards in Chapter 17.700, Appendix C2.
46

- 1 21. Twenty feet when abutting a residential zone.
2
3 22. Maximum height shall be thirty feet when located within the two-hundred-foot shoreline
4 area.
5
6 23. The minimum site setback shall be seventy-five feet for any yard abutting a residential
7 zone, unless, based upon a site-specific determination, berming and landscaping approved by
8 the director is provided that will effectively screen and buffer the business park activities from
9 the residential zone that it abuts; in which case, the minimum site setback may be reduced to
10 less than seventy-five feet but no less than twenty-five feet. In all other cases, minimum site
11 setbacks shall be twenty feet.
12
13 24. Reserved.
14
15 25. For new building permit applications for residential or dwelling units on vacant lots over
16 eighteen thousand square feet located in urban low residential (ULR) and urban cluster
17 residential (UCR) zones, the maximum lot size shall not exceed nine thousand square feet. This
18 restriction shall not apply if:
19
20 a. The net developable area of the existing parcel is less than eighteen thousand square feet;
21 or
22
23 b. The project application will meet minimum density requirements as established by this
24 chapter.
25
26 26. No service road, spur track, or hard stand shall be permitted within required yard areas
27 that abut a residential zone.
28
29 27. As approved by the director, wherever an industrial zone abuts a residential zone, a fifty-
30 foot screening buffer area shall be provided. This screening buffer is intended to reduce
31 impacts to abutting residential uses such as noise, light, odors, dust and structure bulk. No
32 structures, open storage, or parking shall be allowed within this area. The director shall only
33 approve screening buffers that improve the compatibility between the proposed use and the
34 residential zone. The director may reduce this buffer to a minimum of twenty-five-foot width
35 only when based upon a site-specific determination that topography, berming or other
36 screening features will effectively screen industrial activities from the residential zone.
37 Conversely, based upon a similar site-specific determination, the director may increase the
38 buffer width from fifty feet to ensure adequate buffering and compatibility between uses.
39
40 28. Unless part of an approved zero-lot-line development.
41
42 29. One-hundred-foot setback required for single-family buildings abutting FRL or RW
43 zones.
44
45 30. No minimum lot size if property is used only for extraction.
46

1 31. Three hundred thirty feet if activity includes any uses in Section 17.170.020.

2
3 32. Existing lots developed with existing single-family residences are permitted to be
4 maintained, renovated and structurally altered. Additions to existing residential structures in
5 order to provide commercial uses are also permitted regardless of density.

6
7 33. Except for the height and density requirements reflected in Section 17.420.058,
8 Silverdale regional center and design district density and dimension table, all development
9 within the Silverdale design district boundaries must be consistent with the Silverdale Design
10 Standards found in Chapter 17.700, Appendix C3.

11
12 34. Development abutting a street for which a standard has been established by the Kitsap
13 County arterial plan shall provide a special setback from the centerline of said street or a
14 distance adequate to accommodate one-half of the right-of-way standard established by the
15 arterial plans for the street. The building setback required by the underlying zone shall be in
16 addition to the special setback and shall be measured from the edge of the special setback line.
17 The special setback area shall be treated as additional required yard area and reserved for
18 future street widening purposes.

19
20 35. Reserved.

21
22 36. For standards applicable to master planned industrial developments and approved
23 industrial parks, see Sections 17.320.030 and 17.330.030.

24
25 37. Adjacent to airports, the director may impose height restrictions and/or other land use
26 controls as deemed essential to prevent the establishment of air space obstructions in air
27 approaches to protect the public health, safety and welfare consistent with Federal Aviation
28 Regulations (FAR) Part 77.

29
30 38. Reserved.

31
32 39. Reserved.

33
34 40. Height limitations set forth elsewhere in this title shall not apply to the following: barns,
35 silos, or other farm buildings and structures, provided they are not less than fifty feet from
36 every lot line; chimneys, spires on places of worship, belfries, cupolas, domes, smokestacks,
37 flagpoles, grain elevators, cooling towers, solar energy systems, monuments, fire house towers,
38 masts, aerials, elevator shafts, and other similar projections; and outdoor theater screens,
39 provided said screens contain no advertising matter other than the name of the theater. The
40 proponent seeking exception to the height limitation shall certify that the object being
41 considered under this provision will not shade an existing solar energy system which, by the
42 determination of the director, contributes substantially to the space- or water-heating
43 requirements of a building.

44
45 41. The following exceptions apply to front yard requirements for dwellings:
46

- 1 a. If there are dwellings on both abutting lots with front yards less than the required depth
2 for the zone, the front yard for the lot need not exceed the average front yard of the abutting
3 dwellings.
4
- 5 b. If there is a dwelling on one abutting lot with a front yard less than the required depth for
6 the zone, the front yard need not exceed a depth of halfway between the depth of the front
7 yard on the abutting lot and the required front yard depth.
8
- 9 c. If a modification to the front yard requirement is necessary in order to site dwellings in a
10 manner that maximizes solar access, the director may modify the requirement.
11
- 12 d. On lots with multiple front yards, the front yard setback(s) in which the lot does not
13 receive access may be modified by the director. Based upon topography, critical areas or
14 other site constraints, the director may reduce these front yard setbacks to a minimum of
15 twenty feet for properties requiring fifty feet and ten feet for properties requiring twenty feet.
16 The director may not modify front yard setbacks from county arterials or collectors. Such
17 reductions shall not have an adverse impact to surrounding properties.
18

19 42. The following exceptions apply to historic lots:
20

- 21 a. Building setback lines that do not meet the requirements of this title but were legally
22 established prior to the adoption of this title shall be considered the building line for
23 alterations, remodels, and accessory structures on the lot or parcel; providing, that no
24 structure or portion of such addition may further project beyond the established building line
25
- 26 b. Any single-family residential lot of record as defined in Chapter 17.110 that has a
27 smaller width or lot depth than that required by this title, or is less than one acre, may use
28 that residential zoning classification that most closely corresponds to the dimension or
29 dimensions of the lot of record, for the purpose of establishing setbacks from the property
30 lines.
31

32 43. Any structure otherwise permitted under this section may be placed on a lot or parcel
33 within a required yard area if the director finds that such a location is necessary because
34 existing sewer systems or roadways make compliance with the yard area requirements of this
35 title impossible without substantial changes to the site.
36

37 44. Reserved.
38

39 45. Density in the KVLR zone may be increased to three units per acre through a
40 performance-based development (PBD) process pursuant to the regulations cited in Section
41 17.360A.030(B).
42

43 46. A front porch and associated steps shall meet a minimum five-foot setback from the front
44 property line and the following requirements:
45

- 46 a. Porches shall be at least forty percent open on each of two sides.

1
2 b. Porches shall be a minimum of four feet by six feet.
3

4 47. The Manchester Design Standards sets forth policies and regulations for properties within
5 the Manchester village commercial (MVC) zone. All developments within the MVC zone must
6 be consistent with the standards found in Chapter 17.700, Appendix C4.
7

8 48. Shoreline properties are subject to Title 22 and may have additional buffers and setbacks
9 requirements not listed in the density and dimension tables. Properties constrained by critical
10 areas are subject to Title 19 and may have additional buffers and setbacks requirements not
11 listed in the density and dimension tables. Cornices, canopies, eaves, belt courses, sills, bay
12 windows, fireplaces or other similar cantilevered features may extend up to twenty-four inches
13 into any required yard area. In no case shall a habitable area be considered for encroachment
14 into a required yard through any land use process. Additionally, fire escapes, open/uncovered
15 porches, balconies, landing places or outside stairways may extend up to twenty-four inches
16 into any required side or rear yards. Open/uncovered porches, balconies, landing places, or
17 outside stairways shall not extend more than six feet into any required front yard and shall be a
18 minimum of five feet from the front property line.
19

20 49. Minimum project size applies to the initial land use application for the property such as
21 master plan, PBD or other mechanism. Subsequent subdivision through platting or binding site
22 plan consistent with scope and conditions of the land use approval is not required to meet this
23 minimum size.
24

25 50. New or remodeled structures within the Illahee View Protection Overlay may not exceed
26 twenty-eight feet. Kitsap County will not enforce vegetation height standards.
27

28 51. Reserved.
29

30 52. No motor vehicle parking allowed within the front yard setback. See also Section
31 17.400.060 regarding conditions under which maximum setbacks may increase, as well as
32 parking location standards.
33

34 53. Within the Gorst urban growth area, density, impervious surface coverage and height
35 may be increased to the maximum listed in the density and dimensions table through
36 compliance with the incentive program described in Section 17.400.080(B).
37

38 54. Standard listed applicable to Gorst UGA only.
39

40 55. Parcels located within the Silverdale Regional Growth Center shall refer to the design
41 standards identified in Section 17.420.058, Silverdale regional center and design district
42 density and dimension table.
43

44 56. Height and density may be increased through Chapter 17.450, Performance Based
45 Development, or if a project qualifies as mixed use development and meets modification or

1 waiver request criteria as identified in Section 17.420.035, Additional mixed use development
2 standards.

3
4 57. Mixed use projects are not required to meet the minimum density requirements.

5
6 58. As part of a town master plan developed under Section 17.360C.030, maximum density
7 shall apply to the entirety of the RHT rather than a specific RHT zone. The density of any
8 specific development shall maintain the historic character of the RHT and shall not cause the
9 total number of dwelling units within the RHT to exceed two hundred ninety-five. However,
10 no units shall be transferred into the RHTW zone from other zones in the RHT.

11
12 **Section 5: Kitsap County Code Section 19.100.135 Variances, last amended by Ordinance**
13 **545-2017, is amended as follows:**

14
15 **19.100.135 Variances**

16 A. A variance in the application of the regulations or standards of this title to a particular piece
17 of property may be granted by Kitsap County, when it can be shown that the application meets
18 all of the following criteria:

19 1. Because of special circumstances applicable to the subject property, including size, shape,
20 or topography, the strict application of this title is found to deprive the subject property of
21 rights and privileges enjoyed by other properties in the vicinity; provided, however, the fact
22 that those surrounding properties have been developed under regulations in force prior to the
23 adoption of this ordinance shall not be the sole basis for the granting of a variance.

24 2. The special circumstances referred to in subsection (A)(1) of this section are not the result
25 of the actions of the current or previous owner.

26 3. The granting of the variance will not result in substantial detrimental impacts to the critical
27 area, public welfare or injurious to the property or improvements in the vicinity and area in
28 which the property is situated or contrary to the goals, policies and purpose of this title.

29 4. The granting of the variance is the minimum necessary to accommodate the permitted use.

30 5. No other practicable or reasonable alternative exists. (See Definitions, Chapter 19.150.)

31 6. A mitigation plan (where required) has been submitted and is approved for the proposed
32 use of the critical area.

33 B. Kitsap County shall conduct a public hearing on all variance applications pursuant to the
34 review process and notice requirements established in Title 21 (Land Use and Development
35 Procedures), as now or hereafter amended.

36 C. Except when application of this title would deny all reasonable use of the property
37 (Section 19.100.140), an applicant who seeks an exception from the standards and requirements
38 of this title shall pursue relief by means of a variance as provided for in this title.

- 1 D. Requests for variances shall include the application requirements of
2 Section [19.100.155](#) (General application requirements), or [19.200.215](#) (Wetland review
3 procedures), whichever is applicable.
- 4 E. The department shall review administrative buffer reductions based on the criteria and
5 standards referenced in this chapter.
- 6 F. The department may grant variances for public utilities to the substantive or procedural
7 requirements of this title when:
- 8 1. Application of this title to the utility’s activities would be inconsistent with the
9 Comprehensive Plan and the utility’s public service obligations;
 - 10 2. The proposed utility activity does not pose an unreasonable threat to the public health,
11 safety or welfare on or off the development proposal site; and
 - 12 3. Any alterations permitted to these critical areas shall be the minimum necessary to
13 reasonably accommodate the proposed utility activity and mitigate when feasible.

14 G. Where variances to dimensional standards in KCC 17.420 might result in eliminating or
15 reducing the need for a Critical Area Variance, those variances shall be considered and
16 exhausted prior to consideration of a Critical Area Variance.
17

18 **Section 6: Kitsap County Code Section 22.500.100 Permit application review and permit**
19 **types, last amended by Ordinance 598-2021, is amended as follows:**
20

21 **22.500.100 Permit application review and permit types**

22 A. Permit Application Review.

- 23 1. No authorization to undertake use or development on shorelines of the state shall be
24 granted by Kitsap County unless upon review the use or development is determined to be
25 consistent with the policy and provisions of the Act and this program.
- 26 2. No permit shall be issued for any structure of more than thirty-five feet above average
27 grade level on shorelines of the state that will obstruct the view of a substantial number of
28 residences on areas adjoining such shorelines, except where allowed through a variance, and
29 then only when overriding considerations of the public interest will be served.
- 30 3. Consolidated permit review shall occur pursuant to the procedures in Chapter [21.04](#).
- 31 4. State Environmental Policy Act (SEPA) compliance shall be required for non-SEPA
32 exempt projects, pursuant to the procedures in Title [18](#).
- 33 5. Permit review times and procedures for projects on a state highway shall be processed in
34 accordance with RCW [47.01.485](#) and [90.58.140](#).

1 B. Substantial Development Permit.

2 1. The Act provides that no substantial development shall be undertaken on the shorelines of
3 the state without first obtaining a substantial development permit (SDP).

4 2. An SDP shall be classified under Chapter [21.04](#).

5 3. An SDP shall be granted only when the applicant can demonstrate that the proposed
6 development is consistent with the policies and procedures of the Act and this program, as well
7 as criteria in WAC [173-27-150](#).

8 4. The Act provides a limited number of exceptions to the definition of substantial
9 development. Those exceptions are contained in RCW [90.58.030](#) and are summarized below in
10 subsection (C)(3) of this section, and do not require an SDP. Whether or not a development
11 constitutes a substantial development, all development must comply with the requirements
12 contained in the Act and this program and may require other permits or approvals under this
13 master program. Permits may be issued with limitations or conditions to assure consistency
14 with the Act and this program.

15 5. All applications for shoreline substantial development permits or permit revisions shall be
16 submitted to the Department of Ecology upon a final decision by local government pursuant to
17 WAC [173-27-130](#). “Final decision by local government” shall mean the order of ruling,
18 whether it be an approval or denial, that is established after all local administrative appeals
19 related to the permit have concluded or the opportunity to initiate such appeals has lapsed.

20 C. Exemptions from Substantial Development Permits.

21 1. Certain activities, developments or uses are exempt from the substantial development
22 permit requirements of the Act and this program. These developments are those set forth in
23 WAC [173-27-040](#) (or as amended), and do not meet the definition of substantial development
24 under RCW [90.58.030](#)(3)(e). A summary of exempt developments is listed in subsection (C)(3)
25 of this section, the application of which shall be guided by WAC [173-27-040](#) (or as amended).

26 2. Application and Interpretation of Exemptions.

27 a. Exemptions shall be construed narrowly. Only those developments that meet the precise
28 terms of one or more of the listed exemptions may be granted exemption from the substantial
29 development permit process.

30 b. An exemption from the SDP process is not an exemption from compliance with the Act
31 or this master program, or from any other regulatory requirements. To be authorized, all uses
32 and developments must be consistent with the policies and provisions of this master program
33 and the Act and obtain a statement of exemption approved by the director on receipt of a
34 qualifying shoreline exemption application and minimum submittal requirements established
35 by the department. A development or use that is listed as a conditional use pursuant to this
36 master program or is an unlisted use must obtain a CUP even though the development or use

1 does not require an SDP. When a development or use is proposed that does not comply with
2 the bulk, dimensional and performance standards found in Chapters 22.400 and 22.600, such
3 development or use can only be authorized by approval of a shoreline variance (see
4 subsection (E) of this section).

5 c. An exemption from the SDP process is not an exemption from a CUP or an
6 administrative CUP where applicable.

7 d. The burden of proof that a development or use is exempt from the permit process is on
8 the applicant.

9 e. If any part of a proposed development is not eligible for exemption, then an SDP is
10 required for the entire proposed development project.

11 f. The county may attach conditions to the approval of exempted developments and/or uses
12 as necessary to assure consistency of the project with the Act and this master program.

13 3. The following list of developments, summarized from WAC 173-27-040, shall not require
14 SDPs:

15 a. Any development of which the total cost or fair market value, whichever is higher, does
16 not exceed \$7,047.00, if such development does not materially interfere with the normal
17 public use of the water or shorelines of the state. The dollar threshold established in this
18 subsection is adjusted for inflation by the Washington State Office of Financial Management
19 every five years. The total cost or fair market value of the development shall include the fair
20 market value of any donated, contributed or found labor, equipment or materials;

21 b. Normal maintenance or repair of existing structures or developments, including damage
22 by accident, fire or elements;

23 c. Construction of the normal protective bulkhead common to single-family residences. A
24 “normal protective” bulkhead includes those structural and nonstructural developments
25 installed at or near, and parallel to, the OHWM for the sole purpose of protecting an existing
26 single-family residence and appurtenant structures from loss or damage by erosion;

27 d. Emergency construction necessary to protect property from damage by the elements;

28 e. Construction and practices normal or necessary for farming, irrigation, and ranching
29 activities;

30 f. Construction or modification of navigational aids such as channel markers and anchor
31 buoys;

32 g. Construction on shorelands by an owner, lessee or contract purchaser of a single-family
33 residence for their own use or for the use of their family, which residence does not exceed a

1 height of thirty-five feet above average grade level and which meets all requirements of
2 Kitsap County or a state agency having jurisdiction thereof, other than requirements imposed
3 pursuant to Chapter 90.58 RCW. “Single-family residence” means a detached dwelling
4 designed for and occupied by one family including those structures and developments within
5 a contiguous ownership which are a normal appurtenance. An “appurtenance” is necessarily
6 connected to the use and enjoyment of a single-family residence and is located landward of
7 the ordinary high water mark and the perimeter of a wetland. On a statewide basis, normal
8 appurtenances include a garage; deck; driveway; utilities; fences; installation of a septic tank
9 and drainfield and grading which does not exceed two hundred fifty cubic yards and which
10 does not involve placement of fill in any wetland or waterward of the ordinary high water
11 mark. Construction authorized under this exemption shall be located landward of the
12 ordinary high water mark;

13 h. Construction of a dock, including a community dock, designed for pleasure craft only,
14 for the private noncommercial use of the owner, lessee, or contract purchaser of single-
15 family and multiple-family residences. This exception applies if either:

16 i. In salt waters, the fair market value of the dock does not exceed \$2,500.00;

17 ii. In fresh waters, the fair market value of the dock does not exceed \$22,500.00 for docks
18 that are constructed to replace existing docks, are of equal or lesser square footage than the
19 existing dock being replaced;

20 iii. In fresh waters, the fair market value does not exceed \$11,200.00 for all other docks
21 constructed; or

22 iv. In relation to subsections (C)(3)(h)(ii) and (iii) of this section, if subsequent
23 construction occurs within five years of completion of the prior construction and the
24 combined fair market value of the subsequent and prior construction exceeds the amount
25 specified above, the subsequent construction shall be considered a substantial development;

26 i. Operation, maintenance, or construction of canals, waterways, drains, reservoirs, or other
27 facilities that now exist or are hereafter created or developed as a part of an irrigation system;

28 j. The marking of property lines or corners on state-owned lands, when such marking does
29 not significantly interfere with normal public use of the surface of the water;

30 k. Operation and maintenance of any system of dikes, ditches, drains, or other facilities
31 existing on September 8, 1975, which were created, developed or utilized primarily as a part
32 of an agricultural drainage or diking system;

33 l. Any project with a certification from the governor pursuant to Chapter 80.50 RCW;

34 m. Site exploration and investigation activities that are prerequisite to preparation of an
35 application for development authorization under the Act and this program;

1 n. The process of removing or controlling aquatic noxious weeds, as defined in
2 RCW 17.26.020, through the use of an herbicide or other treatment methods applicable to
3 weed control that are recommended by a final environmental impact statement published by
4 the Washington Department of Agriculture or Ecology jointly with other state agencies under
5 Chapter 43.21C RCW;

6 o. Watershed restoration projects as defined at WAC 173-27-040(2)(o). Kitsap County
7 shall review watershed restoration projects for consistency with this program in an
8 expeditious manner and shall issue its decision along with any conditions within forty-five
9 days of receiving all materials necessary to review the request for exemption from the
10 applicant. No fee may be charged for accepting and processing requests for exemption for
11 watershed restoration projects as used in this section;

12 p. Consistent with WAC 173-27-040, a public or private project that is designed to improve
13 fish or wildlife habitat or fish passage, and that conforms to the provisions of
14 Chapter 77.55 RCW. The county may not require permits or charge fees for such projects;

15 q. The external or internal retrofitting of an existing structure with the exclusive purpose of
16 compliance with the Americans with Disabilities Act, 1990, or as amended, to otherwise
17 provide physical access to the structure by individuals with disabilities.

18 4. Exemption Documentation. For any project qualifying for a permit exemption that requires
19 Federal Rivers and Harbors Act Section 10 permits, Federal Clean Water Act Section 404
20 permits, or state hydraulic project approval, a shoreline exemption letter must be prepared on
21 receipt of a shoreline exemption application and minimum submittal requirements in
22 accordance with WAC 173-27-050. The county shall also prepare shoreline exemption letters
23 for other types of exempt projects, generally for activities at or below the OHWM, including
24 but not limited to single-use buoys and floats. Permit exemption requests may be obtained
25 through the county permit center. The county shall document exemptions in the permit system.

26 D. Conditional Use Permits, Including Administrative Conditional Use Permits.

27 1. The purpose of a CUP is to provide flexibility in authorizing uses in a manner consistent
28 with RCW 90.58.020. Accordingly, special conditions may be imposed to prevent undesirable
29 effects of the proposed use and/or to assure consistency of the project with the Act and this
30 program.

31 2. CUPs shall be classified as a Type III permit under Chapter 21.04. Where administrative
32 CUPs are allowed, they shall be classified as a Type II permit under Chapter 21.04. Unless
33 specified otherwise in this program, the CUP criteria apply in addition to the applicable SDP
34 criteria, and shall be combined into a single review process.

35 3. Shoreline CUPs shall be granted only after the applicant can demonstrate compliance with
36 WAC 173-27-160 and this section as follows:

- 1 a. That the proposed use is consistent with the policies of RCW 90.58.020 and this
2 program;
- 3 b. That the proposed use will not interfere with the normal public use of public shorelines
4 and does not conflict with existing water-dependent uses;
- 5 c. That the proposed use of the site and design of the project are compatible with other
6 authorized uses within the area and with uses planned for the area under the Comprehensive
7 Plan and this program;
- 8 d. That the proposed use will not result in significant adverse effects or a net loss to the
9 shoreline ecosystem functions in which it is to be located;
- 10 e. That the public interest suffers no substantial detrimental effect;
- 11 f. That consideration has been given to the cumulative impact of additional requests for like
12 actions in the area and shall not result in substantial adverse effects or net loss of shoreline
13 ecosystem functions. For example, if CUPs were granted for other developments in the area
14 where similar circumstances exist, the total of the conditional uses shall also remain
15 consistent with the use preference policies and shall not produce substantial adverse impacts
16 to the shoreline environment. Consideration shall be demonstrated through preparation of a
17 cumulative impacts report, if requested, that substantially conforms to the applicable
18 provisions of Chapter 22.700 (Special Reports);
- 19 g. Other uses which are not classified or set forth in this program may be authorized as
20 conditional uses provided the applicant can demonstrate consistency with the requirements of
21 this section and the requirements for conditional uses contained in the master program;
- 22 h. Uses which are specifically prohibited by this master program may not be authorized
23 pursuant to this section.
- 24 4. All applications for shoreline CUPs, including administrative CUPs, approved by the
25 county shall be forwarded to Ecology pursuant to WAC 173-27-200, for final approval,
26 approval with conditions, or denial. No approval shall be considered final until it has been
27 acted upon by Ecology.
- 28 E. Variances and Administrative Variances.
- 29 1. The purpose of a variance permit is strictly limited to granting relief from specific bulk,
30 dimensional, or performance standards (not uses) set forth in this program where there are
31 extraordinary or unique circumstances relating to the property such that the strict
32 implementation of this master program will impose unnecessary hardships on the applicant or
33 thwart the policies set forth in RCW 90.58.020.

1 2. Variances shall be classified as a Type III permit under Chapter 21.04. Administrative
2 variances shall be a Type II permit and may be granted where allowed under the use and
3 modifications matrix or applicable permit requirements.

4 3. Variance permits should be granted in circumstances where denial of the permit would
5 result in a thwarting of the policy enumerated in RCW 90.58.020. In all instances,
6 extraordinary circumstances shall be shown and the public interest shall suffer no substantial
7 detrimental effect.

8 4. Variance permits for development that will be located landward of the OHWM, except
9 within those areas designated as marshes, bogs, or swamps pursuant to Chapter 173-22 WAC,
10 may be authorized provided the applicant can demonstrate all of the following:

11 a. That the strict application of the bulk, dimensional or performance standards set forth in
12 Chapters 22.400 and 22.600 precludes, or significantly interferes with, reasonable use of the
13 property;

14 b. That the hardship described in subsection (E)(1) of this section is specifically related to
15 the property, and is the result of unique conditions such as irregular lot shape, size, or natural
16 features and the application of this program, and, for example, not from deed restrictions or
17 from the actions of the applicant or a predecessor in title;

18 c. That the design of the project is compatible with other authorized uses within the area
19 and with uses planned for the area under the Comprehensive Plan and this program, will not
20 cause net loss to shoreline ecological functions and does not conflict with existing water-
21 dependent uses;

22 d. That the variance will not constitute a grant of special privilege not enjoyed by the other
23 properties in the area;

24 e. That the variance requested is the minimum necessary to afford relief; and

25 f. That the public interest will suffer no substantial detrimental effect.

26 5. Variance permits for development and/or uses that will be located waterward of the
27 OHWM, or within any wetland as defined in RCW 90.58.030(2)(h), may be authorized
28 provided the applicant can demonstrate all of the following:

29 a. That the strict application of the bulk, dimensional or performance standards set forth in
30 Chapters 22.400 and 22.600 preclude all reasonable use of the property;

31 b. That the proposal is consistent with the criteria established under subsections (E)(4)(a)
32 and (b) of this section; and

1 c. That the public rights of navigation and use of the shorelines will not be adversely
2 affected.

3 6. In the granting of all variance permits, consideration shall be given to the cumulative
4 impact of additional requests for like actions in the area. For example, if variances were
5 granted to other developments and/or uses in the area where similar circumstances exist, the
6 total of the variances shall remain consistent with the policies of RCW 90.58.020 and shall not
7 cause substantial adverse effects to the shoreline environment. The applicant shall demonstrate
8 such consideration through submittal of a cumulative impacts report, where required
9 (Section 22.700.130).

10 7. Variances may not be granted to authorize uses different from the shoreline use and
11 modifications matrix in Section 22.600.105.

12 8. All applications for shoreline variances approved by the county, including administrative
13 variances, shall be forwarded to Ecology pursuant to WAC 173-27-200, for final approval,
14 approval with conditions, or denial. No approval shall be considered final until it has been
15 acted upon by Ecology.

16 9. Where variances to dimensional standards in KCC 17.420 might result in eliminating or
17 reducing the need for a Critical Area Variance, those variances shall be considered and
18 exhausted prior to consideration of a Critical Area Variance.

19
20 **Section 7: Kitsap County Code Section 16.04.100 Expiration of Preliminary Approval,**
21 **last amended by Ordinance 587-2020, is amended as follows:**

22
23 **16.04.100 Expiration of Preliminary Approval**

24 A. Short Subdivisions and Large Lot Subdivisions. Unless otherwise provided by state statute,
25 Ppreliminary approval shall automatically expire five years from the date of the notice of
26 decision, unless a complete final short subdivision or large lot subdivision application is
27 submitted to the department prior to that date.

28
29 B. Subdivisions. Unless otherwise provided by state statute, preliminary approval shall
30 automatically expire five years from the date of the notice of decision, unless a complete final
31 subdivision application is submitted to the department prior to that date.

32
33 C. An extension to preliminary approval may be granted, as set forth in Section 21.04.270(B).

34 D. It is the responsibility of the applicant to remain aware of expiration dates. Failure to file
35 within the stated time, and any approved extension, will void the preliminary approval and a new
36 application will be required.

37 **Section 8: Kitsap County Code Section 16.40.040 Amendments to approved preliminary**
38 **subdivisions, last amended by Ordinance 550-2018, is amended as follows:**

39

1 **16.40.040 Amendments to approved preliminary subdivision**

2 This section provides the criteria and limitations for amending an approved preliminary
3 subdivision, including amendments to conditions of approval.

4 A. Notification. Any requested amendment to an approved preliminary plat shall require a
5 notice of application to all parties who received the notice of application of the original
6 preliminary subdivision, all property owners within the notification radii required in Title 21 and
7 all parties of record, in accordance with Title 21.

8 B. Minor Amendment.

9 1. General Requirements. Minor amendments are classified as Type II applications under
10 Chapter 21.04 and address those changes to an approved preliminary subdivision that fall
11 within the scope of the original approval and/or do not significantly increase impacts to
12 surrounding properties. For these purposes, “significant” shall mean a greater than ten percent
13 increase when the impact is quantifiable.

14 2. Written Findings. A proposed minor subdivision amendment may be approved if the
15 director makes written findings that all of the following are satisfied. If one or more are not
16 satisfied, the application must proceed as a major amendment.

17 a. The proposal does not result in significant adverse impacts to the subdivision or the
18 surrounding property. Impacts may include, but are not limited to, storm water, traffic, open
19 space, landscaping, screening, on-street or set-aside parking, or noise;

20 b. The proposal satisfies the applicable general requirements of this title;

21 c. The proposal does not result in a change of use;

22 d. The proposal falls within the scope of the original approval and complies with the intent
23 of the conditions originally imposed;

24 e. The proposal does not ~~change-expand~~ the perimeter boundary of the original plat, or the
25 boundary of any phases within the original plat;

26 f. The proposal does not increase residential density by greater than ten percent, provided
27 the density requirements of the zone are maintained;

28 g. The proposal does not increase the intensity of housing types; for example, from
29 detached single-family to attached one- and two-family dwellings;

30 h. The proposal does not reduce the designated perimeter buffers, recreation or open space
31 areas by more than ten percent;

- 1 i. The proposal does not reduce or increase the number of access points or significantly
2 alter the location of access points;
- 3 j. The proposal does not reduce required setbacks; and
- 4 k. The proposal does not reduce any street frontage improvements (e.g., sidewalks,
5 curb/gutter, and bicycle lanes).

6 C. Major Amendments.

7 1. General Requirements. Major amendments are classified as Type III applications under
8 Chapter [21.04](#) and address those amendments not otherwise classified as minor. Any
9 amendment that requires a discretionary permit other than those granted in conjunction with
10 the original preliminary subdivision application shall require the approval of such permit
11 before or with the decision on the proposed major subdivision amendment.

12 2. Written Findings. A proposed major amendment shall not be approved unless the hearing
13 examiner makes written findings that the public use and interest are served by the amendment
14 and that the amendment complies with all development regulations in effect at the time of
15 preliminary subdivision approval.

16 **Section 9: Kitsap County Code Section 16.48.030 Amendment to preliminary short**
17 **subdivisions, last amended by Ordinance 550-2018, is amended as follows:**

18
19 **16.48.030 Amendment to preliminary short subdivisions**

20 This section provides the criteria and limitations for amending an approved preliminary short
21 subdivision, including amendments to conditions of approval.

22
23 A. Notification. Any requested amendment to an approved preliminary short subdivision shall
24 require a notice of application to all parties who received the notice of application of the original
25 preliminary short subdivision, all property owners within the notification radii required in
26 Title [21](#) and all parties of record, in accordance with Title [21](#).

27 B. Minor Amendment.

28 1. General Requirements. Minor amendments are classified as Type II applications under
29 Chapter [21.04](#) and address those changes to an approved preliminary short subdivision that fall
30 within the scope of the original approval and do not significantly increase impacts to
31 surrounding properties. For these purposes, “significant” shall mean a greater than ten percent
32 increase when the impact is quantifiable.

33 2. Written Findings. A proposed minor short subdivision amendment may be approved if the
34 director makes written findings that all of the following are satisfied. If one or more are not
35 satisfied, the application must proceed as a major amendment.

- 1 a. The proposal does not result in significant adverse impacts to the short subdivision or the
2 surrounding property. Impacts include, but are not limited to, storm water, traffic, open
3 space, landscaping, on-street or set-aside parking, or noise;
- 4 b. The proposal satisfies the applicable general requirements of this title;
- 5 c. The proposal does not result in a change of use;
- 6 d. The proposal falls within the scope of the original approval and complies with the intent
7 of the conditions originally imposed;
- 8 e. The proposal does not ~~change~~expand the perimeter boundary of the original short plat;
- 9 f. The proposal does not increase residential density by greater than ten percent, provided
10 the density requirements of the zone are maintained;
- 11 g. The proposal does not increase the intensity of housing types; for example, from single-
12 family to duplex;
- 13 h. The proposal does not reduce the designated perimeter buffers, recreation or open space
14 areas by more than ten percent;
- 15 i. The proposal does not reduce, increase or significantly alter access points;
- 16 j. The proposal does not reduce required setbacks; and
- 17 k. The proposal does not reduce any street frontage improvements (e.g., sidewalks,
18 curb/gutter, and bicycle lanes).

19 C. Major Amendments.

- 20 1. General Requirements. Major amendments address those amendments not otherwise
21 classified as minor.
 - 22 a. Major amendments to preliminary short plats that were approved after a public hearing
23 are classified as Type III applications under Chapter 21.04. Such amendments shall require a
24 hearing and shall satisfy the requirements of Section 16.40.040(C).
 - 25 b. Major amendments to preliminary short plats that were approved administratively are
26 classified as Type II applications. Such amendments shall satisfy the requirements of this
27 section.
 - 28 c. Any amendment that requires a discretionary permit other than those granted in
29 conjunction with the original preliminary short subdivision application shall require the

1 approval of such permit before or with the decision on the proposed major short subdivision
2 amendment.

3 2. Written Findings. A proposed major amendment shall not be approved unless the director
4 makes written findings that the public use and interest are served by the amendment and that
5 the amendment complies with all development regulations in effect at the time of preliminary
6 short subdivision approval

7 | **Section 10: Kitsap County Code Section 16.52.030 Amendment to preliminary large lot**
8 | **subdivisions, last amended by Ordinance 550-2018, is amended as follows:**

9
10 **16.52.030 Amendment to preliminary large lot subdivisions**

11 This section provides the criteria and limitations for amending an approved preliminary large
12 lot subdivision, including amendments to conditions of approval.

13 A. Notification. Any requested amendment to an approved preliminary large lot subdivision
14 shall require a notice of application to all parties who received the notice of application of the
15 original preliminary large lot subdivision, all property owners within the notification radii
16 required in Title [21](#) and all parties of record, in accordance with Title [21](#).

17 B. Minor Amendment.

18 1. General Requirements. Minor amendments are classified as Type II applications under
19 Chapter [21.04](#) and address those changes to an approved preliminary large lot subdivision that
20 fall within the scope of the original approval and do not significantly increase impacts to
21 surrounding properties. For these purposes, “significant” shall mean a greater than ten percent
22 increase when the impact is quantifiable.

23 2. Written Findings. A proposed minor large lot subdivision amendment may be approved if
24 the director makes written findings that all of the following are satisfied. If one or more are not
25 satisfied, the application must proceed as a major amendment.

26 a. The proposal does not result in significant adverse impacts to the large lot subdivision or
27 the surrounding property. Impacts may include, but are not limited to, storm water, traffic,
28 open space, landscaping, on-street or set-aside parking, or noise;

29 b. The proposal satisfies the applicable general requirements of this title;

30 c. The proposal does not result in a change of use;

31 d. The proposal falls within the scope of the original approval and complies with the intent
32 of the conditions originally imposed;

33 e. The proposal does not ~~change-expand~~ the perimeter boundary of the original large lot
34 plat;

- 1 f. The proposal does not increase residential density by greater than ten percent, provided
2 the density requirements of the zone are maintained;
- 3 g. The proposal does not increase the intensity of housing types; for example, from single-
4 family to duplex;
- 5 h. The proposal does not reduce the designated perimeter buffers, recreation or open space
6 areas by more than ten percent;
- 7 i. The proposal does not reduce, increase or significantly alter access points;
- 8 j. The proposal does not reduce required setbacks; and
- 9 k. The proposal does not reduce any street frontage improvements (e.g., sidewalks,
10 curb/gutter, and bicycle lanes).

11 C. Major Amendments.

12 1. General Requirements. Major amendments address those amendments not otherwise
13 classified as minor.

14 a. Major amendments to preliminary large lot plats that were approved after a public
15 hearing are classified as Type III applications under Chapter 21.04. Such amendments shall
16 require a hearing and shall satisfy the requirements of Section 16.40.040(C).

17 b. Major amendments to preliminary large lot plats that were approved administratively are
18 classified as Type II applications. Such amendments shall satisfy the requirements of this
19 section.

20 c. Any amendment that requires a discretionary permit other than those granted in
21 conjunction with the original preliminary large lot subdivision application shall require the
22 approval of such permit before or with the decision on the proposed major large lot
23 subdivision amendment.

24 2. Written Findings. A proposed major amendment shall not be approved unless the director
25 makes written findings that the public use and interest are served by the amendment and that
26 the amendment complies with all development regulations in effect at the time of preliminary
27 large lot subdivision approval

28 **Section 11: Kitsap County Code Section 17.110.405 Lot area, last amended by Ordinance**
29 **534-2016, is amended as follows:**

30
31 **17.110.405 Lot area.**

32 “Lot area” means the horizontal area within the boundary lines of a lot excluding public and
33 private streets, tidelands, ~~shorelands and~~ lakes, streams, and lands covered regularly or

1 continuously by water (ordinary high water mark), except as otherwise provided in code, as well
2 as the panhandle of a flag lot if the panhandle is less than thirty feet in width. Areas consisting of
3 only these exceptions are not considered lots. Further, rural lots shall be considered five acres if
4 the lot is one-one-hundred-twenty-eighth of a section, ten acres if the lot is one-sixty-fourth of a
5 section, and twenty acres if the lot is one-thirty-second of a section.

6 **Section 12: Kitsap County Code Section 17.420.020 Measurement methods, last amended**
7 **by Ordinance 534-2016, is amended as follows:**

8
9 **17.420.020 Measurement methods.**

10 A. Density. Except as provided in Section 17.420.060(A)(18), density shall be calculated as
11 follows:

12 In all zones where a maximum or base density is identified, maximum or base density is
13 calculated on gross acreage of the site. In all zones where a minimum density is required,
14 minimum density is calculated on net developable acreage. If a calculation results in a partial
15 dwelling unit, the partial dwelling unit shall be rounded to the nearest whole number. Less than
16 one-half shall be rounded down. Greater than or equal to one-half shall be rounded up.

17 B. Setbacks. Setbacks shall be measured perpendicularly from a property line to the nearest
18 vertical wall or other element of a building or structure, not including driveways, patios, pools,
19 sidewalks, landscaping elements or other similar improvements built at or below grade.

20 C. Height. Except as provided for in Section 17.420.060(A)(14), height shall be measured from
21 a reference datum to the highest point of the coping of a flat roof, to the deck line of a mansard
22 roof, or to the average height of the highest gable of a pitched or hipped roof. The reference
23 datum shall be selected by either of the following, whichever yields a greater height of building:

24 1. The elevation of the highest adjoining sidewalk or ground surface within a five-foot
25 horizontal distance of the exterior wall of the building when such sidewalk or ground surface is
26 not more than ten feet above lowest grade.

27 2. An elevation ten feet higher than the lowest grade when the sidewalk or ground surface
28 described in subsection (C)(1) of this section is more than ten feet above lowest grade.

29 3. The height of a stepped or terraced building is the maximum height of any segment of the
30 building.

31 D. Lot Area. Lot area for lots in urban areas shall be calculated by adding the area contained
32 within the lot lines, exclusive of public or private streets or rights-of-way, tidelands, ~~storm water~~
33 ~~detention retention facilities~~, and the panhandle of a flag lot if the panhandle is less than thirty
34 feet in width. Lots in rural areas may compute to the centerline of public or private streets or
35 rights-of-way. Further, rural lots shall be considered five acres if the lot is one-one-hundred-
36 twenty-eighth of a section, ten acres if the lot is one-sixty-fourth of a section, and twenty acres if
37 the lot is one-thirty-second of a section.

1 E. Lot Width and Depth. Lot width shall be measured as the average horizontal distance
2 between the side lot lines. Lot depth shall be measured as the horizontal distance between the
3 midpoint of the front and opposite (usually the rear) lot line. In the case of a corner lot, lot depth
4 shall be the length of its longest front lot line.

5 F. Lot Coverage and Impervious Surface. Lot coverage shall be calculated by dividing the area
6 of land covered by buildings into the total lot area. Impervious surface coverage shall be
7 calculated by dividing the area of land covered by buildings, structures, and all other impervious
8 surfaces (such as sidewalks, driveways, and patios) into the total lot area.

9 **Section 13: Kitsap County Code Section 17.110.474 Marijuana, last amended by**
10 **Ordinance 611-2022, is amended as follows:**

11
12 **17.110.474 Marijuana Cannabis**

13 ~~“Marijuana”~~ “Cannabis” means all parts of the plant Cannabis, whether growing or not, with a
14 THC concentration greater than 0.3 percent on a dry weight basis; the seeds thereof; the resin
15 extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture,
16 or preparation of the plant, its seeds or resin. The term does not include (1) the mature stalks of
17 the plant, fiber produced from the stalks, oil or cake made from the seeds of the plant, any other
18 compound, manufacture, salt, derivative, mixture, or preparation of the mature stalks (except the
19 resin extracted therefrom), fiber, oil, or cake, or the sterilized seed of the plant which is incapable
20 of germination; or (2) hemp or industrial hemp as defined in RCW 15.140.020, seeds used for
21 licensed hemp production under Chapter 15.140 RCW. Where this definition conflicts with
22 RCW 69.50.101, as now or hereafter amended, that in state law shall govern.

23 **Section 14: Kitsap County Code Section 17.110.475 Marijuana processor, last amended by**
24 **Ordinance 611-2022, is amended as follows:**

25
26 **17.110.475 Marijuana Cannabis processor**

27 ~~“Marijuana-Cannabis~~ processor” means a person licensed by the state liquor and cannabis board
28 to process ~~marijuana cannabis~~ into ~~marijuana cannabis~~ concentrates, useable ~~marijuana cannabis~~,
29 and ~~marijuana cannabis~~ -infused products, package and label ~~marijuana cannabis~~ concentrates,
30 useable ~~marijuana cannabis~~, and ~~marijuana cannabis~~ -infused products for sale in retail outlets,
31 and sell ~~marijuana cannabis~~ concentrates, useable ~~marijuana cannabis~~, and ~~marijuana cannabis~~ -
32 infused products at wholesale to ~~marijuana cannabis~~ retailers. Where this definition conflicts
33 with RCW 69.50.101, as now or hereafter amended, that in state law shall govern.

34 **Section 15: Kitsap County Code Section 17.110.476 Marijuana producer, last amended by**
35 **Ordinance 611-2022, is amended as follows:**

36
37 **17.110.476 Marijuana Cannabis producer**

38 ~~“Marijuana Cannabis~~ producer” means a person licensed by the state liquor and cannabis board
39 to produce and sell ~~marijuana cannabis~~ at wholesale to ~~marijuana cannabis~~ processors and other
40 ~~marijuana cannabis~~ producers. Where this definition conflicts with RCW 69.50.101, as now or
41 hereafter amended, that in state law shall govern.

1 **Section 16: Kitsap County Code Section 17.110.477 Marijuana-infused products, last**
2 **amended by Ordinance 611-2022, is amended as follows:**

3
4 **17.110.477 Marijuana Cannabis-infused products.**

5 “Marijuana Cannabis-infused products” means products that contain marijuana cannabis or
6 marijuana cannabis extracts and are intended for human use, are derived from marijuana
7 cannabis and have a THC concentration no greater than ten percent. The term “marijuana
8 cannabis -infused products” does not include useable marijuana cannabis or marijuana cannabis
9 concentrates. Where this definition conflicts with RCW 69.50.101, as now or hereafter amended,
10 that in state law shall govern.

11 **Section 17: Kitsap County Code Section 17.110.478 Marijuana retailer, last amended by**
12 **Ordinance 611-2022, is amended as follows:**

13
14 **17.110.476 Marijuana Cannabis retailer**

15 ““Marijuana Cannabis retailer” means a person licensed by the state liquor and cannabis board to
16 sell marijuana cannabis concentrates, useable marijuana cannabis, and marijuana cannabis -
17 infused products in a retail outlet. Where this definition conflicts with RCW 69.50.101, as now
18 or hereafter amended, that in state law shall govern.

1 **Section 18:** Kitsap County Code Section 17.410.042 “Rural, resource, urban residential zones use table,” last amended by Ordinance 611-2022, is amended as follows:

Section 25: Kitsap County Code Section 17.420.060 Footnotes for tables, last amended by Ordinance 587-2020, is amended as follows:

DRAFT: 9/21/22

1 **17.420.060 Footnotes for tables.**

2 A. Where noted on the preceding tables, the following additional provisions apply:

3 1. Except for those buildings directly associated with timber production and harvest.

4 2. Except for silos and other uninhabited agricultural buildings.

5 3. Properties within the urban restricted (UR) zone and greenbelt (GB) may subdivide at
6 densities below the minimum required for the zone under the following circumstances:

7 a. The reduced density provides a greater protection for critical areas or environmentally
8 sensitive areas; and

9 b. The intent of the short subdivision or subdivision is to keep the property in the
10 ownership of the immediate family members.

11 4. If a single lot of record, legally created as of April 19, 1999, is smaller in total square
12 footage than that required under this chapter, or if the dimensions of the lot are less than
13 required, said lot may be occupied by any reasonable use allowed within the zone subject to all
14 other requirements of this chapter. If there are contiguous lots of record held in common
15 ownership, each of the lots legally created as of April 19, 1999, and one or more of the lots is
16 smaller in total square footage than required by this chapter, or the dimensions of one or more
17 of them are less than required, said lots shall be combined to meet the minimum lot
18 requirements for size and dimensions.

19 5. The Design Standards for the Community of Kingston sets forth policies and regulations
20 for properties within the downtown area of Kingston. All development within this area must be
21 consistent with these standards in Chapter 17.700, [Appendix C1](#).

22 6. Building replacements and remodels shall not create in excess of a total of forty percent
23 hard surface for lot area or more than the total existing hard surface area, whichever is greater.

24 7. Excess area from acreage used to support proposed densities but not devoted to residential
25 lots and public improvements such as streets and alleys shall be permanently dedicated and
26 reserved for community open space, park land, and similar uses. For developments proposing
27 densities no greater than one dwelling unit per five acres, the minimum and maximum lot sizes
28 shall not apply, except that existing dwelling units shall be allocated lot area between three
29 thousand five hundred and seven thousand five hundred square feet. New proposals may then
30 proceed using the five-acre lot requirements for the rural residential (RR) zone.

31 8. Hotels may be developed with four above-ground floors and up to a height not exceeding
32 fifty feet with approval of the fire marshal and relevant fire district.

33 9. May be reduced to ten feet for residential uses through the administrative conditional use
34 or PBD process.

- 1 10. Uses allowed through the conditional use process shall provide minimum side setbacks of
2 ten feet and minimum rear setbacks of twenty feet.
- 3 11. Any newly created lot within the Suquamish rural village shall be subject to
4 Chapter [16.48](#), Short Subdivisions, and must meet the lot requirements below:
- 5 a. Lot Requirements.
- 6 i. Minimum lot size: twenty-one thousand seven hundred eighty square feet.
- 7 ii. Minimum lot width: one hundred feet.
- 8 iii. Minimum lot depth: one hundred feet.
- 9 b. Setbacks.
- 10 i. Front: twenty feet.
- 11 ii. Side: five feet.
- 12 iii. Rear: five feet.
- 13 12. Nonconforming Lots.
- 14 a. Nonconforming Lots in Single Ownership. If a single lot of record, legally created before
15 the adoption of the Manchester Community Plan, is less than eight thousand seven hundred
16 twelve square feet in size or does not meet the dimensional requirements of its zone, the lot
17 may be occupied by any use allowed within the zone subject to all other requirements of this
18 chapter.
- 19 b. Nonconforming Lots in Common Ownership. Contiguous lots of record held in common
20 ownership, each lot legally created before adoption of the Manchester Community Plan, must
21 be combined to meet the minimum lot requirements of its zone if one or more of the lots are
22 less than eight thousand seven hundred twelve square feet in size or do not meet the
23 dimensional requirements of its zone and, at the time of adoption of the Manchester
24 Community Plan (March 18, 2002), either (i) a residential structure encumbered more than
25 one of the contiguous lots or (ii) two or more of the contiguous lots were vacant. If one or
26 more of the lots is sold or otherwise removed from common ownership after the adoption of
27 the Manchester Community Plan, it will not be considered to meet the minimum lot
28 requirements for nonconforming lots in single ownership. Property with two contiguous lots
29 legally created before adoption of the Manchester Community Plan with a residential
30 structure entirely on one lot may develop the second lot consistent with applicable zoning.
- 31 13. Residential structures within the [MVC](#) zone may not exceed twenty-eight feet.

1 14. Within the view protection overlay, the maximum height for buildings and new
2 vegetation shall be twenty-eight feet. Height shall be measured from the average elevation of
3 the property's buildable area to the structure's highest point. Kitsap County will not enforce
4 vegetation height standards. Buildable area is considered all portions of the property except
5 wetlands and/or geologically hazardous areas. Properties within the view protection overlay
6 zone may build or have new vegetation as high as thirty-five feet under the following
7 circumstances:

8 a. There is no existing view of downtown Seattle, the Cascade Mountains, Mt. Rainier or
9 the Puget Sound from the subject property or any adjacent property; or

10 b. The owners of all adjacent properties approve the building height prior to building
11 permit issuance; or

12 c. It can be explicitly shown that the structure will not cause the blockage of existing views
13 from any of the adjacent properties.

14 15. Clustering residential development is encouraged in all development. When clustering
15 development, if a property owner designates forty percent of the gross acreage as naturally
16 vegetated open space, he or she may create one additional lot for every five lots clustered. The
17 additional lot may not reduce the naturally vegetated open space to an amount less than forty
18 percent of the gross acreage of the development.

19 16. All properties within the Manchester village must also meet the requirements of the
20 stormwater management ordinance, Chapters [12.04](#) through [12.32](#).

21 17. A greater height may be allowed as set forth below and in accordance with the
22 procedures in Title [21](#). Such approval must be consistent with the recommendations of the fire
23 marshal/fire district and compatible with surrounding uses and zones. Such approval shall
24 result in a decrease in building coverage, an increase in public amenities, and/or a more
25 creative or efficient use of land. The maximum building height approved by the director shall
26 not exceed:

27 a. In the [NC](#) and [P](#) zones: forty-five feet.

28 b. In the [UH](#) and [C](#) zones: sixty-five feet.

29 c. In the [UM](#), [BP](#), [BC](#), and [IND](#) zones: fifty-five feet.

30 d. Height and density requirements for urban high and regional center reflected in
31 Section [17.420.058](#), Silverdale regional center and design district density and dimension
32 table.

33 18. The minimum and maximum densities within the range are based upon the net acreage of
34 the property(ies) after the removal of critical areas. In determining a development proposal's

1 actual density within the range, the features of the subject parcel including on-site or adjacent
2 wetlands, streams or steep slopes shall be considered first.

3 19. These zones are not intended to accommodate population growth and therefore do not
4 have allowed density. However, limited new residential uses may occur in these zones which
5 support the intent of these zones to provide employment and services. Therefore, up to one
6 dwelling unit may be allowed per existing parcel for the limited residential uses allowed in
7 Chapter 17.410.

8 20. The Design Standards for the Community of Keyport sets forth policies and regulations
9 for properties within the downtown area of Keyport. All development within this area must be
10 consistent with these standards in Chapter 17.700, Appendix C2.

11 21. Twenty feet when abutting a residential zone.

12 22. Maximum height shall be thirty feet when located within the two-hundred-foot shoreline
13 area.

14 23. The minimum site setback shall be seventy-five feet for any yard abutting a residential
15 zone, unless, based upon a site-specific determination, berming and landscaping approved by
16 the director is provided that will effectively screen and buffer the business park activities from
17 the residential zone that it abuts; in which case, the minimum site setback may be reduced to
18 less than seventy-five feet but no less than twenty-five feet. In all other cases, minimum site
19 setbacks shall be twenty feet.

20 24. Reserved.

21 25. For new building permit applications on vacant lots over eighteen thousand square feet
22 located in urban low residential (ULR) and urban cluster residential (UCR) zones, the
23 maximum lot size shall not exceed nine thousand square feet. This restriction shall not apply if:

24 a. The net developable area of the existing parcel is less than eighteen thousand square feet;
25 or

26 b. The project application will meet minimum density requirements as established by this
27 chapter.

28 26. No service road, spur track, or hard stand shall be permitted within required yard areas
29 that abut a residential zone.

30 27. As approved by the director, wherever an industrial zone abuts a residential zone, a fifty-
31 foot screening buffer area shall be provided. This screening buffer is intended to reduce
32 impacts to abutting residential uses such as noise, light, odors, dust and structure bulk. No
33 structures, open storage, or parking shall be allowed within this area. The director shall only
34 approve screening buffers that improve the compatibility between the proposed use and the

- 1 residential zone. The director may reduce this buffer to a minimum of twenty-five-foot width
2 only when based upon a site-specific determination that topography, berming or other
3 screening features will effectively screen industrial activities from the residential zone.
4 Conversely, based upon a similar site-specific determination, the director may increase the
5 buffer width from fifty feet to ensure adequate buffering and compatibility between uses.
- 6 28. Unless part of an approved zero-lot-line development.
- 7 29. One-hundred-foot setback required for single-family buildings
8 abutting [FRL](#) or [RW](#) zones.
- 9 30. No minimum lot size if property is used only for extraction.
- 10 31. Three hundred thirty feet if activity includes any uses in Section [17.170.020](#).
- 11 32. Existing lots developed with existing single-family residences are permitted to be
12 maintained, renovated and structurally altered. Additions to existing residential structures in
13 order to provide commercial uses are also permitted regardless of density.
- 14 33. Except for the height and density requirements reflected in Section [17.420.058](#),
15 Silverdale regional center and design district density and dimension table, all development
16 within the Silverdale design district boundaries must be consistent with the Silverdale Design
17 Standards found in Chapter [17.700](#), [Appendix C3](#).
- 18 34. Development abutting a street for which a standard has been established by the Kitsap
19 County arterial plan shall provide a special setback from the centerline of said street or a
20 distance adequate to accommodate one-half of the right-of-way standard established by the
21 arterial plans for the street. The building setback required by the underlying zone shall be in
22 addition to the special setback and shall be measured from the edge of the special setback line.
23 The special setback area shall be treated as additional required yard area and reserved for
24 future street widening purposes.
- 25 35. ~~Reserved. For setback standards applicable to agricultural structures, see [KCC](#)~~
26 ~~[17.455.080](#).~~
- 27 36. For standards applicable to master planned industrial developments and approved
28 industrial parks, see Sections [17.320.030](#) and [17.330.030](#).
- 29 37. Adjacent to airports, the director may impose height restrictions and/or other land use
30 controls as deemed essential to prevent the establishment of air space obstructions in air
31 approaches to protect the public health, safety and welfare consistent with Federal Aviation
32 Regulations (FAR) Part 77.
- 33 38. Reserved.

- 1 39. Reserved.
- 2 40. Height limitations set forth elsewhere in this title shall not apply to the following: barns,
3 silos, or other farm buildings and structures, provided they are not less than fifty feet from
4 every lot line; chimneys, spires on places of worship, belfries, cupolas, domes, smokestacks,
5 flagpoles, grain elevators, cooling towers, solar energy systems, monuments, fire house towers,
6 masts, aerials, elevator shafts, and other similar projections; and outdoor theater screens,
7 provided said screens contain no advertising matter other than the name of the theater. The
8 proponent seeking exception to the height limitation shall certify that the object being
9 considered under this provision will not shade an existing solar energy system which, by the
10 determination of the director, contributes substantially to the space- or water-heating
11 requirements of a building.
- 12 41. The following exceptions apply to front yard requirements for dwellings:
- 13 a. If there are dwellings on both abutting lots with front yards less than the required depth
14 for the zone, the front yard for the lot need not exceed the average front yard of the abutting
15 dwellings.
- 16 b. If there is a dwelling on one abutting lot with a front yard less than the required depth for
17 the zone, the front yard need not exceed a depth of halfway between the depth of the front
18 yard on the abutting lot and the required front yard depth.
- 19 c. If a modification to the front yard requirement is necessary in order to site dwellings in a
20 manner that maximizes solar access, the director may modify the requirement.
- 21 d. On lots with multiple front yards, the front yard setback(s) in which the lot does not
22 receive access may be modified by the director. Based upon topography, critical areas or
23 other site constraints, the director may reduce these front yard setbacks to a minimum of
24 twenty feet for properties requiring fifty feet and ten feet for properties requiring twenty feet.
25 The director may not modify front yard setbacks from county arterials or collectors. Such
26 reductions shall not have an adverse impact to surrounding properties.
- 27 42. The following exceptions apply to historic lots:
- 28 a. Building setback lines that do not meet the requirements of this title but were legally
29 established prior to the adoption of this title shall be considered the building line for
30 alterations, remodels, and accessory structures on the lot or parcel; providing, that no
31 structure or portion of such addition may further project beyond the established building line.
- 32 b. Any single-family residential lot of record as defined in Chapter [17.110](#) that has a
33 smaller width or lot depth than that required by this title, or is less than one acre, may use
34 that residential zoning classification that most closely corresponds to the dimension or
35 dimensions of the lot of record, for the purpose of establishing setbacks from the property
36 lines.

- 1 43. Any structure otherwise permitted under this section may be placed on a lot or parcel
2 within a required yard area if the director finds that such a location is necessary because
3 existing sewer systems or roadways make compliance with the yard area requirements of this
4 title impossible without substantial changes to the site.
- 5 44. Reserved.
- 6 45. Density in the [KVLR](#) zone may be increased to three units per acre through a
7 performance-based development (PBD) process pursuant to the regulations cited in
8 Section [17.360A.030\(B\)](#).
- 9 46. A front porch and associated steps shall meet a minimum five-foot setback from the front
10 property line and the following requirements:
- 11 a. Porches shall be at least forty percent open on each of two sides.
- 12 b. Porches shall be a minimum of four feet by six feet.
- 13 47. The Manchester Design Standards sets forth policies and regulations for properties within
14 the Manchester village commercial (MVC) zone. All developments within the [MVC](#) zone must
15 be consistent with the standards found in Chapter [17.700](#), [Appendix C4](#).
- 16 48. Shoreline properties are subject to Title [22](#) and may have additional buffers and setbacks
17 requirements not listed in the density and dimension tables. Properties constrained by critical
18 areas are subject to Title [19](#) and may have additional buffers and setbacks requirements not
19 listed in the density and dimension tables. Cornices, canopies, eaves, belt courses, sills, bay
20 windows, fireplaces or other similar cantilevered features may extend up to twenty-four inches
21 into any required yard area. In no case shall a habitable area be considered for encroachment
22 into a required yard through any land use process. Additionally, fire escapes, open/uncovered
23 porches, balconies, landing places or outside stairways may extend up to twenty-four inches
24 into any required side or rear yards. Open/uncovered porches, balconies, landing places, or
25 outside stairways shall not extend more than six feet into any required front yard and shall be a
26 minimum of five feet from the front property line.
- 27 49. Minimum project size applies to the initial land use application for the property such as
28 master plan, PBD or other mechanism. Subsequent subdivision through platting or binding site
29 plan consistent with scope and conditions of the land use approval is not required to meet this
30 minimum size.
- 31 50. New or remodeled structures within the Illahee View Protection Overlay may not exceed
32 twenty-eight feet. Kitsap County will not enforce vegetation height standards.
- 33 51. Reserved.

1 52. No motor vehicle parking allowed within the front yard setback. See also
2 Section 17.400.060 regarding conditions under which maximum setbacks may increase, as well
3 as parking location standards.

4 53. Within the Gorst urban growth area, density, impervious surface coverage and height
5 may be increased to the maximum listed in the density and dimensions table through
6 compliance with the incentive program described in Section 17.400.080(B).

7 54. Standard listed applicable to Gorst UGA only.

8 55. Parcels located within the Silverdale Regional Growth Center shall refer to the design
9 standards identified in Section 17.420.058, Silverdale regional center and design district
10 density and dimension table.

11 56. Height and density may be increased through Chapter 17.450, Performance Based
12 Development, or if a project qualifies as mixed use development and meets modification or
13 waiver request criteria as identified in Section 17.420.035, Additional mixed use development
14 standards.

15 57. Mixed use projects are not required to meet the minimum density requirements.

16 58. As part of a town master plan developed under Section 17.360C.030, maximum density
17 shall apply to the entirety of the RHT rather than a specific RHT zone. The density of any
18 specific development shall maintain the historic character of the RHT and shall not cause the
19 total number of dwelling units within the RHT to exceed two hundred ninety-five. However,
20 no units shall be transferred into the RHTW zone from other zones in the RHT.

21
22 **Section 26: Kitsap County Code Section 17.430.050 Minimum Application Requirements,**
23 **last amended by Ordinance 587-2020, is amended as follows:**

24
25 A. Except as provided elsewhere in this code, the department shall establish and may revise
26 written submittal requirements for each type of project permit application required by this title.
27 The department shall prescribe checklist forms which shall clearly describe the material that
28 must be submitted for an application to be accepted for processing.

29 B. Additional materials may be required by the department as it determines necessary for
30 review of the application, regardless of whether a waiver has been granted.

31 C. All applications shall be accompanied with ~~fourteen copies or~~ electronic copies (if
32 authorized by state law) of complete site plans drawn to scale and produced in such a way as to
33 clearly indicate compliance with all applicable requirements, and shall include the following:

- 1 ~~A~~1. A vicinity map showing the location of the property and surrounding properties. A copy
2 of the assessor's quarter section map may be used to identify the site;
- 3 ~~B~~2. Dimensions and orientation of the parcel;
- 4 ~~C~~3. Location of existing and proposed buildings and structures showing the setback
5 dimensions, intended use of each, and, if appropriate, the number of dwelling units;
- 6 ~~D~~4. Drawings and dimensions of proposed buildings and structures;
- 7 ~~E~~5. Location of walls and fences, indication of their height and construction materials;
- 8 ~~F~~6. Existing and proposed topography at contour intervals of no more than five feet as
9 stamped by a certified surveyor or engineer;
- 10 ~~G~~7. Streets adjacent to, surrounding or intended to serve the property, curbcuts and internal
11 pedestrian and vehicular traffic circulation routes;
- 12 ~~H~~8. Existing and proposed exterior lighting;
- 13 ~~I~~9. Location and size of exterior signs and outdoor advertising;
- 14 ~~J~~10. Preliminary landscaping plan;
- 15 ~~K~~11. Location and layout of off-street parking and loading facilities;
- 16 ~~L~~12. Proposed location of utility, sewage and drainage facilities;
- 17 ~~M~~13. Other architectural or engineering data which may be necessary to determine
18 compliance with applicable regulations;
- 19 ~~N~~14. Location of any critical areas and their associated buffer and/or setback requirements;
20 and
- 21 ~~O~~15. Other information as required.

22 **Section 27: Kitsap County Code Section 17.500.030 Installation and Maintenance, last**
23 **amended by Ordinance 540-2016, is amended as follows:**

24
25 Installation and maintenance of landscaping of developments shall be in accordance with the
26 American Nursery Landscaping Association standards. Vegetation-based LID BMPs shall be in
27 accordance with the Kitsap County Stormwater Design Manual.

28 A. Plant materials shall be nursery stock or the equivalent quality and installed to industry
29 standards or better.

1 B. Landscape plant materials shall be staked to current industry standards or better. Stakes and
2 guy wires shall not interfere with vehicular or pedestrian traffic.

3 C. Minimum sizes at installation, except drought-tolerant landscape areas, which shall be
4 subject to the size requirements in Section [17.500.040](#).

5 1. Two-inch caliper street trees and other deciduous trees;

6 2. Eight feet minimum height multi-stemmed trees (e.g., vine maple);

7 3. Six feet minimum height coniferous/evergreen trees;

8 4. Eighteen to twenty-four inches height for large and medium shrubs (~~over six feet at~~
9 ~~maturity~~); and

10 5. Twelve to eighteen inches minimum height for small shrubs (~~three to six feet at~~
11 ~~maturity~~).

12 D. Maximum Spacing.

13 1. Street trees and other deciduous trees shall be spaced appropriate to their pattern, generally
14 twenty-five to thirty feet on center for large trees.

15 2. Coniferous/evergreen trees shall be spaced fifteen feet apart, unless they are within a
16 screening buffer, where the maximum spacing shall be ten feet on center.

17 3. Large shrubs (over ten feet at maturity) shall be spaced five feet on center.

18 4. Medium shrubs (six to ten feet at maturity) shall be spaced four feet on center.

19 5. Small shrubs (less than six feet at maturity) shall be spaced three feet on center.

20 E. Ground covers shall be required in all planting areas, unless the entire bed is planted with
21 shrubs that branch out so that they cover the surface of the ground. Ground cover shall be planted
22 and spaced in a triangular pattern which shall result in complete coverage in two years. Bark and
23 mulch shall not be considered as ground cover. Spacing shall be no greater than:

24 1. One-gallon pots, twenty-four inches on center;

25 2. Four-inch pots, eighteen inches on center;

26 3. Two-and-one-quarter-inch pots, twelve inches on center; and

27 4. Grass and sod areas to be one hundred percent.

- 1 F. Native Growth Protection Easements. A site assessment permit shall be required prior to any
2 vegetation removal. Authorized removal shall be as follows:
- 3 1. Removal of Naturalized Species. Vegetation removal of naturalized species shall be by
4 hand. No machinery shall be used, except for hand-held implements that do not disturb the
5 native vegetation or soil;
- 6 2. Other activities expressly allowed as a condition of approval.
- 7 G. Danger Tree Removal. A site assessment permit shall be required prior to any danger tree
8 removal. Removal of any trees shall be authorized by written approval from the county.
9 Removed trees shall be replaced at a ratio of 3:1 (three new trees for each tree removed) unless
10 otherwise specified in writing.
- 11 H. Slopes in landscape areas shall not exceed 3:1 unless specifically approved by the director.
12 Erosion control netting or alternative procedure may be required for slopes exceeding 3:1.
- 13 I. Automatic irrigation systems shall be required for all landscape areas except for those
14 designed and approved as drought-tolerant plantings. In unique circumstances, alternative
15 methods of irrigation may be approved if specifically proposed as part of the landscape plan.
- 16 J. All planting beds shall receive topsoil or soil amendments as needed to maintain the plants in
17 a thriving condition. Soil amendments for vegetation-based LID BMPs shall comply with the
18 standards set forth in the Kitsap manual.
- 19 K. All planting beds shall receive a minimum of two inches of bark mulch, or approved
20 substitute.
- 21 L. Landscaping required under the provisions of this title shall be maintained in a healthy
22 growing condition. Vegetation shall be maintained in a typical growth pattern and for its
23 intended purpose. Vegetation-based LID BMPs shall be maintained as required by the Kitsap
24 manual.
- 25 M. Landscaping lost due to violations of this title, Title [12](#), or unforeseen natural events shall
26 be replaced immediately with vegetation that is sufficient in size and spacing as required by this
27 title, or the Kitsap Stormwater Design Manual, whichever is applicable.
- 28 N. All landscaping required by this title shall be installed prior to the issuance of any final
29 certificate of occupancy permit or prior to final inspection approval when a site development
30 activity permit is required, unless installation is bonded (or other method), for a period not to
31 exceed six months, in an amount equal to one hundred fifty percent of the cost of material and
32 labor. Fees at the authorized rate shall be assessed for staff to manage the landscape bond.
- 33 O. Wetland mitigation plantings shall not be considered part of the landscaping requirements.

1 **Section 28: Kitsap County Code Section 17.550.040 Revision of hearing examiner**
2 **conditional use permits, last amended by Ordinance 534-2016 is repealed.**

3 **Section 29: Kitsap County Code Section 17.550.050 Revision of administrative conditional**
4 **use permits, last amended by Ordinance 534-2016 is repealed.**

5 **Section 30: Kitsap County Code Section 17.580.070 Receiving Areas and Exchange Rates,**
6 **last amended by Ordinance 534-2016, is amended as follows:**

7
8 **17.580.070 Receiving Areas and Exchange Rates**

9 A. Designation of Receiving Areas. In addition to those areas that qualify as receiving areas
10 according to the Kitsap County Comprehensive Plan, the board of county commissioners may
11 approve additional areas as receiving areas. Additional areas may be approved through a change
12 to the Kitsap County Code or a Comprehensive Plan amendment. The designation of additional
13 TDR receiving areas is based on findings that the area or site is appropriate for higher residential
14 densities, is not limited by significant critical areas, and no significant adverse impacts to the
15 surrounding properties would occur.

16 B. Designated Receiving Areas. Receiving areas or parcels are those within an urban growth
17 area or are proposed to be included within an urban growth area by a Comprehensive Plan
18 amendment, site-specific application or subarea plan.

19 C. Exchange Rates. For eligible receiving sites, the transfer to and use of TDR credits on a
20 receiving site shall occur consistent with applicable development regulations established in the
21 program authorizing use of TDR at the receiving site.

22 1. For receiving areas defined in Section ~~17.580.060~~ 17.580.070(B), exchange rates are
23 established by resolution of the board of county commissioners.

24 2. Required development rights are calculated on a per acre basis. All fractional acreages
25 shall be rounded up to the higher exchange rate.

26 3. Exchange rates shall be periodically evaluated and may be modified to ensure they reflect
27 market conditions.

28 **Section 31: Kitsap County Code Section 21.02.230 Lot Area, last amended by Ordinance**
29 **490-2012 is amended as follows:**

30
31 **21.02.230 Lot Area**

32 “Lot area” means the horizontal area within the boundary lines of a lot excluding public and
33 private streets (but including private access easements), tidelands, ~~shorelands and lakes, streams,~~
34 ~~and lands covered regularly or continuously by water (ordinary high water mark), except as~~
35 ~~otherwise provided in code, as well as~~ the panhandle of a flag lot if the panhandle is less than
36 thirty feet in width. Lots within a rural zoning designation shall be considered five acres if the lot
37 is 1/128th of a section, ten acres if the lot is 1/64th of a section, and twenty acres if the lot is
38 1/32nd of a section. Lots within a rural zoning designation may include, for the purposes of area

DRAFT: 9/21/22

2022 Administrative Code Edits Ordinance

1 calculation, the portion of county right-of-way fronting the lot; said portion of county right-of-
2 way shall be bounded by the right-of-way centerline, the front property line and the side lot lines
3 running perpendicular to said centerline.

4
5 **Section 32: Kitsap County Code Section 18.12.020 Eligible lands, last amended by**
6 **Ordinance 396-1992, is amended as follows:**

7
8 **18.12.020 Eligible lands**

9 The Open Space Act (Chapter 84.34 RCW) describes, in RCW 84.34.020, lands which may be
10 considered for current use assessment as open space. Kitsap County has refined this definition to
11 a prioritized list of lands which may be eligible for enrollment in the open space taxation
12 program within the unincorporated area of Kitsap County.

13 (1) State Act definition (RCW 84.34.020):

14 (A) Any land area so designated by an official comprehensive land use plan adopted by any
15 city or county and zoned accordingly, or

16 (B) Any land area, the preservation of which in its present use would:

17 (i) Conserve and enhance natural or scenic resources, or

18 (ii) Protect streams or water supply, or

19 (iii) Promote conservation of soils, wetlands, beaches or tidal marshes, or

20 (iv) Enhance the value to the public of abutting or neighboring parks, forests, wildlife
21 preserves, nature reservations or sanctuaries or other open space, or

22 (v) Enhance recreation opportunities, or

23 (vi) Preserve historic sites, or

24 (vii) Preserve visual quality along highway, road, and street corridors or scenic vistas,
25 or

26 (viii) Retain in its natural state tracts of land not less than one acre situated in the urban
27 area and open to public use on such conditions as may be reasonably required by the
28 legislative body granting the open space classification, or

29 (C) Any land meeting the definition of farm and agricultural conservation land in this
30 section. As a condition of granting open space classification, the legislative body may not
31 require public access on land classified under subsection (1)(B)(iii) of this section for the
32 purpose of promoting conservation of wetlands.

- 1 “Farm and agricultural conservation land” means either:
- 2 (A) Land that was previously classified under RCW [84.34.020](#)(2) (farm and
 3 agricultural land) that no longer meets the criteria of said subsection (2) and that is
 4 reclassified under RCW [84.34.020](#)(1) (open space land), or
- 5 (B) Land that is traditional farmland that is not classified under RCW
 6 Chapter [84.33](#) or [84.34](#), that has not been irrevocably devoted to a use inconsistent with
 7 agricultural uses, and that has a high potential for returning to commercial agriculture.
- 8 (2) Lands Eligible for Current Use Assessment as Open Space in Kitsap County.
- 9 (A) Lands which contain the following resources, as determined by Kitsap County, may be
 10 eligible for current use assessment as open space, except that where a residence or accessory
 11 dwelling unit exists a one-acre site for each dwelling unit will be excluded from eligibility.
- 12 (B) Recognized sources are used for identification of resources. Detailed descriptions of
 13 resources and recognized sources are contained in subsection (3) of this section.
- 14 (C) The presence or occurrence of an eligible resource on a parcel must be field checked by
 15 an appropriate agency. This may include the county department of community development,
 16 ~~Washington State Department of Wildlife~~ [Washington Department of Fish and Wildlife](#) or
 17 Department of Natural Resources – Natural Heritage Program. All known data sources for
 18 the location of Kitsap County open space lands are noted in subsection (3) of this section.
 19 When a particular parcel is not located on the lists, a property owner who believes that the
 20 specific resource is present, can request the appropriate agency to inspect the site for that
 21 resource, or could provide to the county and that agency for their review a site analysis
 22 prepared by a consultant specializing in that area of expertise (i.e., botanist, wildlife manager,
 23 geologist, etc.). Professional standards may be established by the county for acceptable
 24 consultants. The county shall utilize the site analysis and any comments from the agency in
 25 determining if the parcel is eligible.

3. “Rural” Shoreline	KC Shoreline Mgt. Master Program
4. Preservation of visual quality	Pursuant to RCW 84.34.020

1
2 (3) Detailed Descriptions of Priority Resources.

3 (A) High Priority Resources.

4 (i) Fish Rearing Habitat – Ponds and Primary Stream Buffers.

5 Definition: Ponds, rivers and streams which are used in the life cycles of fish based
6 on data compiled by the ~~Washington State Department of Fisheries~~ [Washington](#)
7 [State Department of Fish and Wildlife](#) and other agencies with appropriate expertise.

8 Primary streamside buffers shall be no less than twenty-five feet and no more than
9 fifty feet in width on either side of the stream, and shall be fenced as necessary to
10 prevent intrusion by livestock, in order to qualify as a high priority resource.
11 Additional buffer width shall be as a medium priority resource – secondary stream
12 buffer.

13 Small lakes, over one acre in size and creeks or streams located within a well-
14 defined channel that carry a perennial flow throughout the year (ninety percent of the

1 time or more); and which also support fish and are not under the jurisdiction of the
2 Shoreline Management Act.

3 Source: Catalog of Washington Streams – ~~State Department of Fisheries; also~~
4 ~~Washington Department of Wildlife~~ Washington Department of Fish and Wildlife
5 and the Department of Natural Resources stream maps.

6 Examples: Dogfish Creek, Barker Creek, Buck Square Lake.

7 Criteria: Eligible lands are those meeting the definition above. Not eligible under
8 this category if site is also a “natural” shoreline environment or a “conservancy”
9 shoreline environment. A primary streamside buffer of natural vegetation at least
10 twenty-five feet in width must be preserved from clearing and intrusion by livestock.

11 (ii) Wetlands, Ponds and Streams.

12 Definition: Wetlands as defined by the Kitsap County critical area designation as
13 well as ponds and streams which are not used in the life cycles of fish.

14 Sources: Wetland Inventory – United States Department of the Interior, Fish and
15 Wildlife Service:

16 Catalog of Washington Streams – ~~State Department of Fisheries; also Washington~~
17 ~~Department of Wildlife~~ Washington Department of Fish and Wildlife.

18 Example: Morgan’s Marsh.

19 Criteria: Eligible lands are those meeting the definition above. Not eligible under
20 this category if site is also a “natural” shoreline environment, a “conservancy”
21 shoreline environment, or a fish rearing habitat. A primary streamside buffer of at
22 least twenty-five feet in width must be preserved from clearing and intrusion by
23 livestock.

24 (iii) “Natural” Shoreline Environment.

25 Definition: A marine, lake or riverine shoreline and its “associated wetlands”
26 identified as a “natural environment” in the ~~Shoreline Management Master Program~~
27 Shoreline Master Program for Kitsap County.

28 Source: the ~~Shoreline Management Master Program~~ Shoreline Master Program –
29 Kitsap County.

30 Examples: Starts Bay, the ~~Nature Conservancy (Hansville)~~. Hansville Greenway
31 Nature Preserve.

1 Criteria: Eligible lands are those identified as “natural” shoreline environments and
2 their associated wetlands in the the ~~Shoreline Management Master Program~~
3 ~~Shoreline Master Program~~ for Kitsap County. Only those lands in the actual
4 shoreline classification adjacent to the water shall be eligible for the open space tax
5 program. This area encompasses two hundred feet upland from the ordinary high-
6 water mark, or the edge of the associated wetland boundary. Use restrictions may be
7 placed within these areas and all proposed forest practice applications shall be
8 prefiled with the Kitsap County department of community development to determine
9 if any special cutting restrictions will be appropriate.

10 (iv) Special Animals and Plants.

11 A. Special Animals.

12 Definition: Those animal species defined in the Natural Heritage Plan listed as
13 being either an endangered, threatened or sensitive species by the ~~Washington~~
14 ~~State Department of Game~~ ~~Washington Department of Fish and Wildlife~~. Within
15 Kitsap County this term shall also include all monitor species.

16 Source: Natural Heritage Plan administered by the Washington State Department
17 of Natural Resources, Natural Heritage Program.

18 The Natural Heritage data base administered by the Washington State Department
19 of Natural Resources, Natural Heritage Program and the ~~Washington State~~
20 ~~Department of Wildlife~~, ~~Washington Department of Fish and Wildlife~~ Nongame
21 Division.

22 Criteria: Eligible sites are those in the Natural Heritage Data Base as verified by
23 the Natural Heritage Program or which are verified by the ~~State Department of~~
24 ~~Game~~ ~~Washington Department of Fish and Wildlife~~ or an expert in the field as
25 containing the same animals and which are acceptable by the state agency for
26 addition to the data base. Properties which are eligible under “significant wildlife
27 habitat” would not be eligible in this subsection.

28 B. Special Plants.

29 Definition: Those vascular plant species defined in the Natural Heritage Plan
30 listed as being either an endangered, threatened or sensitive species by the
31 Washington State Department of Natural Resources, Natural Heritage Program.

32 Source: Natural Heritage Plan administered by the Washington State Department
33 of Natural Resources, Natural Heritage Program.

34 Examples: Sphagnum moss bog or fen.

1 Criteria: Eligible sites are those in the Natural Heritage data base, as verified by
2 the Natural Heritage Program, or which are verified by an expert in the field as
3 containing the same plants and which are acceptable by the state agency for
4 addition to the data base.

5 (v) Significant Wildlife Habitat Area.

6 Definition: An area which is utilized by both special and/or other animals in such
7 frequency and diversity for critical ecological processes occurring such as breeding,
8 nesting, feeding and resting.

9 Source: ~~Washington Department of Wildlife~~, Washington Department of Fish and
10 Wildlife.

11 Example: Ross Point.

12 Criteria: Eligible areas are those identified by either: (1) the ~~Washington Department~~
13 ~~of Wildlife (WDW)~~; Washington Department of Fish and Wildlife (WDFW) or (2) a
14 competent professional whose findings are substantiated by ~~WDW~~-WDFW.

15 (vi) Archaeological and Historical Sites.

16 A. Archaeological Site.

17 Definition: All sites and locations of prehistorical or archaeological interest
18 including but not limited to burial sites, camp sites, rock shelters, caves and the
19 artifacts and implements of the culture.

20 Source: Location and details of known sites are on file at the Washington State
21 Office of Archaeology and Historic Preservation. General information available by
22 request on a square-mile-basis.

23 Criteria: Eligible lands are those which are either: (1) on file at the Washington
24 State Office of Archeology and Historic Preservation; or (2) verified by an expert in
25 the field as containing the same features and acceptable by the State Office of
26 Archaeology and Historic Preservation for addition to their inventory.

27 B. Historical Site.

28 Definition: A building, structure or site which is of significance to the county's
29 cultural heritage including, but not limited to: Native American and pioneer
30 settlements, old buildings, forts, trails, landings, bridges or the sites thereof together
31 with interpretive facilities, and which are identified on a local, state or national
32 register of historic places. A building or structure shall include a maximum of one
33 acre of land.

1 Source: No comprehensive inventory has been done by the county to date. Refer to
2 state or national register at state Office of Archaeology and Historic Preservation.
3 The Kitsap County Historical Society maintains a list of historical sites in Kitsap
4 County.

5 Examples: Port Madison, Fort Ward, Old Man House.

6 Criteria: Eligible lands are those on the State and National Registers of Historic
7 Places or any county register of historic places which is developed in the future.
8 Sites identified by the Kitsap County Historical Society may also be considered as
9 medium or low priority resources.

10 (vii) Urban Open Space.

11 Definition: Land maintained in its natural state, with appropriate public access, and
12 located within an urbanizing area.

13 Source: Kitsap County Comprehensive Plan maps.

14 Criteria: Eligible lands are those meeting the definition above. “Urbanizing area”
15 shall mean that area within an area designated “urban” or “semi-urban” on the
16 Comprehensive Plan maps of Kitsap County.

17 (viii) Designated Open Space.

18 Definition: Land designated “open space” by Kitsap County Comprehensive Plan, or
19 adopted subarea or community plans. ~~South Kitsap Subarea Plan, Central Kitsap~~
20 ~~Subarea Plan or North Kitsap Subarea Plan.~~

21 Source: Land designated “open space” by the Kitsap County Comprehensive Plan, or
22 adopted subarea or community plans. ~~South Kitsap Subarea Plan, Central Kitsap~~
23 ~~Subarea Plan or North Kitsap Subarea Plan.~~

24 Example: None at this time.

25 Criteria: Eligible lands are those designated as “open space” by one or more of the
26 above planning documents in order to preserve the existing character of a particular
27 area.

28 (ix) Watersheds and Aquifer Recharge Area.*

29 Definition: Undeveloped land which serves as the watershed for a “public water
30 system” as defined in WAC [248-54-560](#), or aquifer recharge areas defined in the
31 critical area designation for Kitsap County.

1 Source: ~~Bremerton Kitsap health department~~ Kitsap Public Health District,
2 Washington State Department of Social and Health Services, ~~Kitsap PUD No. 4~~
3 Kitsap PUD

4 Criteria: Eligible lands are those meeting the definition above. Given the nature and
5 function of the resource, public access may be restricted due to sensitivity.

6 * Note: Aquifer recharge areas will be included in this category upon designation
7 of said areas.

8 (x) Farm and Agricultural Conservation Land.

9 Definition: “Farm and agricultural conservation land” means either:

10 A. Land that was previously classified under RCW [84.34.020](#)(2) (farm and
11 agricultural land) that no longer meets the criteria of said subsection (2) and that is
12 reclassified under RCW [84.34.020](#)(1) (open space land).

13 B. Land that is traditional farmland that is not classified under RCW
14 Chapters [84.33](#) or [84.34](#), that has not been irrevocably devoted to a use inconsistent
15 with agricultural uses, and that has a high potential for returning to commercial
16 agriculture.

17 A farm plan which includes water quality protection measures from the Kitsap
18 conservation district may be required prior to approval of open space designation.

19 Sources: RCW [84.34.020](#)(8).

20 Example: The Howe family farm located at the intersection of Long Lake Road and
21 Mile Hill Drive in South Kitsap.

22 Criteria: Eligible lands are those meeting the definition above.

23 (xi) Conservation Easement.

24 Definition: Agreement between the property owner and one or more of the
25 following:

26 A. The state of Washington (through one of its resource agencies);

27 B. A public or private land trust; or

28 C. Other appropriate entity (see RCW [84.34.210](#)) which permanently transfers
29 development rights for purposes of perpetual, or long-term conservation.

1 Source: RCW [64.04.030](#).

2 Examples: The following list of organizations* may accept a conservation easement:

3 Kitsap Land Trust;

4 Bainbridge Island Land Trust;

5 ~~Hood Canal Land Trust~~ [The Trust for Public Land](#);

6 Indianola Land Trust;

7 The ~~Nature Conservancy~~ [Hansville Greenway Nature Preserve](#);

8 The local Indian tribes; and

9 The ~~Kitsap County Open Space Program~~ [Kitsap County Open Space Plan](#).

10 * It should be noted that there may be other organizations available to accept
11 conservation easements.

12 (xii) Land or Interest Acquired for Open Space or Conservation Futures.

13 (B) Medium Priority Resources.

14 (i) “Conservancy” Shoreline Environment.

15 Definition: All marine, lake and riverine shorelines and “associated wetlands”
16 identified as a “conservancy environment” under the jurisdiction of the Shoreline
17 Management Act, and not in another shoreline category of this open space tax
18 program priority lands list.

19 Sources: the ~~Shoreline Management Master Program~~ [Shoreline Master Program](#) –
20 Kitsap County.

21 Example: Restoration Point.

22 Criteria: Eligible lands are all conservancy shoreline environments as identified in
23 the the ~~Shoreline Management Master Program~~ [Shoreline Master Program](#) for Kitsap
24 County with preference given to the “Shorelines of Statewide Significance.” Area to
25 be included is two hundred feet upland from the ordinary high-water mark, or the
26 associated wetland. Use restrictions may be placed within these areas and all
27 proposed forest practice applications shall be prefiled with the county department of
28 community development to determine if any special cutting restrictions would be
29 appropriate.

1 (ii) Secondary Stream Buffers.

2 Definition: A streamside buffer at least seventy-five feet in width which is in
3 addition to a primary streamside buffer.

4 Source: Added to streams identified as high priority resources.

5 Criteria: Eligible lands are those which qualify for high priority resource by
6 providing a primary streamside buffer and an additional buffer preserved from
7 clearing and intrusion by livestock.

8 (iii) Geological and Shoreline Features.

9 Definition: Those special features as defined in the Natural Heritage Plan generally
10 including but not limited to special geologic locations (fossils), works of
11 geomorphology (waterfalls), or those unique and undeveloped shoreline features of
12 Puget Sound including spits, lagoons or points.

13 Source: Natural Heritage Data Base.

14 Example: Foulweather Bluff.

15 Criteria: Eligible sites are those which are either: (1) on file in the Natural Heritage
16 database, or (2) verified by an expert in the field as containing the same features as
17 those in the data base and are also acceptable by the state agency for addition to the
18 Natural Heritage data base. Minimum area eligible for enrollment, whether in single
19 or multiple ownerships, is a significant portion of the feature.

20 (iv) Public Lands Buffer.

21 Definition: Lands lying adjacent to public projects or forests, and lands lying
22 adjacent to public or private wildlife preserves, natural reservations or sanctuaries.

23 Source: Kitsap County ~~Comprehensive Park and Recreation System Plan Parks,~~
24 ~~Recreation and Open Space Plan~~, Kitsap County Assessor.

25 Criteria: Lands being buffered shall be in public ownership or private lands shall be
26 enrolled in the open space program.

27 (C) Low Priority Resources.

28 (i) Steep or Unstable Slopes.

29 Definition: Steep slopes are those with a slope of fifteen percent or greater. Unstable
30 slopes are those identified as intermediate or unstable by the Slope Stability Atlas.

1 Source: Kitsap County Slopes Stability Study – Jerry Deeter, 1977.

2 Criteria: Eligible lands are those meeting the definition above or which are verified
3 by an expert in the field as having unstable slopes and/or slopes of fifteen percent or
4 greater.

5 (ii) Private Recreation Area.

6 Definition: An area operated and devoted to facilities and equipment for outdoor
7 recreational purposes, including tennis courts, playgrounds, golf courses and other
8 similar uses whether or not the use of such area is open to the public upon the
9 payment of a fee. Shall not include recreational vehicle parks portion of a site.

10 Source: No county inventory available.

11 Example: Clover Valley Golf and Country Club.

12 Criteria: Eligible lands are those meeting the above definition and providing some
13 recreational and/or buffering benefit to properties nearby.

14 (iii) “Rural” Shoreline Environments.

15 Definition: All marine, lake and riverine shorelines and “associated wetlands”
16 identified as a “mini environment” under the jurisdiction of the Shoreline
17 Management Act, and not in another shoreline category of this open space tax
18 program priority lands list.

19 Example: Restoration Point.

20 Criteria: Eligible lands are all rural shoreline environments as identified in the the
21 ~~Shoreline Management Master Program~~ Shoreline Master Program for Kitsap
22 County with preference given to the “Shorelines of Statewide Significance.” Area to
23 be included is two hundred feet upland from the ordinary high-water mark, or the
24 associated wetland. Use restrictions may be placed within these areas and all
25 proposed forest practice applications shall be prefiled with the Kitsap County
26 department of community development to determine if any special cutting
27 restrictions would be appropriate.

28 (iv) Preservation of Visual Quality.

29 Definition: To preserve visual quality along highway, road, and street corridors or
30 scenic vistas.

31 Source: The Open Space Act, Chapter [84.34](#) RCW.

1 Example: Ollala Valley South, Big Valley North.

2 (4) Ineligible Lands.

3 (A) Those lands which do not contain a resource identified as either a high, medium, or low
4 priority in Section [18.12.020](#)(2) are not eligible for enrollment in the program.

5 (B) Open space lands which are associated with a development where maximum
6 development potential has been achieved under land use regulations shall not be eligible for
7 enrollment in the open space program. An example is a planned unit development with
8 clustered dwelling units.

9 **NEW SECTION [Section 33](#): A new section is added to Kitsap County Code Chapter 16.04**
10 **General Provisions, as follows:**

11
12 **16.04.180 List of Qualified Consultants.**

13 As a resource to applicants, the department will maintain a list of arborists, habitat biologists,
14 hydrogeologists, geological engineers, geologists, land surveyors, and wetlands scientists who, at
15 the time of listing, are licensed in the state of Washington and meet the minimum qualifications
16 of Kitsap County Code to prepare certain documents required by this title. The list will contain
17 those consultants who have responded to Kitsap County’s call to be listed. Kitsap County makes
18 no representation or guarantee as to the quality of services performed by those listed, and
19 reserves the right to discontinue the list at any time.

20
21 **NEW SECTION [Section 34](#): A new section is added to Kitsap County Code Chapter**
22 **17.100 General Provisions, as follows:**

23
24 **17.100.090 List of Qualified Consultants.**

25 As a resource to applicants, the department will maintain a list of arborists, habitat biologists,
26 hydrogeologists, geological engineers, geologists, land surveyors, and wetlands scientists who, at
27 the time of listing, are licensed in the state of Washington and meet the minimum qualifications
28 of Kitsap County Code to prepare certain documents required by this title. The list will contain
29 those consultants who have responded to Kitsap County’s call to be listed. Kitsap County makes
30 no representation or guarantee as to the quality of services performed by those listed, and
31 reserves the right to discontinue the list at any time.

32 **NEW SECTION [Section 35](#): A new section is added to Kitsap County Code Chapter 18.16**
33 **Timber Harvest, as follows:**

34
35 **18.16.210 List of Qualified Consultants.**

36 As a resource to applicants, the department will maintain a list of arborists, habitat biologists,
37 hydrogeologists, geological engineers, geologists, land surveyors, and wetlands scientists who, at
38 the time of listing, are licensed in the state of Washington and meet the minimum qualifications
39 of Kitsap County Code to prepare certain documents required by this title. The list will contain
40 those consultants who have responded to Kitsap County’s call to be listed. Kitsap County makes

DRAFT: 9/21/22

1 no representation or guarantee as to the quality of services performed by those listed, and
2 reserves the right to discontinue the list at any time.

3 **NEW SECTION Section 36: A new section is added to Kitsap County Code Chapter**
4 **19.100 General Provisions, as follows:**

5
6 **19.100.170 List of Qualified Consultants.**

7 As a resource to applicants, the department will maintain a list of arborists, habitat biologists,
8 hydrogeologists, geological engineers, geologists, land surveyors, and wetlands scientists who, at
9 the time of listing, are licensed in the state of Washington and meet the minimum qualifications
10 of Kitsap County Code to prepare certain documents required by this title. The list will contain
11 those consultants who have responded to Kitsap County’s call to be listed. Kitsap County makes
12 no representation or guarantee as to the quality of services performed by those listed, and
13 reserves the right to discontinue the list at any time.

14 **Section 37: Kitsap County Code Section 19.700.715, last amended by Ordinance 545-2017,**
15 **is amended as follows:**

16
17 A. Compensatory mitigation shall be required for activities that result in the loss of wetland
18 acreage or functions, in accordance with Section [19.200.230](#) (Wetland mitigation requirements).

19 1. A compensatory mitigation plan shall be completed. The applicant shall submit a
20 detailed mitigation plan for compensatory mitigation to the department.

21 2. The detailed mitigation plan shall be prepared, signed, and dated by the wetland
22 specialist to indicate that the plan is in accordance with specifications as determined by the
23 wetland specialist. A signed original mitigation plan shall be submitted to the department.

24 3. Approval of the detailed mitigation plan shall be signified by a notarized memorandum
25 of agreement, signed by the applicant and department director or designee. The agreement
26 shall refer to all requirements for the mitigation project.

27 4. The mitigation project shall be completed according to a schedule agreed upon
28 between the department and the applicant.

29 5. Wetland mitigation shall occur according to the approved wetland mitigation plan and
30 shall be consistent with provisions of this chapter and title.

31 6. The wetland specialist shall be onsite during construction and plant installation phases
32 of all mitigation projects.

33 7. Upon completion of construction for the wetland mitigation project, the wetland
34 specialist shall submit an as-built report to the department for review and approval.

1 B. As required by Section [19.200.230](#) (Wetland mitigation requirements), a mitigation report
2 shall be prepared and shall contain the following:

3 1. Cover/Title Page.

4 a. Project name.

5 b. Reference numbers to other permit applications (local, state and/or federal).

6 c. Date of publication.

7 d. Who it was prepared for/contact information.

8 e. Who it was prepared by/contact information.

9 2. Table of contents, including a list of figures and tables.

10 3. Responsible Parties. Provide the names, titles, addresses, phone numbers, and
11 information regarding the professional experience (if applicable) for those involved in the
12 development and mitigation projects. Provide the name of the company or agency, as well
13 as the individuals involved.

14 a. Applicant(s).

15 b. Applicant's representative/agent.

16 c. Preparer(s) of the wetland delineation report.

17 d. Preparer(s) of the mitigation report, mitigation construction plans and
18 specifications.

19 e. Parties responsible for monitoring, long-term maintenance, and contingency
20 plans. If this is unknown at the time the mitigation report is submitted, provide this
21 information with the monitoring reports.

22 4. Executive summary that summarizes the project, its potential wetland-related impacts,
23 and the proposed mitigation. The executive summary shall include the following
24 information:

25 a. Applicant name/address/phone.

26 b. Agent/consultant.

27 c. Description of land use proposal and location.

- 1 d. Description of the measures taken to avoid and minimize the impacts to the
2 wetland and other aquatic resources.
- 3 e. Description of unavoidable wetland impacts and the proposed compensatory
4 mitigation measures:
- 5 i. Size (acres);
- 6 ii. Cowardin wetland classification;
- 7 iii. Hydrogeomorphic (HGM) classification;
- 8 iv. Wetland rating;
- 9 v. Wetland functions;
- 10 vi. Compensation ratios used.
- 11 f. Description of mitigation area.
- 12 g. Explanation of other unavoidable impacts to other aquatic resources.
- 13 h. Other relevant details, including but not limited to:
- 14 i. Goals and objectives.
- 15 ii. Proposed improvements to the functions and environmental processes of the
16 larger watershed.
- 17 iii. Proposed buffers for the compensatory mitigation site (minimum and
18 maximum width and total area).
- 19 5. Project Description.
- 20 a. Type of development (existing and proposed land uses).
- 21 b. Development project size.
- 22 c. Implementation schedule (start date and duration).
- 23 d. Project Location and Maps.
- 24 i. Section, township, range.

- 1 ii. Water resource inventory area (WRIA).
- 2 iii. Watershed and subwatershed.
- 3 iv. Vicinity map.
- 4 e. Description of the Development Site.
- 5 i. Historic and current land uses, zoning designations, and structures on
6 development site and adjacent properties (if known).
- 7 ii. A local area map (zoning, land use, wetlands, other aquatic resources, one
8 hundred-year floodplain).
- 9 iii. Existing wetlands on or adjacent to the development site. Attach delineation
10 report.
- 11 iv. Other aquatic resources on the site or adjacent properties, noting hydrologic
12 connections. Describe any flooding that affects the development site and the
13 location of the development within the floodplain, where applicable.
- 14 v. Known historic or cultural resources on the development site.
- 15 6. Ecological Assessment of Impact.
- 16 a. Description of the impacts and extent of disturbance to wetlands (including
17 acreage). This includes temporary, indirect, and direct impacts.
- 18 b. Description of the site in context of other wetlands/water bodies.
- 19 c. Description of the Water Regime.
- 20 i. Describe the source of water to the wetland being affected by the
21 development project. For multiple sources, estimate the percentage of each.
- 22 ii. Describe the hydrologic regime of the wetland being affected through
23 qualitative estimates of duration and frequency of inundation/saturation.
- 24 iii. Map of the surface and groundwater flowing into the impacted areas with
25 the directions of water flow indicated.
- 26 d. Description of the Soils.

- 1 i. Description of the soil characteristics of the wetland being affected including
2 soil type and classification, and a description of texture, color, structure,
3 permeability, and organic content.
- 4 ii. Soil survey map (indicate the source of the map).
- 5 iii. Map showing soil sampling locations (typically the location of the soil pits
6 used for delineation).
- 7 e. Description of the Plant Communities.
- 8 i. Qualitative descriptions of the different Cowardin (1979) classes at the
9 wetland being affected (including subclass and water regime modifiers). If a
10 forested class is present, also estimate the average age of the canopy species.
- 11 ii. Estimate the relative abundance of dominant and subdominant plants within
12 each Cowardin class (use information collected during routine delineation unless
13 more detailed data are available).
- 14 iii. List of the wetland indicator status of dominant and subdominant species
15 (obligate – OBL, facultative – FAC, facultative wet – FACW).
- 16 iv. Description of the prevalence and distribution of nonnative and/or invasive
17 species, if any are present at the wetland being affected.
- 18 v. General description of upland plant communities within three hundred thirty
19 feet (one hundred meters) of the wetland being affected, if any.
- 20 vi. List of rare plants and plant communities that are known to occur on the
21 development project site or adjacent properties. If any of these species are
22 observed on the site, include descriptions of the occurrence and any potential
23 impacts to them.
- 24 f. Description of any fauna using the site. If a biological assessment was
25 prepared for the project, the report may simply be referenced in this mitigation
26 report.
- 27 i. Description of any animals (including amphibians) using the wetland being
28 affected or its buffer. Especially note evidence of past or present beaver use. In
29 most cases, a list of species likely to use the habitats on the site is sufficient, with
30 brief descriptions of the existing habitats.
- 31 ii. Include a description of endangered, threatened, sensitive, and candidate
32 animal species that are known to occur in the general areas (distance depends on
33 species) of the development site, as well as observations of such species. Also,

1 include those listed as priority species or species of concern by the Washington
2 Department of Fish and Wildlife.

3 g. Landscape Position and Geomorphology.

4 i. Class of the wetland being affected by the development project. Use the
5 hydrogeomorphic classification (class and subclass) to describe its position in the
6 watershed.

7 ii. Qualitative description of the functions performed by the wetland affected
8 relative to the position in the watershed. This may include its role in attenuating
9 flooding, as a corridor for wildlife between different region of the watershed, as
10 part of a regional flyway, or in improving water quality regionally.

11 h. Description of Functions Provided.

12 i. Description of the functions provided by the wetland being affected and to
13 what level they are performed. The method used to assess functions varies
14 depending on the scale of the impact (size/type), the complexity of the wetland,
15 etc. The same method must be used for assessing the impact site and the
16 mitigation site, as well as for monitoring.

17 ii. Qualitative or quantitative description of the characteristics that enable the
18 wetland being affected to perform specific functions, depending on the method
19 used.

20 iii. Description of the sampling and assessment methods used.

21 iv. Documentation of the training of professionals assessing the functions.

22 v. List of the references consulted.

23 i. Wetland Category Rating and Buffer Requirements.

24 i. The category of the wetland being affected using the Washington State rating
25 system for Western Washington, as revised.

26 ii. Copies of the original data sheets used to rate the wetland.

27 iii. Size (width) of the undeveloped upland buffer within three hundred feet
28 (one hundred meters) of the wetland being affected by the development project.

29 iv. Qualitative description of the dominant vegetation in the buffer and the
30 physical structure of the plants in it (e.g., deciduous forest, coniferous forest, and
31 prevalence of snags and downed woody debris).

- 1 v. Maps of the buffer areas and the vegetation types.
- 2 j. Information on Water Quality, Where Applicable.
- 3 i. Description of any known or observable water quality problems at the
4 development site and whether they will continue after the development project is
5 completed. Basic water quality parameters that should be considered include
6 dissolved oxygen (DO), pH and alkalinity, temperature, turbidity/suspended
7 solids/sediment accretion, nutrients, fecal coliform, and heavy metals.
- 8 ii. Assessment of whether the development project is expected to worsen or
9 improve existing water quality conditions.
- 10 7. Mitigation Approach.
- 11 a. Mitigation Sequencing Followed.
- 12 i. Descriptions of the specific steps taken to avoid and minimize impacts to the
13 maximum extent practicable. Larger projects may need to include an alternatives
14 analysis in an appendix.
- 15 ii. Description of the specific steps to minimize wetland impacts to the site or
16 reduce impacts over time (timing of project, redesign of project, orientation
17 and/or location). Where applicable, note how proposed storm water treatment
18 facilities may reduce water quality impacts.
- 19 iii. Discussion of wetland rectification strategies. Where applicable note how
20 temporary impacts, occurring during implementation of the development project,
21 could be rectified through restoration and maintenance activities.
- 22 iv. Notation of the size and type of compensation being proposed. Include a
23 description of the mitigation ratios and why they are adequate to compensate for
24 the lost or degraded area and functions. A full description of the compensatory
25 mitigation should be provided as described in the following sections.
- 26 b. Goals and Objectives. Identify the goal or goals of the compensatory mitigation
27 project.
- 28 c. Mitigation Strategy. Describe in general terms the strategies (actions) that will be
29 used to achieve the goals.
- 30 8. Proposed Mitigation Site.
- 31 a. Site Description (Location, Size, Maps).

- 1 i. Ownership;
- 2 ii. Total area of mitigation site (acres);
- 3 iii. Current/past land use. Include, also, a description of the constraints at the
4 mitigation site that could affect the success of the mitigation project, and
5 strategies used to address each constraint.
- 6 b. Site Selection Rationale. Discuss how the site fits with the environmental needs in
7 the watershed. If watershed or regional planning efforts exist for the area, explain how
8 the selection of the compensation site is consistent with those plans.
- 9 c. Existing/Baseline Ecological Conditions of the Mitigation Site.
- 10 i. Summary of Historic and Current On-Site and Nearby Land Uses.
- 11 (A) Historic land uses and structures on the mitigation site and adjacent
12 properties, if known;
- 13 (B) Current land uses and structures on the mitigation site;
- 14 (C) Current land uses and zoning designations of adjacent properties;
- 15 (D) A local area map showing land uses and zoning designations.
- 16 ii. Description of Any Known Cultural Resources on the Site. If a separate
17 report on cultural/historic resources was prepared, it may be referenced in the
18 mitigation report.
- 19 (A) List of structures listed or eligible for historic registers;
- 20 (B) Brief description of resources having archaeological or cultural
21 significance.
- 22 iii. Description of the Site in Context of Other Wetlands. Any existing wetland
23 boundaries shall be summarized here, but may reference the delineation report.
- 24 (A) A topographic base map (scale one inch = four hundred feet or smaller)
25 outlining the boundaries of the wetlands that are under state, federal, or local
26 jurisdiction;
- 27 (B) Name of the delineation manual and method used. Include the date field
28 work was performed, field data sheets documenting the data collected on the
29 three criteria (hydrology, vegetation, soils);

- 1 (C) Provide the total area of wetlands on the mitigation site, identifying the
2 area (acres) of individual wetlands.
- 3 iv. Description of Other Aquatic Resources on the Mitigation Site and Adjacent
4 Properties.
- 5 (A) Description of the other aquatic resources (e.g., streams, lakes, tidal waters)
6 on the mitigation site and adjacent properties, noting hydrologic connections
7 among them and with existing wetlands.
- 8 (B) Include and/or reference a map showing the approximate location of all
9 aquatic resources.
- 10 (C) Description of any flooding that affects the mitigation site and location of
11 the development within the floodplain, where applicable, indicating on a map
12 whether the project is located within the mapped one hundred-year floodplain).
- 13 v. Description of the Water Regime.
- 14 (A) Description of the source of water to the mitigation site. If several sources
15 are present, estimate the percentage contribution from each.
- 16 (B) Description of the existing water regimes at the mitigation site (i.e., rough,
17 qualitative estimate of duration and frequency of inundation and/or saturation).
- 18 (C) Map of the surface and groundwater flowing into the mitigation area with
19 the directions of water flow indicated.
- 20 vi. Description of the Soils.
- 21 (A) Description of the soil characteristics of the mitigation site including soil
22 type and classification, and a description of texture, color, structure,
23 permeability, and organic content. Use soil surveys confirmed by representative
24 soil samples;
- 25 (B) Soil survey map (indicate source);
- 26 (C) Map showing soil sampling locations (typically the location of the soil pits
27 used for delineation).
- 28 vii. Description of the Plant Communities.
- 29 (A) Qualitative descriptions of the different Cowardin (1979) classes at the
30 mitigation site (include subclass and water regime modifiers). If a forested class
31 is present, also estimate the average age of the canopy species;

- 1 (B) Estimate the relative abundance of dominant and subdominant plants
2 within each Cowardin class (use information collected during routine delineation
3 unless more detailed data are available);
- 4 (C) List of the wetland indicatory status of dominant and subdominant species
5 (obligate – OBL, facultative – FAC, facultative wet – FACW);
- 6 (D) Description of the prevalence and distribution of nonnative and/or invasive
7 species, if any are present;
- 8 (E) General description of upland plant communities within three hundred
9 thirty feet (one hundred meters) of the mitigation site, if any;
- 10 (F) List of rare plants and plant communities that are known to occur on the
11 mitigation site or adjacent properties. If any of these species area observed on the
12 site, include descriptions of the occurrence and any potential impacts to them.
- 13 viii. Description of Any Fauna Using the Site. If a biological assessment was
14 prepared for the project, the report may simply be referenced in this mitigation
15 plan.
- 16 (A) Description of any animals (including amphibians) using the wetland being
17 affected or its buffers. Especially note evidence of past or present beaver use. In
18 most cases, a list of species likely to use the habitats on the site is sufficient, with
19 brief descriptions of the existing habitats.
- 20 (B) Include a description of endangered, threatened, sensitive, and candidate
21 animal species that are known to occur in the general areas (distance depends on
22 species) of the development site, as well as observations of such species. Also,
23 include those listed as priority species or species of concern by the Washington
24 Department of Fish and Wildlife.
- 25 ix. Landscape Position and Geomorphology.
- 26 (A) Class of any existing wetlands on the mitigation site. Use hydrogeomorphic
27 classification (class and subclass) to describe the position in the watershed;
- 28 (B) Qualitative description of the functions performed by the mitigation site
29 relative to the position in the watershed. This may include its role in attenuating
30 flooding, as a corridor for wildlife between different regions of the watershed, as
31 part of a regional flyway, or in improving water quality regionally.
- 32 x. Description of Functions Provided.

- 1 (A) Description of the functions provided by the wetland being affected and to
2 what level they are performed. The method used to assess functions varies
3 depending on the scale of the impact (size/type), the complexity of the wetland,
4 etc. The same method must be used for assessing the impact site and the
5 mitigation site, as well as for monitoring;
- 6 (B) Qualitative or quantitative description of the characteristics that enable the
7 wetland being affected to perform specific functions, depending on the method
8 used;
- 9 (C) Description of the sampling and assessment methods used;
- 10 (D) Documentation of the training of professionals assessing the functions; and
- 11 (E) List of the references consulted.
- 12 xi. Wetland Rating of Any Existing Wetlands, Buffer Requirements.
- 13 (A) The category of the wetland being affected using the Washington State
14 rating system for Western Washington, as revised;
- 15 (B) Copies of the original data sheets used to rate the wetland;
- 16 (C) Size (width) of the undeveloped upland buffer within three hundred thirty
17 feet (one hundred meters) of the mitigation site. Note how much of the existing
18 buffers extend off-site;
- 19 (D) Qualitative description of the dominant vegetation in the buffer and the
20 physical structure of the plants in it (e.g., deciduous forest, coniferous forest, and
21 prevalence of snags and downed woody debris.); and
- 22 (E) Maps of the buffer areas and the vegetation types.
- 23 xii. Information on Water Quality, Where Applicable.
- 24 (A) Description of any known or observable water quality problems at the
25 mitigation site and whether they will continue after the mitigation project is
26 completed. Basic water quality parameters that should be considered include
27 dissolved oxygen (DO), pH and alkalinity, temperature, turbidity/suspended
28 solids/sediment accretion, nutrients, fecal coliform, and heavy metals.
- 29 (B) Assessment of whether the mitigation project is expected to worsen or
30 improve existing water quality conditions.
- 31 d. Site constraints.

- 1 9. Preliminary Site Plan.
- 2 a. A qualitative description of the water regime and of how adequate hydrology will
3 be provided to support a wetland over the long term.
- 4 b. Discussion of how project was designed to provide the proposed functions,
5 including description of the hydrologic data that will support the proposal. Provide a
6 rationale for each proposed function and describe the design features that will
7 contribute to providing the function.
- 8 c. Schematic Drawings.
- 9 i. Change in topography;
- 10 ii. Hydrologic (water control) structures;
- 11 iii. Soils;
- 12 iv. Vegetation distributions;
- 13 v. Habitat attributes (structures) and their location;
- 14 vi. Existing and proposed buffers.
- 15 d. Section drawings showing relationship of topography to water regime and
16 vegetation.
- 17 10. Final Site Plan/Design.
- 18 a. Site Survey and Topography.
- 19 i. Site surveys are needed when the mitigation project includes changes to
20 ground elevations. If no changes to grade are proposed, then a simpler map of the
21 site will be sufficient showing property and wetland boundaries, landmarks,
22 scale, site features, and other existing conditions;
- 23 ii. Orientation and scale (north arrow; typically scales are one inch = twenty-
24 five or fifty feet);
- 25 iii. Existing and proposed elevation contours. Contours at one-foot intervals are
26 typically sufficient for most mitigation reports. Contours at six-inch intervals
27 may be desirable in certain cases where the seasonal fluctuation of water levels is
28 low or in specific areas on the mitigation site where it is critical to have a high
29 level of accuracy;

- 1 iv. Spot elevations for low points, high points and structures (culverts,
2 hydraulic controls, utilities, and roads);
- 3 v. Property boundaries;
- 4 vi. On-site wetland boundaries (including all wetlands existing and after
5 mitigation);
- 6 vii. Survey benchmarks;
- 7 viii. Location and elevation of soil borings or test pits and water level sampling
8 devices;
- 9 ix. Location of soils to be stockpiled, if any;
- 10 x. Description of methods of erosion control and bank stabilization, if
11 applicable;
- 12 xi. Buffer areas proposed for the mitigation site and their boundaries.
- 13 b. Water regime including:
- 14 i. Description of the proposed frequency and duration of flooding, inundation,
15 or soil saturation;
- 16 ii. Description of the proposed groundwater and surface water sources and
17 characteristics;
- 18 iii. Description of the elevation of the water table and dates when measured
19 (note if table is perched);
- 20 iv. Engineering drawings of any proposed water control structures.
- 21 c. Soil Amendments.
- 22 i. Soil Logs from an On-Site Evaluation. Depending on proposed depth of
23 grading, soil information may come from hand-dug shallow pits or from deeper
24 samples that are typically obtained with small drilling rigs. At a minimum, the
25 shallow soil profile should be described even if no changes in site elevations are
26 proposed.
- 27 ii. Description of how the soil characteristics will be affected by the mitigation
28 activities.

1 d. Landscape Plans. For most projects, planting plans should be prepared by a
2 landscape architect with assistance from a wetland or plant ecologist. In some
3 cases where very simple planting plans are proposed for small areas, the level of
4 expertise provided by a landscape architect may not be needed. The list below
5 includes the minimum information needed for planting plans.

6 i. Section drawing of proposed plant distribution, density and spacing, in
7 relation to topography and water levels. The projected average water level during
8 winter wet season, early growing season, and late summer dry season should be
9 displayed;

10 ii. List of plant materials (common and Latin names, sizes, sources, quantity,
11 etc.);

12 iii. Location of existing or proposed upland buffers;

13 iv. Description of the methods that will be used to control invasive and exotic
14 plants if they exist in the vicinity;

15 v. A plan for irrigating the plants until they are established, including method,
16 frequency, and amount of water;

17 vi. Erosion control;

18 vii. Map of the location of habitat structures or habitat features;

19 viii. Location of upland buffers;

20 ix. Description of the soil amendments, including use and sources of mulch.

21 e. Construction specifications.

22 11. Monitoring Plan. A monitoring plan describes the methods used to collect and
23 analyze data needed to show that performance standards are being met. They are also used
24 to track environmental changes at mitigation sites throughout the monitoring period.
25 Monitoring plans will vary depending on mitigation objectives and performance standards,
26 but all must be designed to assess the quantitative or qualitative performance standards.
27 The methods used for monitoring specific variables generally need to be the same as those
28 used in establishing baseline data at the wetland affected by the development project.
29 Monitoring plans will typically include the elements described below.

30 a. Variables to be measured (plant survival, canopy cover, plant diversity, water
31 levels and duration or inundation/saturation);

32 b. Sampling methods for each variable;

- 1 c. A map of the sampling locations for each variable or a description of the methods
2 that will be used to determine sampling locations for each monitoring event.
3 Permanent sampling locations may be the best choice for some variables, but for
4 others, such as percent cover of vegetation, sampling locations may be varied through
5 random selection or other methods for each monitoring event. The map should include
6 clearly identifiable markers on the ground to act as reference points for orientation.
7 These may include roads, benchmarks, and permanent structures;
- 8 d. Laboratory methods to be used, if applicable;
- 9 e. Provide a timetable for reporting monitoring results to the agencies. It is preferred
10 to tie the specific dates to the start of construction;
- 11 12. Site Protection.
- 12 a. Physical site protection.
- 13 b. Legal protection (deed restriction, conservation easement). Provide copies.
- 14 c. Buffers.
- 15 13. Maintenance and Contingency Plans. The need for activities such as inspecting
16 irrigation systems, replacing plants, weeding, preventing or managing herbivory, removing
17 trash, and controlling erosion (and the funding to conduct them) should be anticipated
18 based on the site characteristics, level of public access to the mitigation site, and typical
19 uses of adjacent areas. Frequency of the activities may change through the monitoring
20 period, so maintenance plans should be written with room for flexibility. Contingency
21 plans contain corrective measures that will be taken if monitoring indicates that
22 performance standards are not being met.
- 23 a. Maintenance schedule for each activity. Include a description of and reason for
24 each maintenance activity planned.
- 25 b. Contingency Plan.
- 26 i. Description of initiating procedures. If a performance standard is not met
27 within the time specified in the mitigation plan the permittee will be required to
28 complete the activities in the following list:
- 29 (A) An analysis of the causes of failure;
- 30 (B) Description of the proposed corrective actions;
- 31 (C) Time frame for implementing these actions.

1 ii. Description of a Contingency Fund. A contingency fund should be
2 established for use if any corrective actions are necessary. The description should
3 include what funds will be available for planning, implementing and monitoring
4 any contingency procedures that may be required to achieve the mitigation goals.
5 Generally, the fund amount should equal twenty percent of the total cost of
6 mitigation associated with the project.

7 iii. Responsible parties.

8 14. Implementation Schedule.

9 a. Construction sequence and time schedule for project start, grading, water
10 diversions, plantings, completion etc. The applicant must work with the department to
11 develop an agreed construction schedule for the mitigation project. Delays in
12 implementing the construction of the mitigation site may result in an increase in the
13 mitigation required and enforcement actions.

14 b. Completion. Acknowledgment that the wetland specialist will submit an as-built
15 report to the department for review and acceptance.

16 15. Permit Conditions. Any compensation project prepared pursuant to this section and
17 approved by the department shall become part of the application for the permit. The
18 department will require an additional growing season year for approval of the mitigation
19 plan unless the applicant requests an inspection for final monitoring year during the final
20 monitoring year assessment.

21 16. Performance Bonds and Demonstration of Competence. A demonstration of financial
22 resources, administrative, supervisory, and technical competence and scientific expertise of
23 sufficient standing to successfully execute the compensation project shall be provided. A
24 compensation project manager shall be named, and the qualifications of each team member
25 involved in preparing the mitigation plan and implementing and supervising the project
26 shall be provided, including educational background and areas of expertise, training and
27 experience with comparable projects. A performance bond, assignment of savings, or other
28 like security will be required by the department in an amount necessary to provide for
29 future site monitoring and possible corrective action required for compensatory mitigation
30 projects. Typically, this amount is one and one-half times the estimated cost of mitigation.
31 Once the project is completed and a maintenance bond is established, the performance
32 bond will be released. The maintenance bond, as determined by the wetland specialist, will
33 be released upon success of the project, as determined by the metrics in the mitigation plan,
34 and no earlier than five years after completion of the mitigation project. If the approved
35 mitigation is not completed or fails to meet its success standards, the property owner must
36 agree to a property access release form, with forfeiture of funds after the specified
37 monitoring period.

1 17. Waiver. The department may waive portions of a wetland mitigation report if there is
2 adequate information available on the site to determine its impacts and appropriate
3 measures.

4 ~~18.—List of Qualified Consultants. The department shall establish a list of qualified~~
5 ~~consultants to prepare mitigation plans.~~

6 **Section 38. Kitsap County Code Section 22.700.100 Specials Reports - General, last**
7 **amended by Ordinance 598-2021, is amended as follows:**

8
9 **22.700.100 Special reports – General.**

10 A. Special reports shall be submitted by the applicant and approved by the department for
11 regulated uses when required by this program for the protection of shorelines.

12 B. The applicant shall pay for or reimburse the county for the costs incurred in the
13 preparation of special reports or tests, and for the costs incurred by the county to engage
14 technical consultants or staff for review and interpretation of data and findings submitted by or
15 on behalf of the applicant. The applicant shall pay permit fees or technical assistance fees as
16 required by the community development fee schedule.

17 C. Any special report shall be prepared by a professional, as defined in Chapter 22.150
18 (Definitions), and shall include his or her resume, or other list of qualifications, to aid the
19 department in assessing these qualifications.

20 D. The special reports described in Sections 22.700.105 through 22.700.145 may be required
21 to provide environmental information and to present proposed strategies for maintaining,
22 protecting and/or mitigating shoreline functions and conditions.

23 E. List of Qualified Consultants. As a resource to applicants, the department will maintain a list
24 of arborists, habitat biologists, hydrogeologists, geological engineers, geologists, land surveyors,
25 and wetlands scientists who, at the time of listing, are licensed in the state of Washington and
26 meet the minimum qualifications of Kitsap County Code to prepare certain documents required
27 by this title. The list will contain those consultants who have responded to Kitsap County’s call
28 to be listed. Kitsap County makes no representation or guarantee as to the quality of services
29 performed by those listed, and reserves the right to discontinue the list at any time.

30 **Section 39: Severability.**

31 If any provision of this ordinance or its application to any person or circumstance is held invalid
32 or unconstitutional, the remainder of the ordinance or its application to other persons or
33 circumstances shall not be affected.

34 **Section 40: Scrivener’s Error.**

35 Should any amendment to Kitsap County Code that was passed by the Board during its
36 deliberations on this Ordinance be inadvertently left out upon publication, the explicit action of
37 the Board as discussed and passed shall prevail upon subsequent review and verification by the
38 Board.

39 **Section 41: Effective Date.**

1 This Ordinance shall take effect on _____, three months after being adopted.
2

Adopted this ____ day of _____, 2022

BOARD OF COUNTY COMMISSIONERS
Kitsap County, Washington

ATTEST:

EDWARD E. WOLFE, Chair

CHARLOTTE GARRIDO, Commissioner

Dana Daniels, Clerk of the Board

ROBERT GELDER, Commissioner

Approved as to form:

Lisa Nickel, Deputy Prosecuting Attorney
