

Open Space Land

Program Summary

Chapter 84.34 RCW provides property tax relief for properties that meet certain use requirements and will be kept in the open space program for a minimum of ten years. *Open space land* is defined as any of the following:

1. Land zoned for open space
2. Any land area, the preservation of which, in its present use, would:
 - a) conserve and enhance natural or scenic resources
 - b) protect streams or water supply
 - c) promote conservation of soils, wetlands, beaches or tidal marshes
 - d) enhance the value to the public of abutting or neighboring parks, forest, wildlife preserves, nature reservations or sanctuaries or other open space
 - e) enhance recreation opportunities
 - f) preserve historic sites
 - g) preserve visual quality along highway, road, and street corridors or scenic vistas
 - h) retain in its natural state tracts of land not less than one acre situated in an urban area and open to public use on such conditions as may be reasonably required by the legislative body granting the open space classification
3. Any land meeting the definition of “farm and agricultural conservation land”, which means either:
 - a) Land previously classified as farm and agricultural land that no longer meets the criteria and is reclassified under open space land.
 - b) “Traditional farmland”, not classified, that has not been irrevocably devoted to a use inconsistent with agricultural uses, and that has a high potential of returning to commercial agricultural.

Basis of Assessment

Kitsap County has adopted an Open Space Plan (WAC 458-30-330) that results in values based on sensitive characteristics of the land and its benefit to the public. If a parcel of land qualifies with two sensitive characteristics, taxable value would be reduced by 50%. If a parcel qualifies with three sensitive characteristics, and if a permanent conservation easement exists on the property, taxable value would be reduced by 80%. If public access is allowed, in appropriate measure so that the integrity of the land is not compromised, an additional 10% reduction would be granted. Generally, if the land characteristics make it reasonable, public access in some measure is expected as part of the public benefit for the classification. If a residence exists on the parcel, a minimum one-acre residence site is excluded from classification.

Application Requirements

Applications may be obtained from and filed with the Department of Community Development. The application may be for an entire parcel or any portion thereof. A legal description is required, as well as a site plan. All owners must sign the application. There is a \$300 application fee. A Farm Plan is also required if there is any agricultural use of the site. The approval process takes six months.

Review Process

Applications are reviewed by the Department of Community Development and by the city planning department, if the property is located within a city limits. Following a public hearing, applications are approved or denied by the Board of County Commissioners and, if in a city, by the city council. Denial may be appealed in Superior Court. Upon approval, an Open Space Taxation Agreement will be sent to the applicant, who may accept or reject the agreement. The signed agreement is recorded with the county auditor.

(Continued on the back)

Property Use Restrictions

Land approved for classification as open space will be subject to certain use restrictions, designed to ensure that the natural character of the land will not be disturbed. While specific restrictions may vary from property to property, the following is a list of standard conditions that will apply to most properties:

1. No motorized vehicles
2. No domestic animals or livestock (except on "traditional farm land")
3. No clearing of vegetation
4. No hunting, fishing, or trapping
5. No camping
6. No smoking, campfires, or firearms
7. No mining, storage or excavation of materials
8. No dumping

All conditions of approval become part of the recorded agreement.

Removal of Classification

Classification will be removed, and back taxes imposed, upon the occurrence of any of the following:

- Owner's request: The request for withdrawal must be made in writing and signed by all owners. Forms for withdrawal are available from the assessor.
- Change of use: Determination is made by Kitsap County that the property is no longer primarily devoted to the use for which it was classified.
- Sale or transfer of the property, and the new owner does not wish to continue classification: Back taxes must be collected before the conveyance is recorded.

Transfer of Ownership

A new owner may request to continue classification by signing a "Notice of Continuance". All new owners must sign, and an updated management plan may be required. The new owners assume all tax liability accrued by the previous owner, including liability related to this classification.

Back Taxes

Back taxes equal the difference between the tax paid under open space classification and the tax at true and fair value for the current year and the last seven years, plus interest at 1% per month. A 20% penalty is also applied if the property was classified less than ten years or a 2 year written notice of removal was not given or if there was a change in use. Back taxes are not collected under the following circumstances:

1. Transfer to a government entity in exchange for other land within the state
2. Land is taken by power of eminent domain or transferred in anticipation of the exercise of such power
3. A natural disaster changes the use of the property
4. Official action by the state, county, or city disallows the present use of such land
5. Transfer of land to a church when such land would qualify for a property tax exemption pursuant to RCW 84.36.020
6. Acquisition of property interests by public agencies for the purpose of preserving open space lands and riparian easements

Back taxes become due 30 days following notification of the owner, and are subject to additional interest of 1% per month after the due date.
