

# Make Sure Your Vote is Clear

## To ensure your vote is accurately counted:

**Vote it:** Use a pencil or dark ink pen to connect the arrow by your choice with one single dark line.

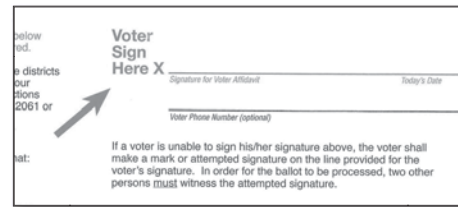

- Your ballot is read by a machine that counts the marks you make between the arrows on your ballot.
- Marks that are outside the arrows delay the count.
- Remove and discard the top ballot stub at the perforated line after you are finished voting.
- To **make a correction**, mark X through your error and re-mark your choice.

**Secure it:** Never sign or print your name on the face of the ballot. Your signature should appear only on the lavender envelope. Place the voted ballot in the white secrecy envelope and seal it. Place the white secrecy envelope inside the lavender return envelope.

**Sign it:** Read and **sign** the Voter Affidavit on the lavender envelope.

- The lavender envelope **must be signed by you** in order for your ballot to be counted.
- Your signature is matched with your voter record.

**Seal it:** Seal the envelope so the privacy flap covers your signature as indicated on the envelope.

**Mail it:** Affix a first-class postage stamp before you deposit your ballot in the mail, or take your ballot to one of the ballot-drop locations listed below.
