

Make Your Ballot Count

- Vote:** Use a pencil or dark ink pen to connect the arrow by your choice with one single dark line.
- Your ballot is read by a machine that counts the marks you make between the arrows on your ballot.
 - Marks that cover the arrows or marks outside the arrows delay the count of your ballot.
 - Remove and discard the top ballot stub at the perforated line after you are finished voting.
 - **If you make a Mistake:** Draw a line through the entire candidate's name or ballot measure response like this:

~~John Doe~~

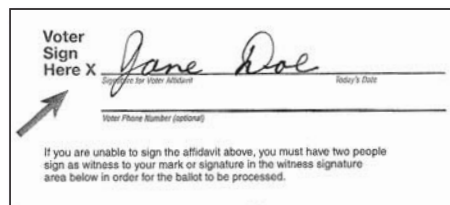

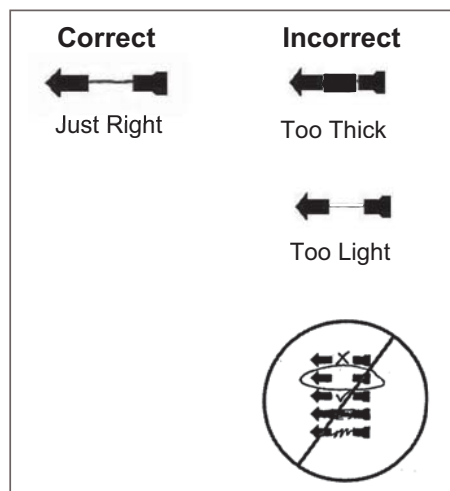

You then have the option of marking another choice if you wish.

- Secure:** Never sign or print your name on the face of the ballot. Your signature should appear only on the lavender envelope. Place the voted ballot in the white secrecy envelope and seal it. Place the white secrecy envelope inside the lavender return envelope.

- Sign:** Read and **sign** the Voter Affidavit on the lavender envelope.
- The lavender envelope **must be signed by you** in order for your ballot to be counted.
 - Your signature is matched with your voter record.

- Seal:** Seal the envelope so the privacy flap covers your signature as indicated on the envelope.

- Mail:** Affix a first-class postage stamp before you deposit your ballot in the mail or take your ballot to one of the ballot deposit locations listed below.
