Old Hansville Highway Neighborhood, Vacant
Point No Point/Hillview Neighborhood, Judy Roupe
Shorewoods Neighborhood, Vacant
South Hood Canal Drive Neighborhood, Jean Connolly
Thursday Breakfast Group, Gene Borgomainerio

Redling read the ground rules for GHAAC meetings.
Public comments:
- Dennis cziske, Kingston Ferry Advisory Committee Update. Dennis reported that the WSF system is considering changing the ratio of driver fare to car fare by reducing driver fare and increasing car fare to use Good2Go passes. Net effect of increased cost would be to push people onto public transportation as opposed to driving.

Guest Speakers:
- Representatives from Martha & Mary Corporation gave an extensive presentation of their work with Youth Services and of The Continuum of Care from Full Independence through Last Breath, including Fall Prevention.

Approval of Minutes of Last Meeting: Approved unanimously.

Community rep reports:
- Hansville Arts Guild. No holiday fair this year just a holiday Arts Guild Studio Tour on Friday and Saturday, Oct 26th & 27th. An original stained glass panel of the Point No Point Lighthouse will be auctioned off on October 28th at the Cup of Joy. The panel is hanging there now if you want to see it. Tickets are available at Cup of Joy and the Hansville Grocery.
- Heidi announced that the Dragonfly Nursery would be closed for the season in approximately one month.
- Cliffside residents have had their quality of life trashed again by inconsiderate imbeciles honking their horns at the speed tables. One is a white van and the other, a Mini Cooper, honks at the first speed table and holds it down all of the way through the last one. Incredibly irritating to the residents, who have gotten the license plate numbers of the two vehicles and turned them into the Sheriff’s office. Residents say they know who owns the Mini Cooper. No discernible action from authorities yet.
- Fred Nelson announced an opportunity to meet the candidates on October 5th at the Greater Hansville Community Center. Time to be posted later.
- Fred also announced that this year’s October Fest will be held on October 6th at the Greater Hansville Community Center. Time to be posted later.
- Students in various school clubs and those seeking extra credits in classes are looking for community projects in the local area in order to donate time. If you think you have a valid project please contact the new ‘Youth’ representative to GHAAC, Alexander Walker, at sailrx@gmail.com.
- Hansville Greenway still needs volunteers for trail maintenance. Van Bergen will coordinate with GHAAC Youth Rep Alexander Walker. All others welcome as well.
- Buck Lake Road area. Lots of recent Breaking and Entering type of robberies. One residence robbed four times in the last few weeks. Thieves cut locks with bolt cutters and push-in garage doors with vehicles to gain entry.
- Buildings at Norwegian Point Park have been power washed and painted. Gary Paulson thanked Fred and Jo Nelson and Connie Gordon for their hard work and organizational assistance. Also thanks to the many volunteers who contributed.
Response to public comments from last meeting: None.

Action Items

- Increased Air Traffic over Hansville. An article was recently published discussing this and the concern over increased aircraft noise in the Hansville area. Gary Paulson reported that the proposed change to a shorter, straight-in, descending approach to SeaTac as opposed to the present, longer, stepped approach should actually result in less noise than we experience now since engines are basically idling all the way down.

- Heacock reported that the Update of the Neighborhood Map project is an ongoing effort.

- Hansville Traffic Survey. The basic data is now complete and is posted on the website. It will be some time yet before there are any conclusions and recommendations determined from this data base.

- Community Preparedness. GHAAC members want to make a list of preparations within our own area so we all follow the same process. An example would be Driftwood Key, which would show their information for other neighborhoods to follow.

- November speaker will address the Sheriff’s Office’s crime mapping project.

Last call for Public Comments that were missed: None.

Announcements:

- Linda Redling announced that their farm is up for sale and they are moving, for family reasons, to the Marrowstone area as soon as it sells. Vice President Gene Borgomainerio will be assuming the presidency when she leaves.

Meeting Adjourned at 9:05 pm.

Next meeting: November 13, 2012, 6:30 pm, at Greater Hansville Community Center.

Respectfully Submitted,
John Remington, Secretary
