2009 Road Projects

WAAGA WAY EXTENSION

This project will construct a new roadway alignment from the SR 3/SR 303 interchange near Clear Creek Road to Old Frontier Road. The new roadway alignment will consist of: four 12-foot lanes, a 14-foot median, 5-foot bike lanes, 6-foot sidewalks separated by a 6 foot planter strip, and drainage facilities for stormwater quality and quantity treatment. Construction started in July 2008 and is anticipated to be complete by the end of 2009. This \$13 million project will help unleash the economic development portion of 450 acres added into the Silverdale UGA in 2006.

The Central Kitsap Community Council is leading a road naming effort for this project in recognition of it's significant impact to economic development in Silverdale.

BUCKLIN HILL AND TRACYTON BOULEVARD CHANNELIZATION

This project will add turn lanes at the intersection of Bucklin Hill Rd and Tracyton Blvd (a right turn-lane from eastbound Bucklin Hill Rd onto southbound Tracyton Blvd and a left turn-lane from northbound Tracyton Blvd onto westbound Bucklin Hill Rd); resurface Bucklin Hill Rd from Cranway Lane to the intersection with Tracyton Blvd; provide curb ramps at the intersection; and construct related storm water appurtenances for roadway run-off.

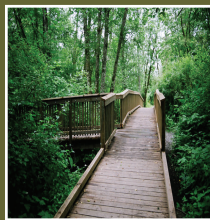

Construction bids were received on May 5, 2009. Work is anticipated to begin in mid-June and be complete at the end of October. Bucklin Hill will be limited to one-lane each direction during the duration of the project. All work will be suspended during the Kitsap County Fair and Stampede, August 26 through 30, 2009, with the roadway still limited to one-lane in each direction.

On April 29, 2009, PW open -line staff visited all businesses (from Myhre Road in the East to Silverdale Way in the West, from Bucklin Hill in the South to Ridgetop Blvd in the North) with info about the project.

ANDERSON HILL AND APEX ROAD CHANNELIZATION

This project will add a left turn-lane on Anderson Hill Rd onto Apex Road. Construction started on May 4, 2009 and is anticipated to be complete at the end of June 2009.

CHICO BRIDGE RECONSTRUCTION

This project replaces the bridge over Chico Creek on Chico Way that was lost in the December 2007 storm. Construction started on April 9th and is proceeding according to schedule. All piles have been driven and pile caps poured. The girders arrived on May 13. Work will proceed over the summer and is anticipated to be complete in October of 2009.
