             Seattle, WA 98109

After having considered the written information and testimony provided by both the appellant and county staff the Kitsap County Consolidated Board of Appeals finds that:

1. The county incorrectly applied the provisions of Kitsap County Code Section 14.04.780 requiring automatic fire sprinklers in buildings containing group B occupancies in excess of 10,000 square feet.

Based on these findings the board has reached a decision that:
