

DEDICATION

The Illahee Community Plan is dedicated to those who have preceded us on this piece of earth known as Illahee:

- The Suquamish and other Native Americans;
- The early settlers; and
- Those who respected the natural features of this land.

“The human spirit needs places where nature has not been rearranged by the hand of man.” ~Author Unknown

*To waste, to destroy our natural resources, to skin and exhaust the land instead of using it so as to increase its usefulness, will result in undermining in the days of our children the very prosperity which we ought by right to hand down to them amplified...
~Theodore Roosevelt*
