

Shoreline Designations

Keyport

Kitsap County, Washington

 Conservancy

The objective of the conservancy environment is to protect, conserve and manage existing natural resources and valuable historic and cultural areas. This designation ensures a continuous flow of recreational benefits to the public and achieves sustained resource utilization.

It will also protect fish and wildlife habitat and environmentally sensitive areas. A sub-environment has been designated for Conservancy areas, which are publicly owned and dedicated for use and enjoyment as a park, recreational site or open space.

 Semi-Rural

The intent of the semi-rural environment is to promote a multiple-use shoreline area in which the scale of uses fall between that of the rural and urban environments. Certain aspects of the natural environment will be retained in conjunction with permitted uses.

 Urban

The goal of the urban environment is to ensure optimum utilization of shorelines within urbanized areas. Such areas require management for intensive use and development to enhance and maintain a multiplicity of urban uses on the shorelines.
