

NATIVE PLANTS

WSU Master Gardeners “Gardening in Western Washington” guide. Excellent source for deciding what to plant in varying soils and conditions. Great pictures! (<http://gardening.wsu.edu/nwnative/>)

Stillwaters Environmental Education Center “Annual Native Plant Sale”. Along with a used book sale, Stillwaters offers a native plant sale in late September each year. (<http://stillwatersenvironmentalcenter.org/>)

King County “Native Plant Guide”. This online resource includes pictures, but you can also create your own plant list, create a landscaping plan, as well as read up on planting topics. (<http://dnr.metrokc.gov/wlr/PI/Go-Native/>)

Washington Native Plant Society “Washington Plants for Western Washington Gardens and Restoration Projects”. Plants are categorized by sunlight, flower color, different habitats, season, moisture, elevation, type of soil, and even wildlife preference. (<http://www.wnps.org/landscaping/herbarium/index.html>)
