

Broadband Taskforce

Collaboration Beyond Kit~Net

- What has evolved since 2005 and Emmettsburg, VA. Exercise
- Video Network
- GIS – Geographical Information System
 - ARC GIS/IMS/Info, CAD, Situs, Luca
- Disaster Recovery – Business Resumption

What Has Evolved

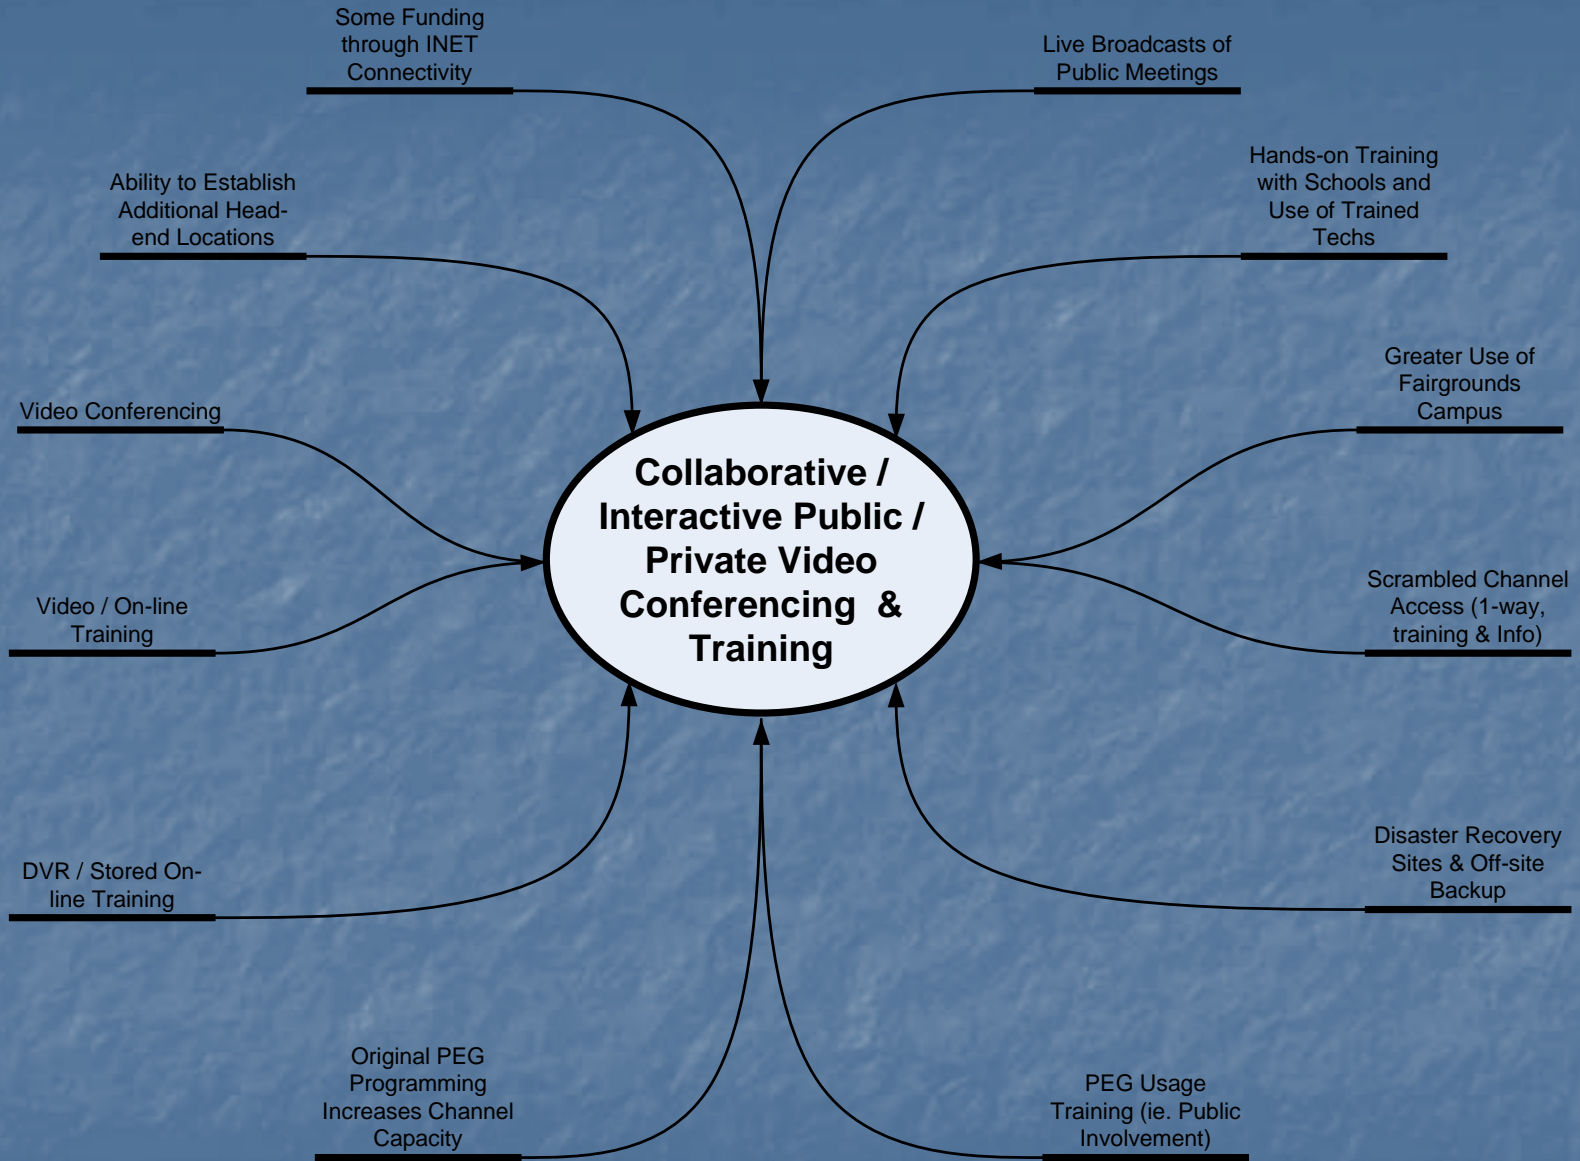

- Wave – KPUD Collaboration, County access to Broadband
- Broadband Committee becomes I/T “collaboration central”
- Tech-Fests evolve Kit~Net to reality
- Fire-DEM Purchase of Video Conferencing Equipment
- City-County Franchises increased options

Video Network

Key Items to be Aware Of

- I-Nets: County versus Cities
- Earthquake: communicate to safe gathering points, i.e., schools, libraries
- Pandemic: avoid gathering, communicate via BKAT, Head-End location Fairgrounds
- Video Conference: available today
 - Court Arraignment, Health District, others?
 - ?? Administration and cost distribution ??

GIS

- Regional Approach for Cost Savings
 - Share Specialized Expertise
 - Reduce Duplication of licenses, data
 - Reduce cost to maintain/update data
 - Becomes available to broader audience
- Reduces cost for Situs, Luca
 - Economy of Scale
- Public Safety - First Responder AVL

Disaster Recovery Business Resumption

- Disaster: Region/Full County Event
 - Redundant Fiber and/or Wireless Networks
 - CenCom, Govt. Center, Fairgrounds, Courthouse
- Business Resumption: One agency out of service
 - Shared "hot-site" backup
 - Shared recovery staff

Key Points

- Giant Jig-Saw Puzzle - Pieces coming together
- Continually under construction or re-model
- Broadband "Collaboration Central" is working
- What will be the "Share the Expense" model ??
