## ABOUT DELTACARE

The DeltaCare<sup>®</sup> plan offers you and your family an affordable choice for quality dental care. Washington Dental Service has contracted with a large, select network of dentists (both primary care and specialists) who have agreed to provide a full range of benefits and high-quality care.

## ACCESSING CARE

### How to use your DeltaCare plan

When you sign up for DeltaCare, you will complete an enrollment form indicating your primary dental office choice. After you have enrolled, you will receive a membership card that will have the address and telephone number of your DeltaCare dentist. To receive all necessary dental care, simply contact your assigned DeltaCare primary care dentist to make an appointment.

Your DeltaCare dentist is responsible for coordinating all specialty care. He/she will either perform the specialty treatment or refer you to a DeltaCare network specialist. In some cases, your dentist may refer you to a non-network specialist. The DeltaCare plan will not cover dental services that are not performed by your assigned DeltaCare office or properly referred to a DeltaCare specialist.

### Changing dentists

You may change DeltaCare dentists by contacting the Washington Dental Service DeltaCare client services team at (800) 650-1583 to request a change. The request must be made by the 20th of the month for you to be eligible by the first day of the following month with your newly chosen DeltaCare dentist.

### Finding a dentist

You can find a participating DeltaCare dentist in your area by visiting the Washington Dental Service Web site at [DeltaDentalWA.com](http://DeltaDentalWA.com). Click on the *Patients* tab and then on the *Find a Dentist* tab to begin your search. Be sure to select the DeltaCare plan and follow the prompts. Our DeltaCare client services representatives will assist you in the transfer, which will take effect the first day of the following month.

### Visiting non-DeltaCare dentists

You are responsible for any dental bills incurred from dental treatment received from non-DeltaCare dentists. Washington Dental Service will reimburse up to \$100 for out-of-area emergency care received from licensed dentists for procedures to alleviate pain.
