This form is for new businesses (or businesses that do not currently have an account) to report personal property as required by Washington State Law (RCW 84.40.020 and 84.40.040). Businesses are required to list all equipment used for business purposes which is under their ownership, possession or control as of January 1st each year.

We use the information reported as the basis for determining the assessed value of personal property applicable to your business. A Change of Value Notice will be sent, either by mail or email, showing the assessed value. This value will be the basis for taxes payable the following year.

Personal property is equipment used to operate a business. Equipment includes but is not limited to furniture, retail fixtures, machinery, tools, signs, software, computers, medical equipment, manufacturing equipment, restaurant equipment and appliances. The list must include a description, original year acquired and original cost less sales tax.

To establish an account for your business, complete the information below and select a filing method for your initial report. Email the completed form to personal-property@kitsap.gov. If you need assistance or have questions, contact our office Monday – Thursday 9:00 am – 4:00 pm, Friday 9:00 am – 12:00 pm
