SECTION A. SUMMARY OF PROJECT

1. **Background:**

In 1981, Kitsap County Division of Aging and Long Term Care was designated as the local Area Agency on Aging (AAA). AAA's are responsible to plan, coordinate and advocate for the development of a comprehensive service delivery system that includes a variety of services to meet the needs of older persons and individuals with disabilities.

- The Division is under the authority of the Human Services Department.

The intent of the request for proposals is to identify a qualified subcontractor to provide support and information to better understand a disruptive behavior associated with dementia, discuss strategies and refer to resources in order to maintain a placement. This may be a caregiver, hospital or nursing/residential facility –based staff. The subcontractor will be expected to provide two community-based informational presentations in the contract year.

2. **Goal:**

The goal is to provide home-based consultation and educational services to informal and formal support (caregivers, facility staff, systems, etc.) in dealing with challenging behaviors related to dementia neurocognitive disorders. This subcontracted position is available to individuals (regardless of their funding resources) with challenging and disruptive behaviors associated with dementia and their caregivers, as well as skilled nursing home and assisted living staff for enhanced training.

The consultant would provide individualized consultation, training to facility staff, co-facilitate community educational workshops, connect families to existing community resources (collective impact), as well as provide expertise to existing ancillary agencies through a collective impact model.

This innovative approach targets maintaining current placement, increasing connections to existing community resources, decreasing emergency room use, decreasing hospital admissions and length of stays, as well as preserves formal and informal long-term services and systems.

Subcontracting for services includes procuring a service provider, entering into a contractual relationship, receiving invoices and reimbursing for service delivery, assessing the quality of the service provider's agency and fiscal management, as well as the quality and efficacy of the services provided.

3. **Minimum Qualifications:**

Local governments, for-profit and non-profit agencies, and individuals that can serve Kitsap County are eligible to apply.

Minimum Qualifications are:

1. An individual or entity experienced in providing direct and consultation services to individuals (and their formal and informal supports) exhibiting disruptive and challenging behaviors associated with dementia.
 - Direct service staff are required to meet Washington State mental health professional credential and geriatric mental health specialists credential (WAC 388-865-0238); preferred licensed registered nurse.
 - At a minimum 5 year experience in working with individuals exhibiting disruptive behaviors or behaviors that jeopardize placement due to dementia or other related neurocognitive disorders.
 - Required to maintain a valid Washington State Driver's license in good standing, reliable and insured transportation.
 - Ability to make on-site visits to homes and facilities throughout Kitsap County;
 - Pass a criminal background check and driving record review;
2. Applicant must have capacity for accurate tracking of contract-related activities, and reporting of demographics, outcomes, expenditures, number of events, and individuals served.
3. Applicant must meet additional Kitsap County contract requirements, reference Exhibit A Sample Contract.

Responders who do not meet these minimum qualifications or fail to submit a Letter of Intent shall be deemed unresponsive, will not be evaluated and no score will be assigned.

4. Scope:

The subcontractor must be able to provide outreach and education about the new program to partner organizations and to the general public through presentations.

The subcontractor must provide consultation to individuals and community based social service agencies. The goal is ten individual consultations per month. Referrals may come from the Division of Aging and Long Term care staff or the general public.

The subcontractor must provide consultation to hospital and facility-based staff with the goal to preserve placement and support discharge planning. The facility-based agencies include the ten skilled nursing facilities, twenty-three assisted living and various adult family homes throughout Kitsap County. The goal is ten facility consultations or staff trainings per month. Referrals may come from the Division of Aging and Long Term care staff or the general public.

Prior to delivering consultation services, the subcontractor will conduct a brief screening to ensure the referral/requested services meet intent of the program.

Demographics, services provided and outcomes will be collected and reported monthly.

A brief satisfaction survey will be developed and utilized for a random sample.

5. Letter of Intent:

In order to be an applicant for this Request for Proposals, the applicant must submit a Letter of Intent no later than January 31, 2018 stating the intention to submit a proposal in response to this Request for Proposals. The Letter of Intent must include a summary of the applicant’s qualifications and experience in providing the types of services outlined in the scope for this Request for Proposal.

- C. The Contractor will furnish the County with evidence that the additional-insured provision required above has been met. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured, or a letter of self insurance from a public entity risk pool which waives the requirement.

- E. The Contractor will request that the Washington State Department of Labor and Industries, Workers Compensation Representative, send verification to the County that the Contractor is currently paying workers' compensation.

No costs incurred after the effective date of termination will be paid.
- 8.3 If the Contractor breaches any of its obligations under the Contract, and fails to cure the breach within 10 days of written notice to do so by the County, the County may terminate the Contract. In that event, the County will pay the Contractor only for the costs of services accepted by the County. Upon such termination, the County, at its discretion, may obtain performance of the work elsewhere, and the Contractor will bear all costs and expenses incurred by the County in completing the work and all damages sustained by the County by reason of the Contractor's breach.

ATTACHMENT B: STATEMENT OF WORK

Project Description

This project will provide behavioral health services within the Recovery Support level of the continuum of care and addresses the following strategic goals:

- Improve the health status and wellbeing of Kitsap County residents.
- Reduce the number of people in Kitsap County who use costly interventions including hospitals, emergency rooms, and crisis services.

This project will provide resources to 1,664 Kitsap residents to address challenging behaviors that could jeopardize a placement associated with aging and mild to major neurocognitive disorders, referred as the "dementia spectrum".

I. Project Activities

This project provides a three-pronged approach to bring new dementia-friendly supports to our community, regardless of an individual's ability to pay or funding source.

Activity #1: Add a consultant service through a professional service subcontract to provide 1:1 home and facility -based consultation and educational services to informal and formal support (caregivers, facility staff, systems, etc.) in dealing with challenging behaviors related to neurocognitive disorders. This subcontracted position is available to individuals (regardless of their funding resources) with challenging behaviors associated with a neurocognitive disorder and their caregivers, as well as skilled nursing home and assisted living staff for enhanced training, regardless of their insurance or ability to pay.

The consultant will provide information to better understand concerning behavior(s), discuss strategies, refer to current resources and provide support in order to maintain a placement. The consultant would provide individualized consultation, training to caregivers and facility staff, co-facilitate community educational workshops, connect families to existing community resources (collective impact), as well as provide expertise to existing ancillary agencies through a collective impact model. This innovative approach targets maintaining current placement, increasing connections to existing community resources, decreasing emergency room use, decreasing hospital

admissions and length of stays, as well as preserves formal and informal long-term services and systems.

II. Project Outcomes and Measurements

Kitsap County Division of Aging and Long Term Care will participate in the Evaluation Plan for Treatment Sales Tax Programs. Programs or services implemented under the Treatment Sales Tax are monitored by the Citizens Advisory Committee. Aging and Long Term Care will have an evaluation plan with performance measures developed in partnership with Kitsap Public Health District Epidemiologist. The emphasis will be on capturing data at regular intervals that can be used to determine whether Treatment Sales Tax funded programs met expectations. Some common measures will be identified that will be reported on. Evaluation efforts must include standardized data collection and reporting processes that produce the following types of information:

- Quantity of services (outputs)
- Level of change occurring among participants (outcomes)
- Return-on-investment or cost-benefit (system savings) if evidence-based
- Adherence to the model (fidelity)
- Common measures (to be identified by the Citizens Advisory Committee and Kitsap Public Health District staff that all programs must report on)

Data will be collected to monitor the following goals and objectives for this project as outlined in the grant proposal and identified by the Contractor:

Goal #1: Maintain current placement of individuals diagnosed with neurocognitive Disorders and exhibiting challenging behaviors.

Objective #1: Provide up to ten (10) consultations to individuals at home and up to 10 consultations to facility staff a month.

Goal #2: Consultant: Decrease hospital Emergency Department use.

Objective #2: As part of the documentation with each consultation, provide disposition information. Inquire if Emergency Department usage was avoided (self-report).

Goal #5: Clients are satisfied with the services received through Consultation and training.

Objective #6: Clients report a moderate to high satisfaction with services received as measured by the client satisfaction survey.

q. **ATTACHMENT C: BUDGET SUMMARY**

If the cost of the project exceeds the projected quarterly expenditures as per Attachment C: Budget the Contractor shall take action to reduce such excess cost in a manner mutually agreed upon by County and Contractor.

ALLOWABLE COSTS
