**Based on Addendum 2 – Q&A item 8:** Removing the high-bay lighting from scope, does that also mean the replacement of the conduit and circuits serving this lighting, or is it expected that all the demo of conduit be performed and wired to the existing inside high-bay lighting?

The conduit serving these lights will still need to be replaced, as it is all on the roof and deteriorating.

Will an alternate to the suggested Viugreum fixture be allowed?

Yes, provided it is of equal or better spec.
