Proposal Summary

KITSAP COUNTY MENTAL HEALTH, CHEMICAL DEPENDENCY AND THERAPEUTIC COURT PROGRAMS 2020 CONTINUATION GRANT REQUEST FOR PROPOSALS (RFP) SUMMARY

Treatment Sales Tax (TST)

The Kitsap County Department of Human Services (KCDHS) is requesting Continuation Grant Proposals for moneys collected under RCW 82.14.460. Continuation Grant Proposals are proposals from current grantees whose projects were funded during the 2019 Grant Cycle to request one additional budget period of funding for a project period that would otherwise expire. Proposals "must be used solely for the purpose of providing for the operation or delivery of chemical dependency or mental health treatment programs and services and for the operation or delivery of therapeutic court programs and services. Programs and services includes, but is not limited to, treatment services, case management, transportation, and housing that are a component of a coordinated chemical dependency or mental health treatment program or service." Approximately \$6,000,000 will be awarded for projects or program services delivered between January 1, 2020 and December 31, 2020. Proposal Deadline: July 24, 2019 at 3:00 p.m.

Eligibility Requirements: All Continuation Grant Applicants must attend a Mandatory Continuation Grant Proposer's Conference and submit a letter of intent on line to be eligible to apply for the 2020 TST funding. The "Continuation Grant Proposal Letter of Intent" will be made available at the Continuation Grant Proposer's Mandatory Conference to be held on May 15, 2019 from 2:30 p.m. – 4:00 p.m. at Givens Community Center in the Olympic Room, 1026 Sidney Avenue, Port Orchard, WA. The "Continuation Grant Proposal Letter of Intent" is due May 31, 2019 at 3:00 p.m.

Proposal Summary

Background: In 2005, Washington State approved legislation allowing counties to raise their local sales tax by one-tenth of one percent to augment state funding of mental health and chemical dependency programs and services. In September 2013, the Kitsap County Board of Commissioners (BOCC) passed a resolution authorizing a sales and use tax for Mental Health, Chemical Dependency and Therapeutic Court Programs. This sales and use tax shall be known as "Treatment Sales Tax" or TST. The BOCC has the decision-making authority for funding decisions, the KCDHS serves as the fund manager, and the Citizens Advisory Committee (CAC) has the recommending authority.

Scope of Work: Proposals for TST funding must improve the continuum of care including prevention, crisis intervention, treatment and recovery support services identified in the 2014 Kitsap County Behavioral Health Strategic Plan and 2017 Strategic Plan Review. The Strategic Plan and Review can be found at https://spf.kitsapgov.com/hs/Pages/CAC-REPORTS-INFORMATION-PLANS.aspx.

Access the RFP at https://spf.kitsapgov.com/das/Pages/Online-Bids.aspx or by contacting Colby Wattling at: Kitsap County Purchasing Department, 614 Division Street MS-7, Port Orchard, Washington 98366, Phone: 360.337.7036, Fax 360.337.4638, Email: cwattling@co.kitsap.wa.us. The Kitsap County Human Services Department reserves the right to make unilateral modifications to this RFP to address changes on the state and/or local level. 6 Strategic Policy Goals from Board of County Commissioners

VI. Purpose and Scope of Project

Kitsap County seeks to assure that citizens and policy makers spend the funds collected in an accountable and transparent manner, with community input and support, and with measures to determine the effectiveness of these publicly-funded investments. The County will require appropriate oversight, accountability, and status and progress reports for programs supported with the TST. Each funded project or program will be evaluated according to performance measures for outcomes and cost effectiveness.

1. Policy Goals

Programs shall achieve the following policy goals:

- Increase the number of stable housing options for chemically dependent and mentally ill residents of Kitsap County.
- Reduce the number of people in Kitsap County who use costly interventions including hospitals, emergency rooms, and crisis services.
- Reduce the number of people in Kitsap County who recycle through the criminal justice systems, including jails and prisons.
- Reduce the number of chemically dependent and mentally ill youth and adults from initial or further criminal justice system involvement.
- Reduce the incidence and severity of chemical dependency and/or mental health disorders in adults and youth.
- Improve the health status and wellbeing of Kitsap County residents.

Evaluation WASHINGTON

All funded organizations must participate in the Evaluation Plan for TST Programs. Programs or services implemented under the TST are monitored by the Citizens Advisory Committee. Grantees will have an evaluation plan with performance measures developed for each funded proposal. This plan is developed in partnership with Kitsap Public Health District staff. The emphasis will be on capturing data at regular intervals that can be used to determine whether TST funded programs met expectations. Some common measures will be identified that programs will need to report. Evaluation efforts must include standardized data collection and reporting processes that produce the following types of information:

- Quantity of services (outputs) *required*
- Level of change occurring among participants (outcomes) *required*
- Return-on-investment or cost-benefit (system savings) *strongly encouraged*
- Adherence to the model (fidelity) *required if applicable*
- Common measures (to be identified by the Citizens Advisory Committee and Kitsap Public Health District staff that all programs must report)
 required if applicable

Evidence-Based Practice

The Citizens Advisory Committee (CAC) is committed to supporting programs and organizations who use Evidence-Based Programs (EBP) that have been accepted as a best practice in the field of mental health, chemical dependency and therapeutic courts and demonstrate fidelity to evidence-based standards. Promising Programs and Best Practice Programs include services, strategies, activities, or approaches that have some scientific research or data showing positive outcomes in delaying an untoward outcome, but do not have enough evidence to support generalizable conclusions. Innovative Programs introduce new ideas, methods and concepts that have not yet been researched. Promising, Best Practice and Innovative Programs will be considered for funding, but must include a robust evaluation process. Preference will be given to evidencebased programs that maintain fidelity.

EVALUATION WORKSHEET

INSTRUCTIONS:

Evaluation is the collection of information about a program in a systematic and defined manner to demonstrate success, identify areas for improvement and lessons learned. Every program has at least one end goal and might have several — one or more activities are required to make progress toward meeting the goal. Progress is measured with one or more objectives that might cover an output (number of something) or outcome (change over time) due to the program. The type of outcome (column D) and expected timeframe for change (column E) should be defined. Objectives must follow the "SMART" guideline: specific, measurable, attainable, realistic, and time-bound (column C). Each objective should include an expected target result and completion date ("time-bound" part of column C).

New and continuing grant proposals must fill out the Evaluation Worksheet.

DEFINITIONS:

| Goal: | A broad statement or a desired, longer-term, outcome of a program. A program can |
|------------|---|
| | have one or multiple goals. Each goal has a one or more related specific objectives |
| | that, if met, will collectively achieve the stated goal. |
| Activity: | Actions taken or work performed to produce specific outputs and outcomes. |
| Objective: | A statement of a desired program result that meets the criteria of being SMART (specific, measurable, achievable, realistic, and time-bound). |
| Output: | Results of program activities; the direct products or deliverables of program activities; such as number of: sessions completed, people served, materials distributed. |
| Outcome: | Effect of a program (change) - can be in: participant satisfaction; knowledge, attitude, skill; practice or behavior; overall problem; or a measure of return-on-investment or cost-benefit. Identify any measures that are "fidelity" measures for an evidence based practice. |
| Timeline: | Is the outcome expected to measure short-term, medium-term or a longer-term change? When will measurement begin? How often will measurement be done (frequency: quarterly, semi-annual, annual, other)? |
| Baseline: | The status of services or outcome-related measures before an intervention against which progress can be assessed or comparisons made. Should include data and time frame. |
