In response to questions received, the following information is provided to assist in responding to the above referenced proposal.

QUESTIONS AND RESPONSES

1. Question: Due to what is currently being manufactured in the paper industry, what paper specifications are required?

Answer: It appears the 30% recycled content may not be possible to obtain for 70# gloss-coated paper. Please disregard the minimum recycle content percentage. However, it is the county's desire the awarding vendor is able include some level of recyclable content in their paper product.
