Geologically Hazardous Areas

- **High**
  - Areas of high geologic risk described in the National Geologic Hazard Assessment Program (NGHAP) by the United States Geological Survey (USGS) and supported by the Washington State Coastal Shoreline Program.
  - Includes areas of high geologic risk that are not also designated as high risk in the Federal Emergency Management Agency (FEMA) Flood Hazard Areas.

- **Moderate**
  - Areas of moderate geologic risk described in the NGHAP by the USGS and supported by the Washington State Coastal Shoreline Program.

Potential Wetlands

- **Hydric Soil**
  - Areas in the FEMA Flood Hazard Areas with hydric soils that have a more than 50% chance of being inundated by flooding.

- **Unincorporated Urban Growth Area**
  - Areas that are not within the boundaries of an incorporated city.

- **Tax Parcels**
  - Full Ownership
  - Salt Water Tiblands

Street Center Lines

- **State Highway**
- **Major Road**
- **Collector / Arterial**
- **Railroad Lines**
- **Ferry Routes**
- **Ferry Terminals**

Waterbodies

- **Bay, estuary, Puget Sound**
- **Lake, Pond, Reservoir, Gravel pit or quarry filled with water**

Watercourses

- **Fish Habitat River Type Code**
  - (G) Stream of the State
  - (F) Fish habitat
  - (H) Non-Fish habitat
  - (L) Lakes, unclassified hydrographic features

This map was created from existing map sources, and the field locates the delineation of risk for use by Washington State Coastal Shoreline Program.
