

KITSAP

Helping one beach at a time

Did you know: that it is easy participate in the Shore Friendly Kitsap program?

We hope you have seen the recent fact sheets that Shore Friendly Kitsap has been sending out and found them useful!

Our goal at Shore Friendly Kitsap, is to give you the tools to take charge of your own shoreline restoration project.

How does the Shore Friendly Program work? See the steps of the process below to begin!

Step 1: Pick up the phone

- Call **Shore Friendly Kitsap** 360-337-5777 to chat about your beach and the potential for bulkhead removal & shoreline restoration.

Step 2: Schedule a *free site visit*

- A Shore Friendly staff will come out to your property and do a general assessment.

Step 3: Eligible for a reimbursable \$ *mini-grant*?

- If you need financial resources the program can assist! The Shore Friendly program assesses project feasibility and eligibility for a mini-grant (up to \$5000).

Step 4: Sign up for *mini-grant*

- Mini-grants are administered through contracts for eligible reimbursable items.

Step 5: Get a professional *geotechnical assessment*

- This assessment will determine feasibility with respect to geological and coastal conditions; It will give removal or soft-shore design recommendations.

Step 6: Schedule a *site consultation*

- Schedule a site consultation to discuss permit needs and requirements.

Step 7: Apply for permits

- Apply for permits with local, state, and sometimes federal agencies (Financial assistance if available).

Step 8: Hire contractor and build!

- Begin your project once permits are received.
