

KITSAP COUNTY

Washington

East Kitsap

Nearshore Inventory

Overhanging Structures

During the Summer and early Fall of 2007, Kitsap County field crews inventoried the Eastern saltwater shoreline and collected a variety of information concerning environmental stressors and conditions.

One of the features inventoried were Overhanging Structures (located at or below Ordinary High Water). 288 overhanging structures were inventoried, equating an average of 1.98 per mile. Decks accounted for a little over half of these structures, at 58%. Houses, some including the decks as well, were the next largest category at 25%. Other buildings (non-residential) accounted for 14%, and boat hoists amounted to 3% of the total number inventoried.

This map was created from existing map sources, as well as field inventories of certain shoreline features. Determination of fitness for use lies with the user, as does the responsibility for understanding the accuracy and limitations of this data. While great care was taken in using the most current map sources available, there is no guarantee or warranty to its accuracy as to labeling, placement or location of any geographic features present within this data. These data are intended for informational purposes only, and should not be considered authoritative for engineering, navigational, surveying, and other site-specific uses. Kitsap County assumes no legal liability arising from the use of this data in a manner not consistent with the original intent. In no event shall Kitsap County be liable for damages of any kind, including loss of anticipated benefits arising from the use of this data.

THIS MAP IS NOT A SUBSTITUTE FOR FIELD SURVEY

Data Sources:
 Hydrology data from WA State Dept. of Natural Resources (10/2007)
 Transportation information from Kitsap and surrounding counties
 Digital Elevation Model created from a variety of sources
 by David Fitzoyes, School of Oceanography, University of Washington

Please support public access to publicly funded data so that projects like this can be made possible.
