Peer Bridger Program

1. Peer Bridger Program Overview

The Peer Bridger Program is intended to serve those who are currently at Western State Hospital (WSH), Eastern State Hospital (ESH) or community hospitals with inpatient mental health beds, and have had a lengthy hospitalization or a history of frequent, multiple hospitalizations. Participation in the program is voluntary. The Peer Bridgers will attempt to engage individuals in planning their discharge. Hospital staff and the BHO/IMC/BH-ASO Hospital Liaisons will help the Peer Bridgers identify potential participants.

The Peer Bridger will transition from spending time on social support and begin offering assistance with independent living skills, coping skills and community adjustment skills. The hand-off between the Peer Bridger and the community behavioral health provider who is providing mental health services will be gradual and based on the participant’s needs and their person-centered plan. The anticipated duration of in-community Peer Bridger services is one hundred twenty days with extensions granted by the BH-ASO on a case-by-case basis.

The Peer Bridger is not a case manager, discharge planner or a crisis worker. However, the Peer Bridger can bring the participant’s perspective into the provision of those services.

2. The Contractor shall develop and implement the Peer Bridger program in collaboration with the MCOs in the region. Services shall be delivered equitably to Individuals assigned to the MCOs and the Contractor.

3. The Contractor shall ensure that the Peer Bridger is allowed to attend treatment activities with the Individual during the one hundred twenty (120) day period following discharge if requested by the Individual. Examples of activities include but are not limited to: intake evaluations, prescriber appointments, treatment planning, etc.

4. Peer Bridger Program Duties

   a. The Peer Bridger will work with six to twelve (6-12) program participants. Prior to hospital discharge the majority of the work will be inside the state hospitals. Post-discharge activities will be in the community. Peer Bridgers shall routinely engage and interact with potential program participants.

      1) The Contractor shall contract with an agency licensed as a Community Behavioral Agency by DOH to provide recovery support services.

      2) After being recruited, and prior to beginning hospital related activities, the Peer Bridger or Peer Bridger team will:

         a) Participate in statewide Peer Bridger Orientation and training.
         b) Participate in a 32-hour orientation at WSH or ESH.
         c) Participate in ESH or WSH Specialized Orientation.
b. The Peer Bridger shall work directly with participants and potential participants at least two
   days per week. After discharge, the time spent between the community and the state hospital
   shall be adjusted to respond to participants in the hospital and participants in the community.
In conjunction with the BHO/FIMC/BH-ASO Hospital Liaisons and State Hospital Peer Bridger Liaison (identified during orientation), the Peer Bridger will work to engage potential participants. The potential participants may:

1) Have been on the hospital “ready to discharge list” for more than one year;
2) Be individuals with multiple state hospitalizations or involuntary hospitalizations;
3) Be individuals with hospital stays of over one year;
4) Be individuals whom hospital staff and/or the Hospital Liaison have been unable to engage in their own discharge planning.
5) Be individuals who require additional assistance to discharge and/or need support in the community.

c. Examples of Peer Bridger engagement activities may include:

1) Interacting with potential participants.
2) Developing a trusting relationship with participants.
3) Promoting a sense of self-direction and self-advocacy.
4) Sharing their experiences in recovery.
5) Helping motivate through sharing the strengths and challenges of their own illness.
6) Considering the participants’ medical issues and helping plan wellness habits they can pursue.
7) Helping the participant plan how they will successfully manage their life in the community.
8) Educating participants about resources in their home community.
9) Join with the participant (when possible) in treatment team meetings. Help to convey the participant’s perspectives and assist the participant with understanding the process.

d. The Peer Bridger shall support the participant in discharge planning to include the following:

1) Function as a member of the participant’s hospital discharge team if asked.
2) Identify participant-perceived barriers to discharge, assist the participant with working through barriers and assure the participant that they will be supported throughout the process.

3) Facilitating transportation for the participant to travel back to his or her community.

4) The Peer Bridgers shall conduct routine weekly hospital-based engagement groups for any individual willing to participate.

5. Peer Bridger team duties

a. Participate in monthly statewide Peer Bridger Program administrative support conference calls.

b. Participate in biannual Peer Bridger Training events scheduled by HCA.

c. Ensure that Peer Bridgers Complete Tracking logs on a monthly basis and submit logs to HCA via secured email.

d. Coordinate and communicate Peer Bridger team schedules for participation at the hospital with designated hospital Peer Bridger coordinator.

6. Community-based post-discharge activities will include:

a. The frequency and duration of community based Peer Bridger services will be determined by the participant’s needs, the service level required to help the individual stay safely in the community and caseload prioritization. Peer Bridger services will be decreased when the participant is receiving behavioral health treatment and peer services from a behavioral health agency or when the participant no longer wants the Peer Bridger’s support. The Peer Bridger shall facilitate a “warm hand-off” to the behavioral health agency chosen by the participant. Activities the warm hand-off could include are:

1) Being present and supportive during the participant’s first appointment and during the intake evaluation, primary provider or prescriber appointments, etc.

2) Helping the participant complete any necessary paperwork for receiving BH services.

3) Participating in developing the treatment plan and treatment activities if requested by the participant.

b. The Peer Bridger shall assist the participant in developing a crisis plan with the participant’s behavioral health service agency. The Peer Bridger may be identified as a non-crisis resource in the plan.

c. The Peer Bridger shall:

1) Attempt to connect the participant with natural support resources and the local recovery community and attend meetings as allowed.
2) Help the participant develop skills to facilitate trust-based relationships, develop strategies for maintaining wellness and develop skills to support relationships.

3) Assist the participant in developing a life structure, including skills for daily living such as visits to coffee shops, use of local transportation, opening a bank account, work effectively with a payee if needed, understand benefits, budget planning, shopping and meal preparation, access leisure activities, find a church or faith home, attain and maintain housing, etc.

4) Help the participant develop skills to schedule, track and attend appointments with providers.

5) Help the participant develop skills for self-advocacy so that the participant can better define his or her treatment plan and communicate clearly with professionals such as psychiatric prescribers, primary care doctors, etc. The Peer Bridger should also help participants prepare for appointments and identify questions or comments the participant might have for the provider.

6) Explore supported employment that addresses the following:
   a) Employment goals and how they relate to recovery.
   b) The availability of additional training and education to help the participant become employable.
   c) The array of employment programs and supported employment opportunities available within the region.

Exhibit I – RSA MHBG Project Plan

Introduction
Washington State provides Combined Federal Block Grant service through BH-ASO and BHOs. Contracts with BH-ASOs and BHOs support flexibility to meet the needs of populations based on local planning efforts and goals as identified in this Project Plan. The goal of the MHBG Project Plan is to ensure effective services are provided across populations with measurable outcomes.

This Plan is for July 1, 2019 – June 30, 2020. All Mental Health Block Grant funds contractually allocated for services provided, but not expended for services actually provided by June 30, 2019, may not be used or carried forward.

Please complete both sections (Section 1- Proposed Plan Narratives and Section 2 – Proposed Project Summaries and Expenditures) in this document and submit electronically to HCA for approval prior to submitting your first A-19 invoice. Contact the person identified above if there are any questions.

DO NOT MODIFY OR DELETE ANY PARTS OF THIS TEMPLATE.

Instructions:
• Provide a detailed description for each anticipated range of services. There is no word limit. Each cell will automatically expand.
• Only complete Categories/Subcategories that align with local plans. There is no requirement to provide services in each Category.
• Insert Planned Expenditure Amounts for each category under the column heading “Proposed Total Expenditure Amount.” The Grand Total at bottom of that column must equal total MHBG Allocation.
• Insert the number of Adults with SMI** and Children with SED** projected to be served.
• “Outcomes and Performance Indicators” – Provide planned outcomes that are measurable and define what indicators will be used to support progress towards outcomes.

**SMI/SED Definitions - For MHBG planning and reporting, SAMHSA has clarified the definitions of SED and SMI: Children with SED refers to persons from birth to age 18 and adults with SMI refers to persons age 18 and over: (1) who currently meets or at any time during the past year has met criteria for a mental disorder – including within developmental and cultural contexts – as specified within a recognized diagnostic classification system (e.g. most recent editions of DSM, ICD, etc.), and (2) who displays functional impairment, as determined by a standardized measure, which impedes progress towards recovery and substantially interferes with or limits the person’s role or functioning in family, school, employment, relationships, or community activities.

**Exhibit J - RSA SABG Project Plan**

**Introduction**
Washington State’s Substance Use Disorder strategies to further the goals of the Combined Federal Block Grant will rely on service delivery through BH-ASOs and BHOs. Contracts with BH-ASOs and BHOs continue to support flexibility to meet the needs of populations based on local planning efforts and goals as identified in this Project Plan. Our collective overarching “Goal” is to ensure effective services are provided across populations with measurable outcomes and performance indicators.

**This Plan is for July 1, 2019 – June 30, 2020.** All Substance Abuse Block Grant funds contractually allocated for services provided, but not expended for services actually provided by June 30, 2018, may not be used or carried forward.

Please complete both sections (Section 1- Proposed Plan Narratives and Section 2 – Proposed Project Summaries and Expenditures) in this document and submit electronically to HCA for approval prior to submitting your first A-19 invoice. Contact the Person identified below if there are any questions.

**DO NOT MODIFY OR DELETE ANY PARTS OF THIS TEMPLATE.**

Instructions:
- Provide a detailed description for each anticipated range of services. There is no word limit. Each cell will automatically expand.
- Only complete Categories/Subcategories that align with local plans. There is no requirement to provide services in each Category.
- Insert Planned Expenditure Amounts for each category under column heading “Proposed Expenditure Amount.” The “Grand Total” at bottom of that column must equal total contract amount. The “Grand Total” will automatically calculate off of the amounts entered into each “Proposed Total Expenditure Amount” text box.
- Federal Requirement – A minimum of 10% of funding must be expended to maintain, develop or enhance services for Pregnant, Postpartum Women and Women with Dependent Children (PPW). Provide the number of PPW expected to be served.
- “Outcomes and Performance Indicators” – Provide planned outcomes that are measurable and define what indicators will be used to support progress towards outcomes.
- Tab or use your curser to enter into each text box.
- Use your curser to enter amounts into “Proposed Total Expenditure Amount.” You do not need to enter a “$” – it will automatically add the symbol when you move to the next text box.

Exhibit K  
RSA Spenddown

**Overview**
Spenddown for qualifying medical expenses (voluntary and involuntary inpatient, crisis stabilization and crisis residential stays) with State Funds for incurred costs. HCA designates and approves the Contractor as a public program as described in WAC 182-519-0110(9). Qualified expenses paid by the Contractor shall be used to reduce an individual's spenddown liability.

**Procedure**
Individuals must meet financial eligibility, must incur medical expenses in the amount of spenddown liability determined by DSHS staff before coverage is made active in Provider One, and must not have insurance coverage for services used to meet the spenddown liability. DSHS staff enter medical expenses into ACES when documentation for them is received. Once the expenses equal or exceed the spenddown amount, ACES sends notice to Provider One to open the eligibility segment for the appropriate base period.

Dear Ms. Ott:

Enclosed is a copy of the signed Data Use Agreement (DUA) and the Information Exchange Agreement that the Centers for Medicare & Medicaid Services (CMS) have entered into with your organization for the CMS/Federal Coordinated Health Care Office (Medicare-Medicaid Coordination Office) program entitled, “Part D - Care Coordination for Beneficiaries Who are Dually Eligible in the Medicare/Medicaid Programs.” Please refer to DUA number 21628 when addressing inquiries of any nature concerning this agreement.

I have also enclosed the CMS DUA Guidelines which outlines your responsibilities in terms of safeguarding the confidentiality of CMS data. This approval is based on the understanding that personnel within your organization and any subcontracting organization’s personnel will comply with all requirements of this Agreement into which you have entered. It is your responsibility to provide a copy of this agreement and CMS DUA Guidelines to the individuals listed below for your organization and/or any subcontracting organization. Please emphasize the importance of complying with this agreement. Note that this approval only applies to this request for the study mentioned above. Any additional purpose will have to be reviewed and approved by CMS.

Please note that any organization requesting CMS data that has an EXPIRED CMS DUA will not receive authorization to obtain any new data until their expired DUA has been resolved. The retention date stipulates the timeframe in which the information can be used. If your DUA is about to expire, and your project is still in need of the CMS data, you will need to request an extension date on the DUA. However, if your study is complete and the data is no longer required, you must contact CMS and request that the DUA be closed by providing written certification that you have destroyed the CMS data. More information regarding the resolution of expired DUAs can be found at the following CMS website: www.cms.hhs.gov/PrivProtectedData/ under “DUA Extensions or Destruction of CMS Data.”
If you have any questions about this DUA or the use of the CMS data, you may contact me at (410) 786-7185. If you have questions regarding the Care Coordination Program, please contact Karyn Anderson, Part D Care Coordination program official, at (410) 786-6696.

The User agrees not to disclose, use or reuse the data covered by this agreement except as specified in an Attachment to this Agreement or except as CMS shall authorize in writing or as otherwise required by law, sell, rent, lease, loan, or otherwise grant access to the data covered by this Agreement. The User affirms that the requested data is the minimum necessary to achieve the purposes stated in this section. The User agrees that, within the User organization and the organizations of its agents, access to the data covered by this Agreement shall be limited to the minimum amount of data and minimum number of individuals necessary to achieve the purpose stated in this section (i.e., individual’s access to the data will be on a need-to-know basis).

6. The parties mutually agree that the aforesaid file(s) (and/or any derivative file(s)), including those files that directly identify individuals or that directly identify bidding firms and/or such firms' proprietary, confidential or specific bidding information, and those files that can be used in concert with other information to identify individuals, may be retained by the User until __3/31/2016__, hereinafter known as the “Retention Date.” The User agrees to notify CMS within 30 days of the completion of the purpose specified in section 4 if the purpose is completed before the aforementioned retention date. Upon such notice or retention date, whichever occurs sooner, the User agrees to destroy such data. The User agrees to destroy and send written certification of the destruction of the files to CMS within 30 days. The User agrees not to retain CMS files or any parts thereof, after the aforementioned file(s) are destroyed unless the appropriate Systems Manager or the person designated in section 20 of this Agreement grants written authorization. The User acknowledges that the date is not contingent upon action by CMS.

The Agreement may be terminated by either party at any time for any reason upon 30 days written notice. Upon notice of termination by User, CMS will cease releasing data from the file(s) to the User under this Agreement and will notify the User to destroy such data file(s). Sections 3, 4, 6, 8, 9, 10, 11, 13, 14 and 15 shall survive termination of this Agreement.

7. The User agrees to establish appropriate administrative, technical, and physical safeguards to protect the confidentiality of the data and to prevent unauthorized use or access to it. The safeguards shall provide a level and scope of security that is not less than the level and scope of security requirements established by the Office of Management and Budget (OMB) in OMB Circular No. A-130, Appendix III – Security of Federal Automated Information Systems (http://www.whitehouse.gov/omb/circulars/a130/a130.html) as well as Federal Information Processing Standard 200 entitled “Minimum Security Requirements for Federal Information and Information Systems” (http://csrc.nist.gov/publications/fips/fips200/FIPS-200-final-march.pdf); and, Special Publication 800-53 “Recommended Security Controls for Federal Information Systems” (http://csrc.nist.gov/publications/nistpubs/800-53-Rev2/sp800-53-rev2-final.pdf). The User acknowledges that the use of unsecured telecommunications, including the Internet, to transmit individually identifiable, bidder identifiable or deducible information derived from the file(s) specified in section 5 is prohibited. Further, the User agrees that the data must not be physically moved, transmitted or disclosed in any way from or by the site indicated in section 17 without written approval from CMS unless such movement, transmission or disclosure is required by a law.

8. The User agrees to grant access to the data to the authorized representatives of CMS or DHHS Office of the Inspector General at the site indicated in section 17 for the purpose of inspecting to confirm compliance with the terms of this agreement.
9. The User agrees not to disclose direct findings, listings, or information derived from the file(s) specified in section 5, with or without direct identifiers, if such findings, listings, or information can, by themselves or in combination with other data, be used to deduce an individual’s identity. Examples of such data elements include, but are not limited to geographic location, age if > 89, sex, diagnosis and procedure, admission/discharge date(s), or date of death.

The User agrees that any use of CMS data in the creation of any document (manuscript, table, chart, study, report, etc.) concerning the purpose specified in section 4 (regardless of whether the report or other writing expressly refers to such purpose, to CMS, or to the files specified in section 5 or any data derived from such files) must adhere to CMS’ current cell size suppression policy. This policy stipulates that no cell (e.g., admittances, discharges, patients, services) 10 or less may be displayed. Also, no use of percentages or other mathematical formulas may be used if they result in the display of a cell 10 or less. By signing this Agreement you hereby agree to abide by these rules and, therefore, will not be required to submit any written documents for CMS review. If you are unsure if you meet the above criteria, you may submit your written products for CMS review. CMS agrees to make a determination about approval and to notify the user within 4 to 6 weeks after receipt of findings. CMS may withhold approval for publication only if it determines that the format in which data are presented may result in identification of individual beneficiaries.

10. The User agrees that, absent express written authorization from the appropriate System Manager or the person designated in section 20 of this Agreement to do so, the User shall not attempt to link records included in the file(s) specified in section 5 to any other individually identifiable source of information. This includes attempts to link the data to other CMS data file(s). A protocol that includes the linkage of specific files that has been approved in accordance with section 4 constitutes express authorization from CMS to link files as described in the protocol.

11. The User understands and agrees that they may not reuse original or derivative data file(s) without prior written approval from the appropriate System Manager or the person designated in section 20 of this Agreement.

12. The parties mutually agree that the following specified Attachments are part of this Agreement:

CMS Agreement No. 2011-13

13. The User agrees that in the event CMS determines or has a reasonable belief that the User has made or may have made a use, reuse or disclosure of the aforesaid file(s) that is not authorized by this Agreement or another written authorization from the appropriate System Manager or the person designated in section 20 of this Agreement, CMS, at its sole discretion, may require the User to: (a) promptly investigate and report to CMS the User’s determinations regarding any alleged or actual unauthorized use, reuse or disclosure, (b) promptly resolve any problems identified by the investigation; (c) if requested by CMS, submit a formal response to an allegation of unauthorized use, reuse or disclosure; (d) if requested by CMS, submit a corrective action plan with steps designed to prevent any future unauthorized uses, reuses or disclosures; and (e) if requested by CMS, return data files to CMS or destroy the data files it received from CMS under this agreement. The User understands that as a result of CMS’s determination or reasonable belief that unauthorized uses, reuses or disclosures have taken place, CMS may refuse to release further CMS data to the User for a period of time to be determined by CMS.

The User agrees to report any breach of personally identifiable information (PII) from the CMS data file(s), loss of these data or disclosure to any unauthorized persons to the CMS Action Desk by telephone at (410) 786-2580 or by e-mail notification at cms_it_service_desk@cms.hhs.gov within one hour and to cooperate fully in the federal security incident process. While CMS retains all ownership rights to the data file(s), as outlined above, the User shall bear the cost and liability for any breaches of PII from the data file(s) while they are entrusted to the User. Furthermore, if CMS determines that the risk of harm requires notification of affected individual persons of the security breach and/or other remedies, the User agrees to carry out these remedies without cost to CMS.
14. The User hereby acknowledges that criminal penalties under §1106(a) of the Social Security Act (42 U.S.C. § 1306(a)), including a fine not exceeding $10,000 or imprisonment not exceeding 5 years, or both, may apply to disclosures of information that are covered by § 1106 and that are not authorized by regulation or by Federal law. The User further acknowledges that criminal penalties under the Privacy Act (5 U.S.C. § 552a(i) (3)) may apply if it is determined that the Requestor or Custodian, or any individual employed or affiliated therewith, knowingly and willfully obtained the file(s) under false pretenses. Any person found to have violated sec. (i)(3) of the Privacy Act shall be guilty of a misdemeanor and fined not more than $5,000. Finally, the User acknowledges that criminal penalties may be imposed under 18 U.S.C. § 641 if it is determined that the User, or any individual employed or affiliated therewith, has taken or converted to his own use data file(s), or received the file(s) knowing that they were stolen or converted. Under such circumstances, they shall be fined under Title 18 or imprisoned not more than 10 years, or both; but if the value of such property does not exceed the sum of $1,000, they shall be fined under Title 18 or imprisoned not more than 1 year, or both.

15. By signing this Agreement, the User agrees to abide by all provisions set out in this Agreement and acknowledges having received notice of potential criminal or administrative penalties for violation of the terms of the Agreement.

16. On behalf of the User the undersigned individual hereby attests that he or she is authorized to legally bind the User to the terms this Agreement and agrees to all the terms specified herein.

SCHEDULE 2: MEDICARE ATTACHMENT A

This Attachment supplements the Data Use Agreement between the Centers for Medicare & Medicaid Services ("CMS") and the Users. To the extent that the provisions of this Attachment are inconsistent with any terms in the Data Use Agreement, this Attachment modifies and overrides the Data Use Agreement.

USE OF THE INFORMATION

A-1. Users are defined as the State Medicaid Agencies and downstream entities that are Health Insurance Portability and Accountability Act (HIPAA) Covered Entities that are given individually identifiable data to carry out care coordination and quality improvement work, as well as the business associates of such entities and any sub-contractor Business Associates of such entities.

Users may include providers and care coordination organizations that wish to use individually identifiable data about beneficiaries of the Medicare and Medicaid programs (Medicare-Medicaid enrollees) to provide care coordination and quality improvement programs on behalf of the State Medicaid Agency and/or one or more HIPAA Covered Entity providers. Such work would need to be done subject to a HIPAA business associate agreement with that State Medicaid Agency and/or those HIPAA Covered Entity providers.

The Users must use any individually identifiable information that they receive under 1.a. to further the delivery of seamless, coordinated care for individuals who are Medicare-Medicaid enrollees to promote better care, better health, and lower growth in expenditures.

A-2. Subject to the limitations described below, users may reuse original or derivative data from the files specified in Section 5 of the Data Use Agreement, with or without direct identifiers, without prior written authorization from CMS, for clinical treatment, case management and care coordination, and quality improvement activities. Information derived from the files specified in Section 5 of the Data Use Agreement may be shared and used within the legal confines of the Users authority in a manner consistent with this section to improve care integration. When using or disclosing protected health information (PHI) or personally identifiable information (PII), obtained under the Data Use Agreement, Users must make "reasonable efforts to limit" the information that is used or disclosed to the "minimum necessary" to accomplish the intended purpose of the use or disclosure. Users shall limit disclosure of information to that which CMS would be permitted to disclose under the established Privacy Act "routine uses," which are categories of disclosures or uses permitted by CMS’s system of records notice available at www.cms.hhs.gov/privacy, as well as other permitted disclosures found in the Privacy Act at 5 U.S.C. §552a(b)(1) through (b)(12).

A-3. Nothing in the Data Use Agreement, including but not limited to Section 9, governs the use and/or disclosure of any information that is obtained independent of the Data Use Agreement, regardless of whether the information was also obtained or could also be derived from the files specified in Section 5 of the Data Use Agreement.
A-4. Users are expressly authorized to undertake further investigation into events and individuals related to the files specified in Section 5 in a manner consistent with Section 1.b. This includes, but is not limited to, reviewing other records, interviewing individuals, and attempting to link the files specified in Section 5 to other files.

POTENTIAL PENALTIES

A-5. Users acknowledge having received notice of potential criminal or administrative penalties for violation of the terms of the Data Use Agreement and this attachment.

CMS AGREEMENT No. 2011-13

I. PURPOSE, LEGAL AUTHORITY, AND DEFINITIONS

A. Purpose

This Information Exchange Agreement (IEA) establishes the terms, conditions, safeguards, and procedures under which the Centers for Medicare & Medicaid Services (CMS) will disclose Medicare Part D prescription drug event (PDE) data to the State Medicaid Agency for the State of Washington ("the Participating State"). Under this Agreement, PDE data that are maintained by CMS and subject to the requirements of the Privacy Act will be disclosed exclusively for use in care coordination for beneficiaries who are dually eligible for both the Medicare and Medicaid programs ("dual eligible beneficiaries"). The criteria for considering a purpose to be "care coordination" is that the specific uses of the data (e.g., analysis, monitoring, or feedback) support interventions at the individual dual eligible beneficiary level that have the potential to improve the care of dual eligible beneficiaries.

This Agreement describes the Medicare Part D PDE data elements that CMS agrees to provide, the timeframes within which the data or access will be provided, the approved uses of the data, the approved downstream disclosures of the data (if applicable), and the CMS reporting requirements. Certain protections for the data that are required under the terms of this IEA are reinforced in the Data Use Agreement (DUA) Form CMS-R-0235.

B. Legal Authority

The legal authority for CMS’s disclosure of information to the State Medicaid agency is provided by the Privacy Act of 1974 (5 U.S.C. § 552a), as amended, section 1106(a) of the Social Security Act (42 U.S.C. § 1306(a)), and the regulations and guidance promulgated there under. The release of Part D data by CMS to a State is also governed by 42 CFR 423.505. CMS data will be released to the State Medicaid Agency pursuant to the routine use as set forth in the system notice.
Disclosures under this agreement do not constitute a matching program as defined by the Privacy Act, 5 U.S.C. § 552a (a)(8), but are made in accordance with applicable requirements and other relevant provisions of the Privacy Act, 5 U.S.C. § 552a. The purpose of the disclosures described herein is not for (1) establishing or verifying initial or continuing entitlement or eligibility of individuals or entities (be they applicants for, recipients of, participants in, or providers of services) with respect to Federal benefit programs, (2) verifying compliance with statutory and regulatory requirements of such programs, or (3) recouping payments or delinquent debts under such Federal benefit programs.

This Agreement supports the responsibilities of the Federal Coordinated Health Care Office ("Medicare-Medicaid Coordination Office") as established by the Patient Protection and Affordable Care Act (Affordable Care Act) Section 2602, which specifically include providing States with the tools necessary to develop programs to align Medicare and Medicaid benefits for dual eligible beneficiaries.

C. Definitions

1. "BI" means Business Intelligence (BI) tool.

2. "Care coordination" means uses of the data (e.g., analysis, monitoring, or feedback) to support interventions at the individual dual eligible beneficiary level that have the potential to improve the care of dual eligible beneficiaries.

4. "Custodian" or “custodian agent" means a designated employee of the State Medicaid Agency who is responsible for protecting the confidentiality of data disclosed in accordance with this agreement.

5. "Downstream user” means any entity (e.g., treating provider or contractor) that has been approved by CMS to receive PDE data that was provided to the State Medicaid Agency under this Agreement for care coordination purposes.

6. "DUA" means the CMS Data Use Agreement which accompanies this IEA.

7. "Dual eligible beneficiary" means an individual who is concomitantly enrolled in Medicare and has been determined to be eligible for full benefits under the Participating State's Medicaid program.

8. "Medicare-Medicaid Coordination Office" or "MMCO" means the Federal Coordinated Health Care Office.

10. "Medicaid" means the Medicaid program established under Title XIX of the Social Security Act.

11. "Medicare" means the health insurance program established under Title XVIII of the Social Security Act.

12. "PDE data" means Medicare Part D Prescription Drug Event data that are reported to CMS by Part D prescription drug plan sponsors and maintained by CMS.

14. "Treating provider" is a clinician who is currently responsible for care provision and/or care coordination for dual eligible beneficiaries.

II. RESPONSIBILITIES OF CMS AND STATE MEDICAID AGENCY

Under the terms of this Agreement, CMS will provide to the State Medicaid agency certain Medicare PDE data maintained by CMS. PDE data will only be shared for dual eligible beneficiaries who are eligible to receive full Medicaid benefits in the Participating State; PDE data for this population will be made available to the Participating State whether or not the prescription was filled in the Participating State. Financial data and internal plan and pharmacy prescription identification numbers will be excluded as indicated in MMCOCMCS Informational Bulletin of May 11, 2011.

CMS will provide to the State Medicaid Agency the tools necessary to develop, implement, and monitor care coordination programs to better align and improve the delivery of Medicare and Medicaid benefits for dual eligible beneficiaries. In accordance with the stipulations described throughout both this Agreement and the DUA, this data sharing Agreement will permit State Medicaid Agencies to use and disclose Medicare Part D data solely for CMS approved purposes.

Once CMS approves the State Medicaid Agency's PDE data requests, the State or its custodian should fill out the attached "Approved Uses and Downstream Users. (Please see Attachment 1). CMS will provide the State with access to Medicare Part D PDE data that may include a one-time file of historical data as well as subsequent PDE data updated on a monthly basis. The State Medicaid Agency or its custodian represents further that the facts and statements made in any data use proposal submitted to CMS using Attachment 1 are complete and accurate. Further, the State Medicaid Agency or its custodian represents that said data uses listed in Attachment 1, and as approved by CMS, represent the total use(s) to which the PDE data will be applied.

The PDE data disclosed under this IEA will be used by State Medicaid Agency employees and approved downstream users solely for the uses and purposes identified above. All downstream users that will receive, view or access these data must hold a valid and current state data use agreement with the State Medicaid Agency. The state...
data use agreement must comply with all the terms and conditions of this IEA and the applicable CMS DUA. The State Medicaid Agency must obtain prior CMS approval in the form of an additional DUA Addendum before sharing these data with any additional downstream user. These data may not be used for any purposes that are not indicated in this agreement, such as research, fraud detection, or payment (e.g., calculating risk adjustment factors).

In exchange for the data provided under this Agreement, every six months the State Medicaid Agency agrees to brief CMS on whether and how the data are being used and the results of its care coordination activities. Among these results will be findings on potential best practices for care coordination, quality improvement, and cost savings. In addition, the State Medicaid Agency will provide directly to CMS any written reports based on these results, which may be used or disseminated by CMS at its discretion. Upon request by CMS at any time, the State Medicaid Agency will also provide CMS with any additional updates as requested. Finally, if requested by CMS, and if the CMS use of the data complies with the Privacy Act and is otherwise permitted by law, the State Medicaid Agency will provide to CMS all linked Medicare/Medicaid data that have been made possible by this data sharing Agreement.
