

North Kitsap Substance Abuse Prevention Coalition

March 2019 - June 2019

**FUNDED THROUGH THE KITSAP COUNTY
PREVENTION PROGRAM**

Building For The Future

It's will soon be that time again. "Mom I'm bored", "I need a job", "can't we do something fun", "I need help getting ready for college", "is there something we can do as a family?" The list goes on and on. As we approach Spring, Summer will soon be upon us. That means, kids will be out of school. Some youth will be preparing for college or other training programs. Many will be hoping for a job, new experiences and fun. Parents will be looking for things to keep their kids busy; and safe.

We are fortunate in our community to have a multitude of resources to connect families and youth with these items and much more. We have been asked to help identify some key resources , activities and events to help as we build up our youth and community for a brighter more successful future.

Here are a few places to start :

Boys and Girls Club: <https://www.facebook.com/boysandgirlsclubofnk/>

Village Green Community Center: 26159 Dulay Rd NE Kingston, <http://www.kingstonvillagegreen.org/>

Making Prevention Work:

The North Kitsap Substance Abuse Prevention Coalition works to mobilize the community to effectively prevent and reduce substance abuse in the North Kitsap District through collaboration with community organizations, public education and awareness strategies, and implementation of evidence based substance abuse prevention programs.

" I never teach my pupils, I only attempt to provide the conditions in which they learn." -Albert Einstein

North Kitsap Substance Abuse Prevention Coalition Mission

To Create a framework of resources, support and partnerships to combat youth substance abuse in North Kitsap thus providing for a safe, healthy environment for all.

Deciding how to get involved can be a challenge especially when you're looking at positively impacting your community. It is not enough just to respond to a, 'call for volunteers'. It is important to find your focus. There are a few questions you may need to ask yourself. What is your passion, what do you want to change in your community and what interests you?

In our particular collaboration efforts, we will look at drug and alcohol prevention. It may be challenging to figure out where you fit as a volunteer. First, you will need to identify available opportunities. Once you have narrowed down where the needs are, you will want to determine the time commitments, specific requirements and timelines that may be associated with the project or effort you are considering. As you move into a volunteer role you will have many opportunities to expand, reshape and bring about transformation, not only for your community but for yourself as an individual. The power of community mobilization engages communities and creates positive change.

Joanne Fritz from *The Balance* sums volunteering up through an acronym; **GIVERS**.

G: Personal growth and well-being.

I: Increased sense of purpose, such as knowing just how they make a difference.

V: Voice or how volunteers are asked to give their time.

E: Easy sign up, to get there, to get the job done.

R: Recognition, being thanked, appreciated, and celebrated.

S: Social opportunities, making new friends and working on a team.

As you explore volunteer opportunities, consider this. Our substance abuse prevention coalition is looking for individuals interested in advocacy, research, data analysis, community events, program implementation, working with youth, networking and leadership. We would love to have you on board!
