Service providers in Kitsap County are struggling to serve individuals and families with limited supplies and volunteers, but you can help!

DONATE NEEDED SUPPLIES

Cleaning and Disinfecting Supplies
Disease Prevention items are in short supply, please consider donating the following items:
- Toilet Paper
- Hand Sanitizer (inc small bottles)
- Liquid Hand Soap
- Disinfecting Wipes
- Paper Towels
- Diapers
- Baby Wipes
- Lysol / Disinfecting Sprays
- Bleach
- Disposable Gloves
- Kitchen Garbage Bags

Snacks and Food
Service providers are trying to feed hundreds of people each day.
- Individually packaged snacks
- Individual size fruit juice drinks
- Ground Coffee
- Creamer
- Sugar
- 8oz paper hot cups
- Bottled water
- Non-perishable food items

Other Supplies
- Masks and face shields
- Hand-Sewn Masks
- Digital Thermometers
- Gift Cards (grocery stores, restaurants that deliver, online suppliers, gas cards)
- Entertainment (for all ages)
- Shelters and Day Rooms are transitioning to 24-hour operations to give people a place to 'stay home'.
  - Learning toys & activities for children and youth
  - Books
  - E-books & Kindles (easier to clean)
  - DVDs and Streaming Devices
  - Games
  - Art Supplies

Financial Donations
Most programs rely on individual donations, but many have dried up and big fundraisers are cancelled due to restrictions on large gatherings
- Contact organizations to donate
- Donate to unitedwaykitsap.org

VOLUNTEER

Many Kitsap County volunteers are unable to assist due to health conditions or age which place them in vulnerable groups for severe infection risk. Please consider volunteering at shelters, meal sites, or day rooms. Shelters are transitioning to being open 24-hours daily and expanding services at this time - and need your help! If you are worried about working on the front lines, some volunteer roles don't have interaction with guests - like food prep, driving, or helping with laundry, but are still critical to program operations.
- Contact organizations about volunteering or visit volunteerkitsap.org

PREVENT THE SPREAD

- Wash or sanitize your hands
- Cover coughs and sneezes
- Use social distancing of 6ft
- Stay home when sick
- Clean & disinfect frequently
