PROGRAMMATIC DETERMINATION OF NONSIGNIFICANCE

Description of Proposal: **Ordinance related to Stormwater Business Pollution Prevention also referred to as the "Source Control Best Management Practice (BMP) Ordinance"**. This State Environmental Policy Act (SEPA) decision is for the processing of an Ordinance that affects Kitsap businesses and requires them to take measures to stop water pollution before it enters the stormwater system. This requirement is mandated by [Department of Ecology's Western Washington Phase II Municipal Stormwater Permit](#). The ordinance is consistent with the Department of Ecology's mandate that requires businesses to address pollutants such as fertilizers, oil and grease, wash water, etc., that originate from daily business/site activities, spill incidents, improper disposal, or other indirect sources by implementing Best Management Practices (often called BMPs).

Proponent: Kitsap County Department of Public Works

Lead Agency: Kitsap County

Location of proposal, including street address, if any: N/A

The lead agency for this programmatic proposal has determined that the Ordinance does not have a probable significant adverse impact on the environment. Accordingly, an environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This programmatic DNS is issued under WAC 197-11-340(2) and is not administratively appealable under chapter 21.04 KCC. The lead agency will not further act on this proposal for 14 days from the date below. Comments must be submitted by May 9, 2022.
