

SEPA ENVIRONMENTAL CHECKLIST

Purpose of checklist:

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions for applicants:

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Instructions for Lead Agencies:

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

Use of checklist for nonproject proposals: [\[help\]](#)

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the [SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS \(part D\)](#). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements –that do not contribute meaningfully to the analysis of the proposal.

A. Background [\[help\]](#)

1. Name of proposed project, if applicable: [\[help\]](#)

Amendment to Kitsap County Code changing aggregate extraction to a conditional use in the Mineral Resource Overlay zone.

2. Name of applicant: [\[help\]](#)

Kitsap County Department of Community Development

3. Address and phone number of applicant and contact person: [\[help\]](#)

Liz Williams, Planner

619 Division Street, MS-36
Port Orchard, WA 98366
(360) 337-5777

4. Date checklist prepared: [\[help\]](#)

October 4, 2018

5. Agency requesting checklist: [\[help\]](#)

Kitsap County

6. Proposed timing or schedule (including phasing, if applicable): [\[help\]](#)

Adoption is expected in December 2018.

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain. [\[help\]](#)

The Kitsap County Code is subject to continuous review and may be amended in future years.

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal. [\[help\]](#)

The proposed amendment is part of Kitsap County's Comprehensive Plan Amendment Process for 2018. All proposed amendments have been reviewed as required by the State Environmental Policy Act (SEPA) process.

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. [\[help\]](#)

Not applicable for this non-project proposal.

10. List any government approvals or permits that will be needed for your proposal, if known. [\[help\]](#)

Not applicable for this non-project proposal.

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.) [\[help\]](#)

The Department of Community Development proposes an amendment to Kitsap County Code Title 17 'Zoning', Section 17.410.042. The code currently allows Categorical use 602, 'aggregate extraction site', as a permitted use within the Mineral Resource Overlay zone. Aggregate extraction includes the mining of sand, gravel, and rock.

The proposed amendment changes 'aggregate extraction site' from being permitted outright to requiring a conditional use permit. The change ensures:

- public participation during the permit review process.
- consideration of project-specific environmental impacts.

This change is not retroactive to existing aggregate extraction operations.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist. [\[help\]](#)

The proposed code amendment would apply to future aggregate extraction projects in unincorporated areas of Kitsap County.

B. Environmental Elements [\[help\]](#)

1. Earth [\[help\]](#)

a. General description of the site: [\[help\]](#)

(circle one): Flat, rolling, hilly, steep slopes, mountainous, other _____

Not applicable to this non-project proposal.

b. What is the steepest slope on the site (approximate percent slope)? [\[help\]](#)

Not applicable to this non-project proposal.

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils. [\[help\]](#)

Not applicable to this non-project proposal.

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. [\[help\]](#)

Not applicable to this non-project proposal.

e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill. [\[help\]](#)

Not applicable to this non-project proposal.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe. [\[help\]](#)

Not applicable to this non-project proposal.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? [\[help\]](#)

Not applicable to this non-project proposal.

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

2. Air [\[help\]](#)

a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known. [\[help\]](#)

Not applicable to this non-project proposal.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. [\[help\]](#)

Not applicable to this non-project proposal.

c. Proposed measures to reduce or control emissions or other impacts to air, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

3. Water [\[help\]](#)

a. Surface Water:

1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into. [\[help\]](#)

Not applicable to this non-project proposal.

2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans. [\[help\]](#)

Not applicable to this non-project proposal.

3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material. [\[help\]](#)

Not applicable to this non-project proposal.

4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known. [\[help\]](#)

Not applicable to this non-project proposal.

5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan. [\[help\]](#)

Not applicable to this non-project proposal.

6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge. [\[help\]](#)

Not applicable to this non-project proposal.

b. Ground Water:

- 1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known. [\[help\]](#)

Not applicable to this non-project proposal.

- 2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve. [\[help\]](#)

Not applicable to this non-project proposal.

c. Water runoff (including stormwater):

- 1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe. [\[help\]](#)

Not applicable to this non-project proposal.

- 2) Could waste materials enter ground or surface waters? If so, generally describe. [\[help\]](#)

Not applicable to this non-project proposal.

- 3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe. [\[help\]](#)

Not applicable to this non-project proposal.

d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

4. Plants [\[help\]](#)

a. Check the types of vegetation found on the site: [\[help\]](#)

___deciduous tree: alder, maple, aspen, other

___evergreen tree: fir, cedar, pine, other

___shrubs

___grass

___pasture

___crop or grain

___ Orchards, vineyards or other permanent crops.

___ wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other

___ water plants: water lily, eelgrass, milfoil, other

___ other types of vegetation

- b. What kind and amount of vegetation will be removed or altered? [\[help\]](#)

Not applicable to this non-project proposal.

- c. List threatened and endangered species known to be on or near the site. [\[help\]](#)

Not applicable to this non-project proposal.

- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: [\[help\]](#)

Not applicable to this non-project proposal.

- e. List all noxious weeds and invasive species known to be on or near the site. [\[help\]](#)

Not applicable to this non-project proposal.

5. **Animals** [\[help\]](#)

- a. List any birds and other animals which have been observed on or near the site or are known to be on or near the site. [\[help\]](#)

Examples include:

birds: hawk, heron, eagle, songbirds, other:

mammals: deer, bear, elk, beaver, other:

fish: bass, salmon, trout, herring, shellfish, other _____

Not applicable to this non-project proposal.

- b. List any threatened and endangered species known to be on or near the site. [\[help\]](#)

Not applicable to this non-project proposal.

- c. Is the site part of a migration route? If so, explain. [\[help\]](#)

Not applicable to this non-project proposal.

- d. Proposed measures to preserve or enhance wildlife, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

- e. List any invasive animal species known to be on or near the site. [\[help\]](#)

Not applicable to this non-project proposal.

6. **Energy and Natural Resources** [\[help\]](#)

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. [\[help\]](#)

Not applicable to this non-project proposal.

- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. [\[help\]](#)

Not applicable to this non-project proposal.

c. What kinds of energy conservation features are included in the plans of this proposal?

List other proposed measures to reduce or control energy impacts, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

7. Environmental Health [\[help\]](#)

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal?

If so, describe. [\[help\]](#)

Not applicable to this non-project proposal.

1) Describe any known or possible contamination at the site from present or past uses.

[\[help\]](#)

Not applicable to this non-project proposal.

2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity. [\[help\]](#)

Not applicable to this non-project proposal.

3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project. [\[help\]](#)

Not applicable to this non-project proposal.

4) Describe special emergency services that might be required. [\[help\]](#)

Not applicable to this non-project proposal.

5) Proposed measures to reduce or control environmental health hazards, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

b. Noise [\[help\]](#)

1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)? [\[help\]](#)

Not applicable to this non-project proposal.

2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. [\[help\]](#)

Not applicable to this non-project proposal.

3) Proposed measures to reduce or control noise impacts, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

8. Land and Shoreline Use [\[help\]](#)

a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe. [\[help\]](#)

Not applicable to this non-project proposal.

b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use? [\[help\]](#)

Not applicable to this non-project proposal.

1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how: [\[help\]](#)

Not applicable to this non-project proposal.

c. Describe any structures on the site. [\[help\]](#)

Not applicable to this non-project proposal.

d. Will any structures be demolished? If so, what? [\[help\]](#)

Not applicable to this non-project proposal.

e. What is the current zoning classification of the site? [\[help\]](#)

Not applicable to this non-project proposal.

f. What is the current comprehensive plan designation of the site? [\[help\]](#)

Not applicable to this non-project proposal.

g. If applicable, what is the current shoreline master program designation of the site? [\[help\]](#)

Not applicable to this non-project proposal.

h. Has any part of the site been classified as a critical area by the city or county? If so, specify. [\[help\]](#)

Not applicable to this non-project proposal.

- i. Approximately how many people would reside or work in the completed project? [\[help\]](#)

Not applicable to this non-project proposal.

- j. Approximately how many people would the completed project displace? [\[help\]](#)

Not applicable to this non-project proposal.

- k. Proposed measures to avoid or reduce displacement impacts, if any: [\[help\]](#)

Not applicable to this non-project proposal.

- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

- m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

9. Housing [\[help\]](#)

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing. [\[help\]](#)

Not applicable to this non-project proposal.

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing. [\[help\]](#)

Not applicable to this non-project proposal.

- c. Proposed measures to reduce or control housing impacts, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

10. Aesthetics [\[help\]](#)

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed? [\[help\]](#)

Not applicable to this non-project proposal.

- b. What views in the immediate vicinity would be altered or obstructed? [\[help\]](#)

Not applicable to this non-project proposal.

- c. Proposed measures to reduce or control aesthetic impacts, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

11. Light and Glare [\[help\]](#)

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur? [\[help\]](#)

Not applicable to this non-project proposal.

- b. Could light or glare from the finished project be a safety hazard or interfere with views? [\[help\]](#)

Not applicable to this non-project proposal.

- c. What existing off-site sources of light or glare may affect your proposal? [\[help\]](#)

Not applicable to this non-project proposal.

- d. Proposed measures to reduce or control light and glare impacts, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

12. Recreation [\[help\]](#)

- a. What designated and informal recreational opportunities are in the immediate vicinity? [\[help\]](#)

Not applicable to this non-project proposal.

- b. Would the proposed project displace any existing recreational uses? If so, describe. [\[help\]](#)

Not applicable to this non-project proposal.

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

13. Historic and cultural preservation [\[help\]](#)

- a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe. [\[help\]](#)

Not applicable to this non-project proposal.

- b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources. [\[help\]](#)

Not applicable to this non-project proposal.

- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc. [\[help\]](#)

Not applicable to this non-project proposal.

- d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required. [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

14. Transportation [\[help\]](#)

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any. [\[help\]](#)

Not applicable to this non-project proposal.

- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop? [\[help\]](#)

Not applicable to this non-project proposal.

- c. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate? [\[help\]](#)

Not applicable to this non-project proposal.

- d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private). [\[help\]](#)

Not applicable to this non-project proposal.

- e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. [\[help\]](#)

Not applicable to this non-project proposal.

- f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates? [\[help\]](#)

Not applicable to this non-project proposal.

- g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe. [\[help\]](#)

Not applicable to this non-project proposal.

- h. Proposed measures to reduce or control transportation impacts, if any: [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

15. Public Services [\[help\]](#)

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe. [\[help\]](#)

Not applicable to this non-project proposal.

b. Proposed measures to reduce or control direct impacts on public services, if any. [\[help\]](#)

Not applicable to this non-project proposal. Any future development will be subject to applicable project-specific permitting and environmental review.

16. Utilities [\[help\]](#)

a. Circle utilities currently available at the site: [\[help\]](#)
electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system,
other _____

Not applicable to this non-project proposal.

b. Describe the utilities that are proposed for the project, the utility providing the service,
and the general construction activities on the site or in the immediate vicinity which might
be needed. [\[help\]](#)

Not applicable to this non-project proposal.

C. Signature [\[help\]](#)

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature:  _____
Name of signee Liz Williams
Position and Agency/Organization Kitsap County
Date Submitted: 10/4/2018

D. Supplemental sheet for nonproject actions [\[help\]](#)

(IT IS NOT NECESSARY to use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

The proposal will likely increase protection against discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise. Requiring a conditional use permit will allow more opportunities to mitigate negative impacts on a project-specific basis.

Proposed measures to avoid or reduce such increases are:

Future development must comply with local, state, and federal regulations regarding protection of environmentally sensitive areas. Conditions to reduce impacts may be required and would be determined on a project-specific basis.

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

The proposal will likely increase protection of plants, animals, fish, and marine life. Requiring a conditional use permit will allow more opportunities to mitigate negative impacts on a project-specific basis.

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

Future development must comply with local, state, and federal regulations regarding protection of environmentally sensitive areas. Conditions to reduce impacts may be required and would be determined on a project-specific basis.

3. How would the proposal be likely to deplete energy or natural resources?

The proposal will not likely increase demands for energy and natural resources.

Proposed measures to protect or conserve energy and natural resources are:

Future development must comply with local, state, and federal regulations regarding protection and conservation of energy and natural resources.

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

The proposal will likely increase protection of these areas. Requiring a conditional use permit will allow for more opportunities to mitigate negative impacts on a project-specific basis.

Proposed measures to protect such resources or to avoid or reduce impacts are:

Future development must comply with local, state, and federal regulations regarding protection of environmentally sensitive areas. Conditions to reduce impacts may be required and would be determined on a project-specific basis.

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

The proposal will likely increase protection of these areas. Requiring a conditional use permit will allow for more opportunities to mitigate negative impacts on a project-specific basis.

Proposed measures to avoid or reduce shoreline and land use impacts are:

Future development must comply with local, state, and federal regulations regarding shorelines and land use impacts. Conditions to

increase compatibility with surrounding uses may be required and would be determined on a project-specific basis.

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

The proposal will not likely increase demands on transportation or public services and utilities. Requiring a conditional use permit will allow for more opportunities to mitigate negative impacts on a project-specific basis.

Proposed measures to reduce or respond to such demand(s) are:

Future development must comply with local, state, and federal regulations regarding shorelines and land use impacts. Conditions can mitigate impacts to transportation and public services and will be determined on a project-specific basis.

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

This change will not conflict with requirements for the protection of the environment. Requiring a conditional use permit will allow for more opportunities to mitigate negative impacts on a project-specific basis.
