

Where do my garbage and recycling go?

Garbage and recycling are taken to the Olympic View Transfer Station by your hauler.

RECYCLING AND GARBAGE FACILITY

OLYMPIC VIEW TRANSFER STATION

RECYCLABLES are transferred to larger containers for transport.

GARBAGE is compacted into containers, then loaded onto railcars.

RECYCLABLES are baled or processed at a Materials Recovery Facility (MRF)...

...and are then transported to factories and made into new products.

About 180,000 tons of garbage come from Kitsap County each year!

BUY RECYCLED

This is you – buying products made from items you recycled.
